

It's go time, everybody. Snacks are packed, toys are loaded, kids are boarded, and there's still plenty of room. Even Mr. Squiggles has his own seat. Whether you want to plug in, head out or launch that weather balloon for a school project, the 2014 Toyota Sienna can help. With its available wide-screen Dual-View Entertainment Center' for the kids, and sports sedan feel and sleek styling for the grown-ups, road time feels like play time to everyone. Sienna has enough power, space and style to take your family and friends anywhere. Let's go places.

1 See footnote 15 in Dis

Introduce your family to ours.

Every family is unique. That's why we offer so many different versions of Sienna. All told, there are five models to choose from: L, LE, SE, XLE and Limited. There's one thing, however, that all Siennas have in common: the efficiency and power of a 3.5L V6 engine. And for an added measure of confidence, you can go with available All-Wheel Drive (AWD).

99

SE

From its unique front and rear bumpers and sport mesh grille to its 19-in. gunmetal-finished alloy wheels and smoked sport-trimmed LED taillights, Sienna SE takes its design cues from sports sedans, not minivans.

SE shown in Silver Sky Metallic with available power tilt/slide moonroof and Limited FWD shown in Predawn Gray Mica with available Premium Package, Convenience Package and Advanced Technology Package, 2012 models shown. 1. See footnote 20 in Disclosures section. 2. See footnote 15 in Disclosures section. 3. See footnote 11 in Disclosures section. 4. See footnote 19 in Disclosures section. 5. See footnote 2 in Disclosures section.

LIMITED

US-SE11-3-A

Among Sienna Limited's many standard features are leather-trimmed seating surfaces, dual moonroof, Smart Key System, front and rear parking assist sonar and a sliding center console. It's also available with a Dual-View Entertainment Center,² Panorama Camera,³ Dynamic Radar Cruise Control (DRCC),⁴ rain-sensing windshield wipers, and High Intensity Discharge (HID) headlights with an Automatic High Beam⁵ feature.

Who says parenting requires sacrifice?

You knew Sienna would be loaded with space and versatility, but it's also loaded with style and technology. Notice the available wood-grain-style accents. Or the carbon-fiber-style trim of Sienna SE. And when it comes to technology, Sienna is available with Display Navigation' with Entune®² App Suite. Entune® App Suite is a collection of popular mobile applications and data services integrated with select Toyota vehicles. It includes three years of complimentary access to apps and data services delivered via most smartphones and some feature phones.

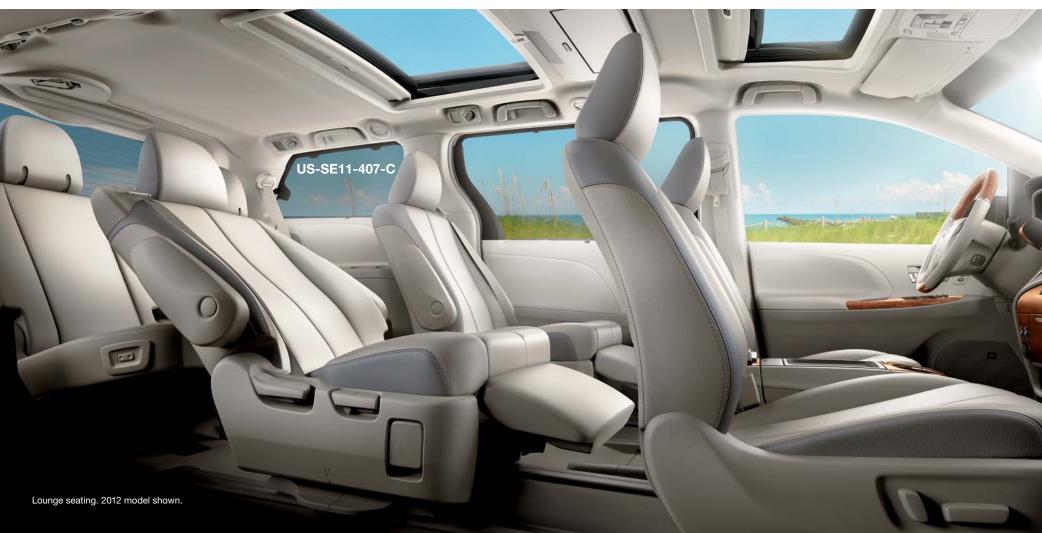

AVAILABLE PANORAMA CAMERA

When Sienna is in Reverse, the area behind the vehicle that's visible to the camera is displayed on the DVD navigation screen. Choose either a 180-degree wide-angle view or a regular view, and see the image in any of three modes: Projected Path, Parking Assist, or Distance Guide.

