Safe Driving
A Parent’s Guide to Teaching Teens

The road to safety starts here!

1-609-292-6500 (out of state)
1-609-292-5120 (TTY)
Dear Parent:

Congratulations on another milestone in your child’s life. The privilege of driving is a tremendous responsibility. As a new driver, your child will now share the road with six million other New Jersey drivers of various experience levels. As adults, we recognize the importance of a driver’s actions behind the wheel. We must all get this message across to our new drivers.

This manual, which is a joint effort by the New Jersey Motor Vehicle Commission (MVC) and the New Jersey Division of Highway Traffic Safety, is a useful tool that provides valuable information for new drivers. Used in conjunction with behind-the-wheel training, the manual will better prepare your child for the challenges that lie ahead.

In addition, it is equally important for parents to understand the requirements and restrictions of New Jersey’s Graduated Driver License (GDL) program, which is designed to gradually build the experience of new drivers prior to issuing them an unrestricted driver license. The goal of the program is to produce safer, better prepared drivers.

Those of us who have experienced the privilege of driving must communicate the importance of safety and responsibility. I urge you to share the information contained in this manual with your child and personally guide him or her through this critical time.

Best wishes to you and your new driver for a safe and happy driving experience.

Sincerely,

Sharon A. Harrington
Chief Administrator
New Jersey Motor Vehicle Commission

Be a good communicator.
You need good communication to work well with your new driver. Practice when you’re both alert and ready to pay attention to each other. Never practice when either of you is tired, angry or distracted.

Use positive reinforcement.
When your new driver is doing well, let him or her know. That’s positive reinforcement. Also, use mistakes as a chance to teach, not punish.

Be enthusiastic.
Most teens are excited about getting their driver’s license. Let your teen’s enthusiasm rub off on you. Don’t make the learning experience seem like a chore.

Choose positive questions.
If your teen can’t answer them, you’re there to explain. Here are some examples:

- **Negative**
  - Didn’t you see that car coming?
  - Why didn’t you use your turn signal?
  - Didn’t I tell you to come to a complete stop at stop signs?

- **Positive**
  - What would have helped you see that car sooner?
  - What could you have done to make that turn safer?
  - Can you think of why it’s unsafe to “roll through” a stop sign?
This guide is a supplement to the New Jersey Driver Manual. The manual is the best resource for understanding the laws and regulations you and your teen need to know. Pick one up at any motor vehicle agency. It is also available online at [www.njmvc.gov](http://www.njmvc.gov) or by calling 1-888-486-3339 (toll-free in New Jersey), 1-609-292-6500 (out of state) or 1-609-292-5120 (TTY).

Be ready to assume control of the vehicle.

You need to be able to take control of the vehicle in three ways:

- **Verbal control**—Give clear, specific directions that allow your teen plenty of time to react. Don’t yell.
- **Passive control**—Be ready to slightly turn the steering wheel to help your new driver avoid a dangerous situation.
- **Full control**—Take control of the steering wheel. You may also need to use one foot to control the brake. Once safe, talk to your new driver about what happened.

Use a safe vehicle.

Practice in a vehicle that is in good working order. If possible, use the vehicle that your teen will be driving the most. Remember that:

- it is easier to learn in a vehicle that has an automatic transmission
- if the vehicle used in the New Jersey road test has a center console, it must have a functional, center-mounted emergency brake.

Practice in a safe place.

Your new driver needs lots of practice before driving on real roads. Choose the largest, safest place to practice that you can find. Before you set off on the road, make sure your teen can:

- keep a safe speed
- speed up (accelerate) gradually
- slow down (decelerate)
- stop, turn and park.

Have the paperwork you need:

- **Learner’s permit.** Your teen’s learner’s permit should be in the vehicle any time he or she is behind the wheel.
- **Your license.** Carry your driver’s license with you any time you are in the vehicle teaching your teen.
- **Vehicle registration.** Keep the vehicle registration inside the vehicle. Make sure it’s current.
- **Insurance coverage.** As soon as your teen receives his or her learner’s permit, notify your insurance company. Let them know which vehicle(s) your teen will be driving. Ask if he or she should be added to the insurance policy and if proof of insurance needs to be kept in the vehicle. Never let your teen drive without the proper insurance coverage.

