WE ONLY MAKE ORIGINAL PARTS.

MOPAR® IS ORIGINAL EQUIPMENT — DESIGNED BY THE SAME PEOPLE WHO MADE YOUR DODGE BRAND VEHICLE. NO ONE UNDERSTANDS THE ENTIRETY OF YOUR VEHICLE'S FUNCTIONALITY AND DESIGN LIKE WE DO.

+ OUR STANDARDS ARE SKY HIGH.

Factory original equipment must adhere to a strict standard of testing. Drive with confidence knowing your Mopar® Parts and Accessories have passed this rigorous testing.

+ WE ONLY USE THE GOOD STUFF.

We only use high-quality materials because we know that our parts and accessories will impact the appearance, durability and value of your vehicle for years to come.

+ WE HAVE IT. OTHERS DON'T.

Only Mopar has direct, exclusive access to your vehicle's specifications. This information allows us to use an integrated design approach to create precise-fitting parts and accessories.

+ WE DON'T DESIGN PARTS OR ACCESSORIES IN A VACUUM.

We consider the vehicle as a whole when engineering our components. Our parts are exclusively designed to complement your vehicle without compromising its aesthetic, functionality and performance.

+ EASY-AS-IT-CAN-BE INSTALLATION.

Installing aftermarket pieces often requires cutting/drilling into the vehicle body. Most Mopar Accessories use existing openings and weld nuts for secure installation. This makes the job easier, keeps rust and corrosion away and helps protect the structural integrity of your Dodge Brand vehicle.

TAKE IT FURTHER

Charger's attitude is so intense, it's impossible to ignore. The first glance sends shivers. The second begs you to slide your hand along its low, lean profile and scalloped bodyside. The imposing grille leaves no question where this retro-modern muscle came from. Today, Mopar® offers an impressive line of exclusive performance

parts for Dodge Charger. The lineup ranges from suspension kits to pad and rotor upgrades to custom wheels machined to match Charger's exact specifications. Regardless of which performance or appearance enhancements you choose, you can rest assured your Charger will command authority.