No wonder the kids think they're celebrities.

Dual Moonroof

On Sienna Limited, a standard dual moonroof creates an airy and open interior atmosphere. The front moonroof tilts open and slides over the roof, while the rear moonroof slides into the ceiling.

The available Dual-View Entertainment Center, with its 16.4-in. LCD display, can be used in either single-screen or split-screen mode. On one side, play a DVD from the built-in DVD player; on the other, play a different movie or a video game using a compatible game console or DVD player plugged into the nearby 120V AC power outlet and RCA jacks. Plus, you can control the system by remote control or from the center instrument panel, and listen using Sienna's built-in speakers or wireless headphones.³

Lounge Seating

Power Split & Stow 3rd Row[™] Seat

The power third-row seat in Sienna Limited FWD splits 60/40 to adapt to your needs. Just push two buttons, and the seat folds and retreats into the cargo area storage compartment - convenient if you're carrying lots of cargo.

Sliding Center Console

To serve the sliding second-row captain's chairs, the center console in Sienna XLE AWD and Limited expands and slides rearward. So cup holders stay within easy reach of the second-row passengers.

See footnote 17 in Disclosures section. 2. See footnote 15 in Disclosures section. 3. See footnote 16 in Disclosures section. 4. See footnote 20 in Disclosures section. 5. See footnote 9 in Disclosures section. 6. See footnote 8 in Disclosures section. 7. See footnote 6 in Disclosures section.

You can't help but pamper your family with the 7-passenger Sienna Limited. A dual moonroof provides stellar views for all. Second-row lounge seating¹ features reclining captain's chairs with adjustable ottomans and armrests, climate controls and maplights. The seats slide up to 23 inches to add comfort and make using the dual power sliding side doors even easier. And an available Dual-View Entertainment Center² completes the picture. The kids are, after all, VIPs.

Dual-View Entertainment Center

On Sienna XLE AWD and Limited, the second row features adjustable ottomans and armrests for both captain's chairs.

Power Split & Stow 3rd Row™ seat

US-SE11-9-B

Dual power sliding side doors

Power liftgate

DUAL POWER SLIDING SIDE DOORS AND POWER LIFTGATE

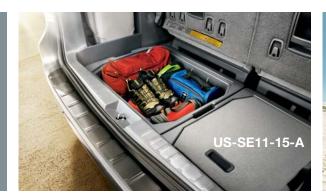

Getting people or cargo into or out of Sienna is easy. The available dual power sliding side doors are operated with a button on the remote keyless entry or available Smart Key⁴ fobs, with switches on the overhead console and interior center pillar, or by pulling either of the door handles. The power liftgate on SE, XLE and Limited can also be operated with the remote keyless entry or Smart Key fobs, or with a switch on the overhead console. Both the sliding side doors and the liftgate offer jam protection.

VOICE-ACTIVATED TOUCH-SCREEN DVD NAVIGATION⁵

Featuring a large 7-in. display, this high-resolution navigation system features Bluetooth®6 wireless technology, a 10-speaker JBL® audio system, voice recognition, embedded points of interest, CD and MP3/WMA capability, a USB port⁷ and an auxiliary audio jack. For more information about our available audio systems, as well as Bluetooth®-compatible features, please contact your local Toyota dealer.

STORAGE SPACE

The cargo area behind the third-row seat offers a storage compartment deep enough to serve as a safe haven for valuable items you want stored (available accessory cargo organizers shown).

STOWABLE CENTER PASSENGER SEAT

On 8-passenger models, the versatil center seat in the second row folds upright to form a comfortable seat. Or it can be removed and stored in its storage compartment, leaving captain's chairs and two additional cup holders.