Give driving lessons regularly, and keep them to an hour or less. Start by reviewing what you did in any previous lesson(s).
Lesson 1: Signs, signals and markings

Your new driver will need to learn the differences between traffic signs, signals and markings. See the New Jersey Driver Manual for more information and guidelines on signs, signals and markings.

Traffic signs
use words and symbols to give drivers information. Different signs have different shapes and colors. Traffic signs include:
- **warning signs**—warn drivers about a dangerous situation
- **regulatory signs**—tell drivers they must do or not do something, because of a law
- **guide signs**—direct drivers to specific locations
- **construction signs**—inform drivers about construction zones.

Traffic signals
control the flow of traffic by showing who has the right of way. Traffic signals include:
- red, yellow and green lights
- turn arrow lights
- lane signs.

Teach your new driver what these signals mean. Also explain the importance of the yellow light—which indicates that the light is changing from green to red. **All** drivers should stop for a yellow light unless they are in the intersection or are too close to safely stop.

Pavement markings
on the road give drivers different kinds of information. These include:
- dividing lanes
- showing when drivers can/can’t pass or change lanes
- indicating which lanes to use for turns
- showing where pedestrians can walk
- showing where drivers must stop.

To help your new driver learn traffic signs, signals and markings, practice on roads that have them.
Lesson 2: The vehicle

Before your new driver does any actual driving, help him or her find—and understand—the vehicle’s interior controls and features, especially:

Safety belts

The first thing your new driver should do after getting in the vehicle is to put on his or her safety belt—including the lap and the shoulder belt—correctly. (Some vehicles may have an automatic shoulder restraint and a manual lap belt. Always use both.) The belts should have no tangles or twists. Under GDL law, the driver and all passengers are required to wear their safety belts.

Mirrors

Your new driver should adjust all mirrors to obtain the best view of what is happening behind and to the sides of the vehicle. Explain that drivers need to turn their heads (“head checks”) to see blind spots that the mirrors don’t cover.

Fuel gauge

Fuel gauges are not always accurate (for example, half-full on the gauge may be less than half-full in the tank). Explain that it’s always best to put gas in the tank before the gauge is on “empty.”

Lights and warning lights

Your new driver should know how and when to use all of the vehicle’s light systems—including the headlights (high beams, low beams and running lights), the hazard lights and the dimmer switch. For instance, explain that drivers should use hazard lights when the vehicle is broken down or running slowly because of trouble. New Jersey law also requires all motorists to turn a vehicle’s headlights on whenever windshield wipers are in use.

Most vehicles have warning lights for temperature, oil and battery problems. Remind your teen to have the vehicle checked out right away whenever a warning light comes on and stays on.

Air bags

Explain that all passengers, including the driver, should sit at least 10 inches from an air bag compartment. Remind your new driver that children 12 and under must ride properly restrained in the back seat. And a child safety seat should never be put in a seat that has an air bag in front of it.*

*If your vehicle has no back seat or you are absolutely unable to avoid transporting a child in the front seat, see a dealer or mechanic for information about a front air bag on/off switch. Also, if you have side air bags alongside seats occupied by children, ask the vehicle manufacturer if the side air bags should be deactivated. If you have questions, call the Vehicle Safety Hotline at 1-888-327-4236.
Lesson 3: Getting Started

Help your new driver get comfortable with handling a moving vehicle. Practice in a very safe, open parking lot before moving out into traffic. These driving skills are key:

**Speeding up (accelerating) gradually**
Your new driver will need practice using the accelerator pedal to smoothly pick up speed.

Choose a long, empty straightaway to practice. Your teen should be able to pick up speed gradually and smoothly. Talk about how to apply pressure to the pedal—with the ball of the foot and toes, not the whole foot.

**Maintaining a safe, steady speed**
Your new driver should also be able to keep the vehicle at a steady speed. Have him or her practice checking the speedometer while learning to maintain speed.

Also, have your new driver practice mirror checks and head checks for blind spots.

**Slowing down (decelerating)**
As with accelerating, your new driver will need to learn how to slow down smoothly. Have him or her practice by easing up on the accelerator pedal and slowly applying pressure to the brake pedal.

**Braking and stopping**
New drivers often apply too much pressure to the brake pedal, which can lock up the wheels. Teach your teen to use “toe pressure” on the brake pedal. Set up a prop as a stop sign (something that cannot damage the vehicle), and have him or her practice slowing down and stopping at it. Also, practice in “reverse.”

