

2012
Outback

Love. It's what makes a Subaru, a Subaru.

 **SUBARU**
Confidence in Motion

Everything ventured. **Everything gained.**

The 2012 **Subaru Outback**

Not all who wander are lost. Outback has what you need to explore whenever and wherever with confidence. Geared with the versatility you seek to take on any adventure, Outback is ready. And with Symmetrical All-Wheel Drive and a rugged suspension, you get car-like handling with SUV capabilities. So grab some gear, a few fellow adventurers and go make some stories.

Outback 3.6R Limited in Ice Silver Metallic.

MPG

Efficient

Getting up to 29 mpg highway¹ and over 500 miles of range (highway) with the available Lineartronic[®] CVT, Outback is made to help you do more with less.

¹ EPA highway estimate. Actual mileage may vary.

Strong

Between its structural reinforcements, rugged suspension and the choice of two powerful engines, you have an Outback that will run smoothly when you work it hard.

Versatile

Smartly equipped with an array of compartments, pockets, holders, and space, Outback will make sure that all of your gear is just as comfortable as you are.

Protective

Outback earns its reputation for safety, thanks to intelligent active and all-around-you passive safety systems making it—in a worst-case scenario—one of your best possible bets.

Go where **stories are made.**

"Perhaps one of the most versatile vehicles on the road, the Outback is a Swiss Army knife on wheels; there is a blade or other useful utensil ready to handle whatever task you throw its way."

—MSN Autos

Up a road. Down a trail.
Always on the move.

Capable, comfortable and **connected.**

Make room for **more doing.**

The spacious cabin and clever designs found on every Outback make getting in, getting out and getting all of your gear easier for you and your passengers. Generous legroom in the back, plenty of hip room in the front and spacious headroom all around make everyone comfortable. Yet with over 34 cubic feet of cargo volume behind the 2nd-row seats, there's still room for plenty of stuff. Fold down the 65/35 split seats and you can boost your cargo capacity to more than 71 cubic feet, when big plans call for big things.

Go bigger. Climb steeper. **Travel farther.**

Ready, willing and oh so able.

Symmetrical AWD

With an almost perfectly symmetrical layout, our unique all-wheel drive system offers better balance for stability and a more efficient flow of power to all four wheels for greater grip and control.

Exceptional Control

The balance of the SUBARU BOXER® engine and the grip of Subaru AWD help give you the power and responsiveness you need on those twisty roads and unpredictable conditions. This poise is combined with VDC electronic stability control, which can intervene to help you stay in control.

Versatility

Outback is filled with handy designs like the multifunction center console, and the unique retractable crossbars of the roof rack system that help keep your stuff neatly packed and under control. While a spacious cargo area and a 65/35 split-folding rear seatback make loading, hauling and accessing cargo easy.

Suspension

With its rugged 4-wheel independent suspension and up to 8.7 inches of ground clearance, your Outback has the capability to take you to destinations ordinary cars can't. Yet it drives with a smooth ride and responsive handling no SUV can match.

Passenger Protection

Our body structure design, the Ring-shaped Reinforcement Frame, is designed to absorb and direct impact energy away from the passenger cabin, while an array of airbags—all standard—further help prevent injury.¹

Rewarding Technology

Available features like dual-zone climate control help keep you comfortable, while a USB for your iPod®, HD Radio™, XM® Satellite Radio² and Bluetooth® hands-free connectivity keep you connected and entertained.

¹ Always wear seatbelts. Children should be properly restrained in the rear seat.

² 3-month trial subscription included when a dealer- or port-installed accessory or a 4-month trial subscription included as part of the Harman Kardon premium audio system. Activation and required monthly subscription sold separately. See your dealer.

TRACTION AND STABILITY

Symmetrical All-Wheel Drive	Standard	Standard
Vehicle Dynamics Control (VDC)	VDC electronic stability control utilizes sensors which constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.	
Traction Control System (TCS)	VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

Responsible. Reliable. Ready to join the family.

At Subaru, we're committed to building a lasting, rewarding relationship with you and the world we share. We start by building our vehicles to last—it's why 96% of all the vehicles we've built in the last 10 years are still on the road today.¹ We also share your desire for a cleaner, greener world. The Forester, Impreza, Legacy and Outback have all been recognized with Partial Zero Emission Vehicle—PZEV²—status because of their exceptionally low emissions. What's more, in 2004 Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill.

These brochures were printed with vegetable-based inks and produced using a "Green Printing Process" and FSC® standards. The Forest Stewardship Council™ (FSC) is an international organization that brings people together to find solutions which promote responsible stewardship of the world's forests and environments.

By producing these brochures in a green way rather than by traditional methods, we saved 105 trees preserved for the future; 302 lbs water-borne waste not created; 44,496 gallons wastewater flow saved; 4,923 lbs solid waste not generated; 9,694 lbs net greenhouse gases prevented; 74,196,840 BTUs energy not consumed.

¹ Based on Polk U.S. vehicles in operation registration statistics 2001–2010. ² 2012 Forester, Impreza, Legacy and Outback 2.5L non-turbo models certified as Partial Zero Emission Vehicle (PZEV) are available in all 50 states. Only those sold and registered in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, New York, Rhode Island and Vermont will be eligible for the 15 years/150,000 mile emission warranty. Oregon, Pennsylvania and Washington vehicles are not covered under PZEV emissions control warranty.