SECOND-ROW TIP-UP¹ AND LONG SLIDE

To make access to the third row a breeze, the second-row seat cushions tip up and the entire row slides forward. This function also makes seat removal easier and maximizes cargo space behind the second row.

CARGO SPACE

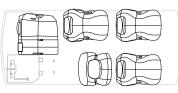

Sienna is loaded with packing possibilities. Depending on how you have the seats configured, your cargo volume can be anything from just over 39 cubic feet all the way up to 150 cubic feet?

Sextuplets? You're in luck.

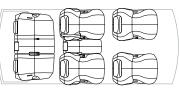

Depending on which of its many different seating arrangements you choose, the remarkably versatile Sienna can accommodate as many as eight people. Or, in the event you're transporting playpens, strollers and the like, it can be quickly configured to provide the ideal combination of passenger and cargo space. And there's plenty of head room, leg room and hip room for everyone — which means Sienna will still fit your family years after the kids have outgrown their car seats.

US-ISE11-4-A

7-PASSENGER SEATING with tip-up and long-slide second row

US-ISE11-2-A

8-PASSENGER SEATING with tip-up and long-slide second row

Sienna's versatile interior is designed to give parents choices. Configure the seats for maximum occupancy or any combination of cargo and kids.

We've taken an active interest in your family.

Every new Toyota is equipped with the Star Safety System,[™] a suite of six active safety features designed to help keep you out of harm's way. The system includes Enhanced Vehicle Stability Control (VSC); Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)² and Smart Stop Technology[®] (SST)³. What's more, Sienna's Vehicle Dynamics Integrated Management (VDIM)⁴ system, available on Limited FWD models, enhances the effectiveness of Sienna's Star Safety System[™] by coordinating with various active safety features to anticipate potential trouble and react accordingly.

US-SE11-16-E

ANTI-LOCK BRAKE SYSTEM (ABS)

US-SE13-432-A

BLIND SPOT MONITOR (BSM)⁵ WITH REAR **CROSS-TRAFFIC ALERT (RCTA)**⁶

The available Blind Spot Monitor with Rear Cross-Traffic Alert helps you see vehicles that might be in your blind spot. When BSM detects a vehicle, it warns you with a flashing indicator light on the appropriate outside mirror RCTA works in much the same way. When you slowly back out of a driveway or parking spot, it provides audible and visual indicators to warn you of approaching vehicle

MUDDY SURFACE

If the driver applies excessive pressure to the accelerator, Traction Control helps prevent wheel slippage on all kinds of surfaces.

WET SURFACE

The Anti-lock Brake System modulates brake pressure when braking hard or when braking on a slippery surface, helping to avoid wheel lockup and maintain teering control.

SLUSHY SURFACE

In winter conditions, every Sienna comes prepared. To compensate fo a loss of traction while cornering Sienna utilizes Enhanced Vehicle Stability Control. The system adjust engine power, braking and steering torque-assist control to help the vehicle follow the direction in which it is being steered.

GRAVEL SURFACE

No matter the surface of the road tandard Electronic Brake-force Distribution optimizes stopping power. The system's sensors re the vehicle load in Sienna and send the appropriate brake force o each wheel.

At Toyota, safety is one of our top priorities. That's why we equipped Sienna with an array of active safety systems, to help keep you out of harm's way, and passive safety systems, to help protect you should a collision occur.

COMPREHENSIVE AIRBAG SYSTEM

Sienna comes standard with a driver and front passenger Advanced Airbag System. In a frontal collision, the dual stage front airbag system senses impact severity while adjusting airbag deployment accordingly. Sienna also comes standard with a driver knee airbag, driver and front passenger seat-mounted side airbags, and side curtain airbags that cover the length of the cabin from the front seats to the third-row seats.

SEATBELTS

Sienna features a 3-point Emergenc Locking Retractor (ELR) seatbel for the driver's seat and Automatic, Emergency Locking Retractors (ALR/ELR) for all passenger belts

The standard of standard safety features.

Our commitment to your family's well-being doesn't end with the active safety features found in the Star Safety System.[™] Should a collision occur, Sienna's comprehensive set of seven standard airbags' can help protect occupants in all three rows of seating. Sienna also offers a multitude of features, like available rain-sensing wipers, that you might not associate with safety but that can help ensure your overall peace of mind.