Stay patient and continue to encourage your teen. Helping him or her master the fundamentals of driving is a gift for life!
Turning right
Have your new driver master right turns before moving on to left turns. Teach your teen to:
- Use the right turn signal about 100 feet before the turn or intersection.
- Make sure the vehicle is in the proper lane.
- Check traffic in all directions.
- Slow down appropriately (or stop, if it’s required) before making the turn.
- Yield to other vehicles if there is the possibility of a collision.
- Always yield to pedestrians.
- Always use both hands in a hand-over-hand motion for all turns. Then, return both hands to the wheel.

Turning left
Preparing for a left turn is similar to preparing for a right turn, with one very important difference. Explain to your new driver that his or her vehicle may be crossing oncoming traffic when turning left. Drivers should always yield the right of way to oncoming traffic and pedestrians.

Starting and stopping on an uphill grade
Be sure to give your new driver plenty of practice at this before trying it in traffic.
Teach your teen not to accelerate quickly from a stop on an uphill grade—it can make the tires spin.

Backing the vehicle (going in reverse)
Be sure to tell your new driver to back the vehicle only when absolutely necessary. When the need arises, he or she should:
- Confirm that it’s clear behind the vehicle (by getting out and checking, if necessary).
- Get help from someone outside the vehicle if mirrors don’t give a good view.
- Use the left hand on top of the steering wheel.
- Look backward (checking the front at times if the vehicle needs to clear obstacles there).
- Move the top of the steering wheel in the direction the vehicle should go (if turning).
- Go slowly.

The tracking progress checklist on page 10 can help you measure how well your new driver understands these important skills.
Before moving on to Lesson 4, have your new driver locate interior controls and demonstrate a mastery of the driving skills covered so far. If you find he or she needs work with any of the items on the list, continue to practice together.

**Turning** (run through this list for right and left turns)

- signals at least 100 feet before turn
- checks for traffic in all directions
- watches for pedestrians
- enters turning lane (if available)
- makes turn at proper speed
- yields to oncoming traffic and pedestrians (left turns)

**Backing the vehicle**

- checks area before moving the vehicle
- watches behind while backing
- maintains slow speed

**Starting and stopping on an uphill grade**

- keeps vehicle from rolling backward
- uses proper acceleration from a stop to keep tires from spinning

Lesson 4: On the road

Teach your new driver to follow these rules while in traffic:

**Drive defensively.**

The following two systems effectively teach how to drive defensively. Talk about the techniques with your teen.

**The Smith System®**

- Steer accurately to avoid problems.
- Keep your eyes moving. Don’t stare.
- Look in all areas. Don’t get stuck looking in just one direction.
- Anticipate problems. Think about “what if.”
- Make sure other drivers see you, especially when your vehicles are in conflict for space.

**SIPDE**

(Scan, Identify, Predict, Decide, Execute)

- **Scan**—search front, back, rear and sides for possible problems.
- **Identify**—watch for possible problems in your immediate path of travel.
- **Predict**—think about what other drivers may do that could put you in danger.
- **Decide**—determine what you would do to avoid this danger.
- **Execute**—move to avoid conflict (by braking, accelerating, turning, etc.).

**Don’t drive distracted.**

Drivers need to focus all of their attention on driving. Teach your new driver to avoid these common distractions:

- talking on a cell phone*
- eating or drinking
- adjusting the radio, CD player, temperature controls, etc.
- listening to loud music or wearing headphones
- being distracted by passengers.

When a driver’s eyes, ears and mind are not on the road, he or she may be headed for danger.

*New Jersey law prohibits drivers from using handheld wireless telephones (drivers with a learner’s permit or Provisional License may not use any wireless telephones).

**Look ahead.**

The path in front of a driver is the most dangerous. But drivers need to be aware of trouble from all sides. Teach your new driver to look at least 12-15 seconds down the road to see what is developing ahead. Explain that in heavy traffic, drivers should watch for brake lights 3 or 4 vehicles ahead in order to have enough time to react.

**Avoid aggressive drivers.**

Teach your new driver to:

- get out of an aggressive driver’s way (if he or she can)
- not challenge the other driver (with eye contact or gestures).

