- Officer Dave Sebek with the St. Louis County Police Department at (314) 615-4266

Each year, 1 out of 8 people are involved in a car accident. Do you have the safe driving skills to avoid this statistic

Motorists who use cell phones are 4 times as likely to crash. Discover the easy things you can do to reduce driver distraction.

Every 23 minutes a driver is killed in the United States. Learn the simple steps you can take to improve your chances of surviving a car crash.

Did you know some vehicles are more expensive to insure? Discover why and find out how your driving record can save you money.

The Safe Driver Program is sponsored by Mungenast St. Louis Honda, the St. Louis County Police Department, St. Anthony's Medical Center and these other generous sponsors:

Mungenast St. Louis Honda

Honda is committed to providing safety for everyone - not only for our own drivers and passengers, but also for other vehicle occupants and injury mitigation for pedestrians. We're proud that the Honda Accord was the first midsize sedan to offer front, front-side and side curtain air bags as standard equipment. Today, the Accord earns a 5-star frontal impact rating from the U.S. government and a frontal "Best Pick" from the Insurance Institute for Highway Safety. A St. Louis Honda sales professional will be available to demonstrate some of the unique safety features our Hondas offer and answer your car safety questions.

St. Louis County Police Department

The St. Louis County Police Department is proud to help sponsor the Driver Safety Program. We hope to assist in the education of many young drivers and help promote responsible driving. Not only will this education bring awareness to personal responsibility, but also to educate teens about the legal responsibilities and liabilities of operating a vehicle. Together, we all benefit from drivers who practice safe driving habits.

Arch Helicopter

Ever wonder what it is like to take care of a patient in the back of a helicopter? ARCH Air Medical Service is a critical care air ambulance service providing coverage for Missouri, Illinois and the surrounding regions. As one of the first air medical operations in the United States, ARCH has been providing quality patient care since March of 1979.

Mehlville Fire Protection District

The Mehlville Fire Protection District will demonstrate the vehicle extrication skills that are used in a real auto accident. Mehlville Fire District is the only department in all of St. Louis County that has a fully manned Heavy Duty Rescue Squad with highly trained Rescue Technicians permanently assigned to the unit to meet technical rescue demands. Watch as they demonstrate how they would methodically disassemble a vehicle in order to rescue trapped occupants.

Lemay Fire Protection District

The Lemay Fire Protection District will have their equipment on display as well as demonstrating auto extrication and the removal of victims from motor vehicle crashes.

Cardinal Glennon Children's Medical Center

Cardinal Glennon Children's Medical Center's focus will be on underage drinking and driving as well as how children can avoid the path of alcoholism and drug abuse and what to do if they fall victim to drug abuse or alcoholism.

St. Anthony's Trauma Center

We are very honored to be able to join in this injury prevention program. The majority of our trauma patients are from car accidents. Like EMS, Fire and Police, we see the worst of what can happen in a motor vehicle accident. We will use this experience to enlighten young drivers about what will happen if they text, dial, or turn to look at their friend instead of keeping their eyes on the road. Through the use of pictures, videos, and stories told by well-trained and experienced trauma nurses, students will be empowered with smart driving skills.

MADD

MADD's mission is to stop drunk driving, support the victims of this violent crime and prevent underage drinking. We are men, women and youth of all ages, victims and concerned citizens all working together to keep our communities safe. Students visiting our booth will see the faces of those that have been permanently affected by someone's poor choice to get behind the wheel after drinking. Students will also learn critical information that can help save their lives and the lives of those they love.

American Family Insurance

Visitors to the American Family Insurance booth will receive information on good student driving discounts, how tickets and accidents negatively affect rates, what points mean to your driving record, required documents every driver must have, repercussions of alcohol and drug possessions for minors, why some vehicles are more expensive to insure and much more.

Mungenast Automotive Family Collision Assistance Centers

We are honored to be a part of the Safe Driver Program. A collision repair specialist will be on hand to discuss the repair process of a vehicle and the costs of repairs. We will also be raffling off two great prizes: a grab bag of vehicle cleaning products and a coupon for \$100 off of your deductible when your vehicle is repaired at one of our three convenient locations.

Affton Fire Protection District

The Affton Fire Protection District is a proud sponsor of the Safe Driver Program. There will be Fire and EMS equipment on display demonstrating auto extrication techniques and removal of victims. The Advanced Life Support Vehicle will have trained professional paramedics demonstrating patient assessments, interventions, and proper packaging techniques for safe transportation of trauma patients.