Front and Rear Parking Assist Sonar²

From locations within the front and rear bumpers, Sienna's available sonar gauges the area in a parking space to help the driver guide the vehicle into parking spots.

Rain-Sensing Windshield Wipers

Available on Sienna Limited, this feature uses a sensor to detect the amount of rainfall, then adjusts the wiper interval and speed automatically. So you can concentrate on the road, not the windshield,

Hill Start Assist Control (HAC)³

If you're at a stop on an uphill grade, available HAC helps prevent the vehicle from rolling backward as you switch from the brake to the accelerator. When activated, the feature holds the brakes for approximately three seconds as the driver switches from the brake pedal to the accelerator.

Pet Travel Safety

Toyota offers a wide range of available pet accessories designed to help you transport your furry companions in comfort and security. Ask your Toyota dealer for details.

SIDE-IMPACT DOOR BEAMS

Within each of Sienna's four doors are steel beams designed to help protect the occupants in the event of a side-impact collision.

LATCH (Lower Anchors and Tethers for CHildren) provides an added neasure of safety for smaller famil[,] members. LATCH includes lower anchors and tethers on outboard second-row seats and the center eat of the third row.

Via Toyota's 24/7 call center, available Safety Connect^{®4} offers subscribers helpful features such as Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance and Automatic Collision Notification. Safety Connect® also offers the reliability of embedded cellular and GPS technology.

RE-COLLISION SYSTEM (PCS)

An available Pre-Collision System (PCS) employs radar to determin if a frontal collision is unavoidable and automatically applies the orakes and retracts the front eatbelts to help reduce the effects of a collision.

1 See footnote 27 in Disclosures section 2 Front and rear sonar standard on Limited Rear sonar available on XLE 3. See footnote 33 in Disclosures section 4. See footnote 22 in Disclosures section 5. See footnote 30 in Disclosures section

Yes. We are there yet.

There's no reason driving satisfaction and family comfort should be mutually exclusive values. That's the thinking behind the Toyota Sienna. It's why Sienna is engineered with a lightweight, rigid and aerodynamically optimized body for responsive handling. It comes standard with a 266-hp 3.5-liter V6 with a 6-speed Electronically Controlled automatic Transmission, gated shift lever and sequential shift mode. Plus, SE utilizes sport-tuned suspension and sport-calibrated Electric Power Steering for a more direct steering feel. It's performance-oriented engineering that even impatient kids can appreciate.

V6

All Sienna models come equipped with a 3.5-liter V6 engine. The Dual Overhead Cam (DOHC) 24-valve Dual VVT-i powerplant delivers 266 hp and 245 lb.-ft. of torque.

AWD

Sienna is the only minivan in its class that offers available All-Wheel Drive (AWD). The AWD system on Sienna utilizes active torque control. With an electromagnetically controlled coupling positioned at the front of the rear differential, this AWD system uses information sent from various sensors to transmit only the necessary amount of torque to the front and rear wheels.

ECO DRIVING INDICATOR

The power of Sienna's V6 engine is bound to inspire some spirited driving in you. So, to help you drive more economically, the ECO Driving Indicator shows you when your right foot is, perhaps, too spirited. That way you can back off a bit to achieve better fuel economy.

Part of what helps Sienna perform so well is its streamlined shape. Its sides, profile and even its undercarriage have been crafted to help reduce drag, thereby enhancing efficiency.