**Watch for pedestrians.**

Pedestrian safety is a shared responsibility. It’s important for drivers to be aware of pedestrians at all times. Drivers must yield to pedestrians in crosswalks, obey speed limits and avoid blocking/parking in crosswalks.
Lesson 4 continued

Drive at the proper speed.
Teach your new driver that the speed limit means the maximum speed allowed by law. But, under some conditions, the speed limit could be too fast. If the weather is bad, he or she may need to slow down. Drivers may need to go more slowly at night. Explain that driving at the proper speed means driving:

- within the driver’s abilities
- within the vehicle’s capabilities
- within the limits of the roadway
- according to the weather conditions.

Know when to slow down.
All drivers must slow down when approaching:

- curves
- intersections
- downhill grades.

Stay alert in “Safe Corridors.”
To help reduce accidents, certain stretches of New Jersey roadways have been designated “Safe Corridors.” Fines for committing various violations in these corridors—including speeding and aggressive driving—are doubled.

To learn where “Safe Corridors” are located, visit www.state.nj.us/transportation/refdata/traffic_orders/safe_corridors.

Keep your distance.
Although there is no perfect rule for following distance, explain that the rule of thumb most often used is to keep one car length back (about 20 feet) for each 10 miles per hour of speed. At high speeds or in bad weather, drivers need to increase their following distance.

Minimum safe following distance (car lengths)

<table>
<thead>
<tr>
<th>Road condition</th>
<th>20 mph</th>
<th>30 mph</th>
<th>40 mph</th>
<th>50 mph</th>
</tr>
</thead>

</tr>
</tbody>
</table>

TWO-SECOND RULE. Since most people have trouble judging distances, the two-second rule may be easier to use. It is usable at any speed. Simply pick a stationary object ahead of you, such as a sign, tree or pole. After the car ahead of you passes the object, count how long it takes for your vehicle to pass the same spot. Two seconds is a safe minimum—increase your following distance to three or four seconds when the road or weather conditions are poor.

See the New Jersey Driver Manual, Chapter 5, “Following Distances” section.
Pay attention to your lane position.
Remind your teen to try to keep the vehicle more or less in the center of the lane, not at the edges. He or she will need to make small steering changes—not sudden jerks—to keep the vehicle on the right path. Drivers should keep both of their hands on the wheel. But for sharp curves or turns, show your new driver how to use the hand-over-hand motion.

Discuss the importance of periodically checking mirrors to see what is happening behind and to the sides of the vehicle, and using head checks for blind spots.

Be careful at all intersections.
As your new driver approaches an intersection, he or she should slow down, look both ways, and be prepared to stop or to get safely out of the way. Your new driver should also:
- not pass or change lanes
- be aware of vehicles following behind—will they be able to stop if necessary?

When stopped at the intersection, your teen should:
- look left, right, then left again, checking for oncoming traffic and pedestrians.

Change lanes carefully.
Tell your teen to always:
- Use the turn signal in advance, giving other vehicles plenty of warning.
- Check for traffic on all sides, including in all blind spots.

Lead by example.
When you consistently follow the rules of the road, your new driver is likely to do the same. For example, be sure to:
- always wear your safety belt—and require that safety belts be worn by all passengers
- obey the speed limit and be courteous to other drivers
- keep your attention on the road—not on distractions
- never drive while under the influence of alcohol or other drugs.
Know who has the right of way.

Explain that all drivers must yield to traffic and pedestrians. A driver must also stop:
- at an intersection with a stop sign
- where there is a red light*
- where there is a flashing red light
- for a pedestrian in a crosswalk or an intersection
- when a traffic officer orders him or her to stop
- when there is a yield sign and traffic on the through road is too close
- when a school bus flashes red lights and picks up and lets off children
- when coming from an alley, a private driveway or a parking lot
- at a bridge span that is about to open for boat traffic
- for a blind pedestrian using a white or metallic-colored walking cane, or a trained guide dog
- at a railroad crossing.

Be careful in merging traffic.

When merging: Tell your teen that he or she must yield the right of way to moving traffic. Other drivers do not have to change lanes to allow him or her to enter.

When allowing others to merge:
If it is safe, he or she can change lanes to allow vehicles to merge. Your new driver should check mirrors and blind spots, and—if it is safe to change lanes—use his or her turn signal before leaving the lane. If it is unsafe to change lanes, your teen may still be able to accelerate or decelerate to allow others to merge (provided it is safe to do so).

Pass only when it is absolutely safe.

Teach your new driver to take precautions when passing. For example, your teen should:
- Make sure he or she is in a legal passing zone.
- Not tailgate (not crowd the vehicle to be passed).
- Make sure road conditions and his or her vehicle are safe for accelerating to pass.
- Check mirrors and blind spots to ensure there is plenty of time and space.
- Use the correct turn signal.
- Return to the right lane when the vehicle that was passed is visible in the rearview mirror. In 2-way traffic, your teen must return to the right lane before coming within 200 feet of any oncoming vehicle.

*A driver may turn right on red only where permitted after a full stop, and only after yielding to traffic and pedestrians crossing on green.
Special precautions at night

Don’t take your new driver night driving until he or she has mastered the basic driving skills.

Start on less-traveled roadways. Explain the need to drive more slowly at night. Point out that visibility is reduced in all directions.

Teach your teen to:

- keep the headlights on between sunset and sunrise
- use low beams within 500 feet of oncoming vehicles or within 300 feet of a vehicle he or she is driving behind
- not look directly at oncoming headlights—he or she should watch the right edge of his or her lane, checking the other vehicle’s position every few seconds.

Know when not to pass.

Explain that a driver may not pass:

- where “DO NOT PASS” or “NO PASSING ZONE” signs are posted
- when there’s a solid yellow line on his or her side of the center line
- on hills or curves, or at intersections
- when a vehicle in front of him or her has stopped to let a pedestrian cross
- within 100 feet of a bridge, viaduct, tunnel or railroad crossing.

Point out that it is against the law to pull off the roadway to pass on the right.

Turn to the tracking progress checklist on page 16 to see a complete list of the driving skills covered in Lesson 4.
# Lesson 4

## Tracking progress checklist

Don’t move on to Lesson 5 until your new driver has demonstrated a mastery of the driving skills listed below. If you find he or she needs work with any of the items on the list, continue to practice together.

### Merging skills

|           |            | uses turn signal |
|           |            | yields right of way |
|           |            | checks mirrors and blind spots |
|           |            | enters proper driving lane when it’s safe |
|           |            | adjusts to a safe distance between vehicles |
|           |            | identifies a merging vehicle |
|           |            | changes lanes (if safe) to allow a merging vehicle to enter traffic |

### Notes:

---

16
Parking practice

Practice these parking situations together. Review “Backing the vehicle” on page 9 when helping your new driver learn how to exit a parking space.

Parallel parking
Entering the space:
- Put on the correct turn signal.
- Check mirrors to see if traffic behind you is slowing. (Don’t stop unless it is safe to do so.)
- Stop where your steering wheel is even with the steering wheel of the vehicle in front of the parking space.
- Back up and turn toward the curb until the vehicle is at a 45-degree angle heading into the parking space.
- Turn the steering wheel in the opposite direction and continue backing slowly.
- Check behind and ahead of you, making sure not to hit any vehicles or pedestrians.
- Stop when you are about a foot from the vehicle in back. Center your vehicle by pulling forward.

Exiting the space:
- Put on the correct turn signal.
- Check for oncoming traffic and pedestrians.
- Back up until your vehicle is about a foot in front of the vehicle behind you.
- Check again for traffic and pedestrians, making sure you don’t miss blind spots.
- Turn the wheel and slowly pull forward into the driving lane.
- Avoid crossing the center line.

Downhill and uphill parking
Downhill (with/without a curb):
- Put on the correct turn signal.
- Check mirrors for pedestrians and to see if traffic is slowing.
- Pull into the parking space, to within about a foot of the road edge or curb.
- Stop and turn the wheels toward the road edge or curb.
- Put the car in park (first gear on a standard transmission), and set the emergency brake.

Uphill with/without a curb:
- Park as described above.
- Turn wheels away from curb. Let the vehicle roll back until a front tire touches the curb. If there is no curb, turn wheels sharply toward the road edge.

Reentering traffic:
- Put on the correct turn signal.
- Release the emergency brake.
- Check mirrors and blind spots for traffic and pedestrians.
- Straighten wheels and back slowly (if necessary), then move forward, turning toward the traffic lane.
- Yield to any oncoming traffic.

Angle and 90-degree parking
Entering the space:
- Give a vehicle that is pulling out plenty of room.
- Use the correct turn signal.
- Drive forward until you can see the whole parking space.
- Turn in, without crowding the vehicles on either side, and pull forward until the vehicle is completely in the space.