MPG

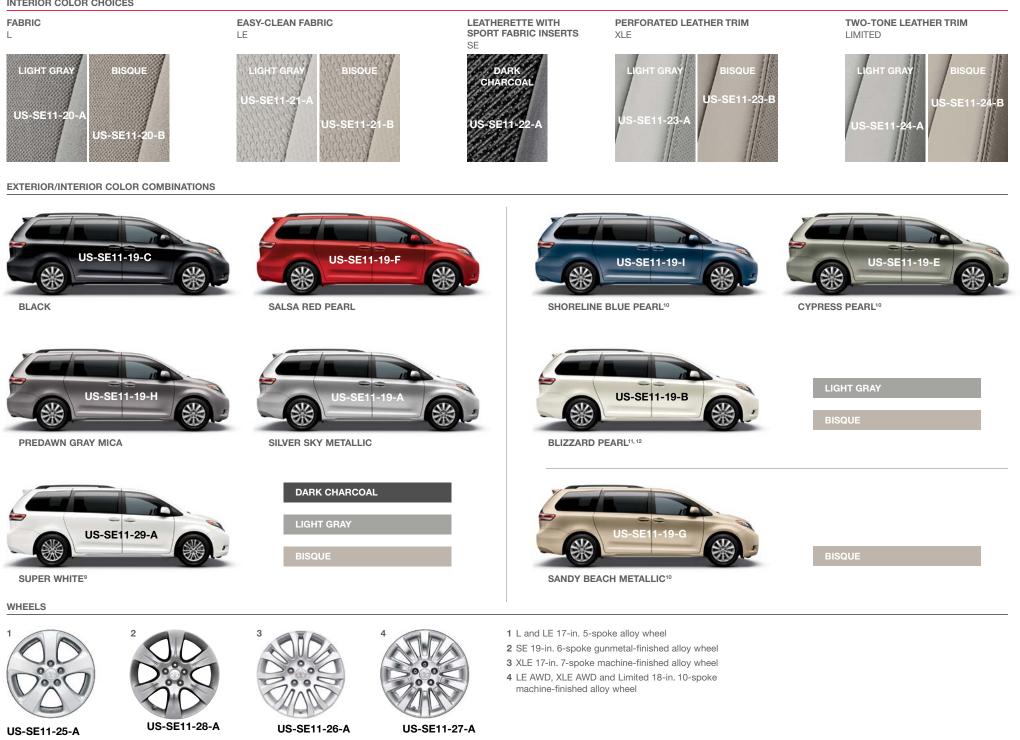

Sienna offers an impressive mpg rating for a 7- or 8-passenger van. The efficiency is the product of Dual Variable Valve Timing with intelligence (VVT-i), a smooth-shifting 6-speed automatic transmission and refined aerodynamics.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Emissions: Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

Packages and Options

play Navigation⁹ with Entune^{®10} App Suite — includes 6.1-in. high-resolution touch-screen with split-screen capability 1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about dio⁵ capability (additional hardware and subscription required), HD Radio^{TM12} with iTunes® Tagging¹³ auxiliary audio options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to , USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice check for current availability or the possibility of placing a special order. 2. Automatic high beam system operates at speeds above 21 mph. ognition and music streaming via Bluetooth®8 wireless technology Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See Owner's Manual for details. 3. Models equipped with All-Wheel Drive replace standard wheels and tires with 18-in. -theft system with alarm and engine immobilizer³⁴ 10-spoke machine-finished alloy wheels with P235/55RF18 run-flat tires and do not include a spare tire. 4. AWD models only. 5. SiriusXM services require a subscription after trial period, and are sold separately or as a package. Subscriptions governed by SiriusXM Customer Agreement; see www.siriusxm.com. If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan Premium Package with Entune^{®10} App Suite — includes Dual-View Entertainment Center¹⁵ with 16.4-in. display, you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 6. May not be compatible with A jacks, two 120V AC power outlets, remote and two wireless headphones¹⁶ power tilt/slide moonroof with all mobile phones, MP3/WMA players and like models. 7. iPod® is a registered trademark of Apple Inc. All rights reserved. 8. The Bluetooth® ishade and Display Navigation⁹ with Entune^{®10} App Suite — includes 6.1-in. high-resolution touch-screen with word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. Other t-screen capability and integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, ademarks and trade names are those of their respective owners. The Bluetooth® wireless technology phones listed on toyota.com speakers, SiriusXM Radio⁵ capability (additional hardware and subscription required), HD Radio^{TM12} with iTunes® have been tested for compatibility with Toyota vehicles. Performance will vary based on phone software, coverage and wireless carrier. Phones ging,¹³ auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone are warranted by their manufacturer, not Toyota. 9. Availability and accuracy of the information provided by the navigation system, HD services k access, advanced voice recognition and music streaming via Bluetooth®8 wireless technology or any SiriusXM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Entune® app updates do not include navigation updates. Navigation updates are play Navigation⁹ with Entune^{®10} App Suite — includes 6.1-in. high-resolution touch-screen with split-screen capability vailable at an additional cost from your local Toyota dealer. See your Navigation System Owner's Manual or contact SiriusXM for details. integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback capability, six speakers, SiriusXM 10. Entune® is a registered trademark of Toyota Motor Corporation. Always drive safely, obey traffic laws and focus on the road while driving. dio⁵ capability (additional hardware and subscription required), HD Radio^{™12} with iTunes[®] Tagging,¹³ auxiliary audio Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for , USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, phone book access, advanced voice charges. Apps and services subject to change. Apps identified by "TM" or "®" are trademarks or registered trademarks of their respective ognition and music streaming via *Bluetooth®8* wireless technology companies. For enrollment and more details, see toyota.com/entune. 11. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather wer tilt/slide moonroof with sunshade will limit effectiveness and view may become cloudy. 12. HD Radio™ Technology manufactured under license from iBiquity Digital nd Spot Monitor (BSM)³¹ with Rear Cross-Traffic Alert (RCTA)³² Corporation U.S. and Foreign Patents. HD Radio[™] and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiguity Digital Corp. 13. Tunes[®] Tagging is a registered trademark of Apple Inc. All rights reserved. 14. The backup camera uses the navigation system display on vehicles so equipped. 15. A single-disc DVD player is standard. A separate DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the Dual View system. 16. Headphones are for passenger use only. ertainment Package — includes Dual-View Entertainment Center¹⁵ with 16.4-in. display, RCA jacks, two 120V AC Do not use while driving vehicle. 17. Do not use the ottoman feature when the vehicle is in motion. Only use when the vehicle is stationary. wer outlets, remote and two wireless headphones¹⁶ If the ottoman feature is in use during an accident the lap belt may slide past the hips. This could also result in restraint forces being applied directly to the abdomen or your neck may contact the shoulder belt, increasing the risk of death or serious injury. See Owner's Manual for Navigation Package with Entune^{©10} App Suite — includes Smart Key System²⁰ on all doors with Push Button details. 18. Not available on AWD models. 19. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe Int and remote illuminated entry, chrome-accented outside door handles with touch-sensor lock/unlock feature, rear and attentive driving practices. See your Owner's Manual for details. 20. The Smart Key System may interfere with some pacemakers or king assist sonar and Display Navigation⁹ with Entune^{®10} App Suite — includes 6.1-in. high-resolution touch-screen cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. split-screen capability and integrated backup camera¹¹ display, AM/FM CD player with MP3/WMA playback 21. HomeLink[®] is a registered trademark of Johnson Controls. Inc. 22. Available on select Toyota models. Contact with the Safety Connect[®] response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data bability, six speakers, SiriusXM Radio⁵ capability (additional hardware and subscription required), HD Radio^{TM12} with and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment nes® Tagging¹³ auxiliary audio jack, USB port⁶ with iPod^{®7} connectivity and control, hands-free phone capability, and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety one book access, advanced voice recognition and music streaming via Bluetooth®s wireless technology Connect®-equipped vehicles. Additional subscription terms available: charges vary by subscription term selected. 23. Vehicle Stability Premium Package – includes Dual-View Entertainment Center¹⁵ with 16.4-in, display, RCA jacks, two 120V AC Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in wer outlets, remote and two wireless headphones¹⁶ Voice-Activated Touch-Screen DVD Navigation System⁹ – preventing a loss of control. Please see your Owner's Manual for further details. 24. Brake Assist is designed to help the driver take full ludes 7-in, high-resolution touch-screen. Panorama Camera¹¹ including integrated backup camera¹¹ display with advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system views (regular and wide-angle) and on-screen backup guides, JBL® AM/FM 4-disc CD changer with MP3/WMA maintenance and tire and road conditions. 25. Smart Stop Technology® operates only in the event of certain simultaneous brake and vback capability, ten speakers including subwoofer. SiriusXM Radio with NavTraffic™₅ with 90-dav All Access trial. accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including kiliary audio jack, USB port⁶ with iPod^{®7} connectivity, auto sound leveling, hands-free phone capability and music speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive earning via *Bluetooth*^{®8} wireless technology, Smart Key System²⁰ on all doors with Push Button Start and remote driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. 26. Vehicle Dynamics Integrated ninated entry, chrome-accented outside door handles with touch-sensor lock/unlock feature, rear parking assist Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be nar and Safety Connect®22 effective in preventing a loss of control. Please see your Owner's Manual for further details. 27, All the airbag (AB) systems are Supplemental nd Spot Monitor (BSM)³¹ with Rear Cross-Traffic Alert (RCTA)³² Restraint Systems, All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions; frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, /ITED roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around nited Premium Package — includes Dual-View Entertainment Center¹⁵ with 16.4-in. display, RCA jacks, two 120V the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or power outlets, remote and two wireless headphones.¹⁶ Voice-Activated Touch-Screen DVD Navigation System⁹ death. See your Owner's Manual for further information/warnings. 28. Active front headrests can help reduce the extent of whiplash in certain udes 7-in. high-resolution touch-screen, Panorama Camera¹¹ including integrated backup camera¹¹ display with types of rear-end collisions. 29. The Tovota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear views (regular and wide-angle) and on-screen backup guides, JBL® AM/FM 4-disc CD changer with MP3/WMA and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your Owner's Manual yback capability, ten speakers including subwoofer, SiriusXM Radio with NavTraffic™⁵ with 90-day All Access trial, for details. 30. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors such as (iliary audio jack, USB port⁶ with iPod^{®7} connectivity, auto sound leveling, hands-free phone capability and music speed, driver input and road conditions. See your Owner's Manual for further information. 31. Do not rely exclusively on the Blind Spot eaming via *Bluetooth®8* wireless technology Monitor. Always look over your shoulder and use your turn signal. There are several limitations to the function, detection, range and clarity nited Convenience Package – includes High Intensity Discharge (HID) headlights with Automatic High Beam² and of the monitor. For a complete list of limitations and directions regarding use of the monitor, please see the Owner's Manual. 32. Do not rely xclusivelv on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are -sensing washer-linked variable intermittent windshield wipers limitations to the function, detection, range and clarity of the system. To learn more, see your Owner's Manual, 33. HAC is designed to help vanced Technology Package^{18, 38} – includes Dynamic Radar Cruise Control (DRCC),¹⁹ Pre-Collision System (PCS),³⁰ minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface nicle Dynamics Integrated Management (VDIM),²⁶ and Hill Start Assist Control (HAC)³³ conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner's Manual for details. 34. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob more information about our available audio systems, as well as *Bluetooth®*-compatible⁸ features, please contact your local Toyota dealer. into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 35. Cargo and load capacity limited by weight and ne vehicles are shown with available equipment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo distribution. 36. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can ticular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. tow depends on the total weight of any cargo, occupants and available equipment. CUS ON SUSTAINABILITY

Toyota encourages their partners to embrace environmentally responsible business practices. Toyota brochures use paper from well-managed forests, as certified by FSC[®] (Forest Stewardship Council™) chain-of-custody guidelines. The electricity used to manufacture this paper was generated by the paper mill's own Green-e® certified renewable energy sources. Wind-powered electricity was used to print some brochures through purchased REC (renewable energy credits), also Green-e[®] certified.

DISCLOSURES

For Toyota Mobility program details, go to www.toyota.com/mobility or call the Toyota Customer Assistance Center at 1-800-331-4331

Scheduled vehicle maintenance is essential to both safety and dependability. For that reason, we've included a no cost maintenance plan with the purchase or lease of every new Toyota. For 2 years or 25,000 miles, whichever comes first, your new Toyota will be covered for all normal factory scheduled service, as well as for 24/7 roadside assistance." It's standard peace of mind, and Toyota is one of the first full-line brands to offer anything like it. Why do we go to such lengths? Simply put, we want the loyalty of our customers to outlast even our vehicles. For all the details, please call, visit online or stop by your local Toyota dealer today.

*Covers normal factory scheduled service. Plan is 2 years or 25K miles, whichever comes first. The new vehicle cannot be part of a rental or commercial fleet, or a livery/taxi vehicle. See participating Toyota dealer for plan details. Valid only in the continental U.S. and Alaska. Roadside assistance does not include parts and fluids.