Exiting the space:
- Check for traffic and pedestrians before backing up.
- Back out straight, making sure to clear the other vehicles.
- Check the front of the vehicle when beginning to turn, to make sure it swings clear of the other vehicles.
- Continue to check for traffic and pedestrians as you straighten the vehicle in the proper lane.
Lesson 5
Tracking progress checklist

Have your new driver demonstrate a mastery of parking skills. If you find he or she needs work with any of the items on the list, continue to practice together. Congratulate your teen—this is the last checklist! (Pages 19-21 give talking points on driving responsibilities and laws that you can share with your new driver.)

Talking points: Road responsibility

Your new driver has a lot to learn—and you play an important role in his or her education! Discuss these key points often to help your teen stay safe on the road.

**Speeding can be a deadly factor in a crash.**
Make sure your new driver understands the importance of obeying speed limits. He or she should:

- Always drive at a safe speed. (Remind your new driver that the speed limit is the maximum speed allowed under normal conditions. The safe speed is the one that allows him or her to keep complete control of the vehicle.)
- Drive with the flow of traffic, within the speed limit, but not so slowly as to block other vehicles moving at normal speeds.

**Distractions can be deadly.**
Distracted drivers are more likely to get into a crash. While driving, remind your teen to avoid:

- using a cell phone
- eating, drinking or smoking
- doing personal care activities (combing hair, applying makeup, etc.)
- looking for things or reading
- making equipment adjustments
- being distracted by passengers.

**Aggressive drivers can be dangerous.**
Teach your new driver to avoid making an already aggressive driver angrier. For example, your teen should:

- get out of the way and let the driver pass
- avoid eye contact
- not “take it personally” or try to “teach a lesson”
- go to a safe place, if he or she is followed.

If your teen notices anyone driving unsafely, he or she can pull over in a safe spot and dial #77 or 1-888-SAF-ROAD (1-888-723-7623) for the New Jersey State Police dispatch office.

**Emergency vehicles always have the right of way.**
Both drivers and pedestrians must yield the right of way to law enforcement vehicles, fire engines and any other emergency vehicles using sirens and/or flashing lights. Tell your new driver to slow down and pull to the right of the road, if possible, and to always avoid blocking an intersection.

**Special conditions call for special precautions.**
Rain, fog, snow and ice can affect visibility, road surface conditions and a vehicle’s performance. Teach your new driver to slow down and keep at least twice the normal stopping distance. A wet road can cause skidding or hydroplaning.

New drivers have certain restrictions under the New Jersey Graduated Driver License (GDL) program.
For example, they may not use cell phones or any other handheld electronic devices. They also may only have passengers from their household, plus one additional person.

See page 23 for more information.

Remember, the example you set matters. Keep it positive—and steer your teen toward a lifetime of safe driving!
Talking points:

Driving and the law

Driving is a privilege—not a right! All drivers have important legal responsibilities. Teach your new driver about the following situations.

If your new driver is stopped by a law enforcement officer, he or she should:
- Pull off to the right, as far as possible, at the first safe location.
- Leave his or her safety belt on.
- Turn on the emergency flashers.
- Turn off the engine. (At night, he or she may put on interior lights.)
- Sit calmly and be prepared to follow the officer’s instructions.

If your new driver is in a crash, he or she should:
- Stop the vehicle. He or she should not move it unless a law enforcement officer says to, or if it is a danger to other drivers.
- Help anyone who is hurt, but avoid contact with blood. He or she should not try to move the injured person, but should call an ambulance.
- Call the police.
- Use reflectors or flashlights to warn approaching traffic.
- Exchange the following information with other drivers involved in the crash:
  - names and addresses
  - license plate numbers and vehicle identification numbers
  - insurance company names and policy numbers.
- Stay at the scene until a law enforcement officer says that he or she can leave.

See the New Jersey Driver Manual for more information.

If an officer is directing traffic where there are traffic signals, obey the officer—not the signals.
Talking points:
Driving under the influence

Help strengthen your new driver’s judgment by discussing these key topics together. (See the New Jersey Driver Manual for more information.)

Alcohol
Drinking by anyone under the age of 21 is illegal in the state of New Jersey. And, driving under the influence by anyone, any time, is illegal. It’s also very dangerous—and sometimes fatal.

BAC
A law enforcement officer may measure the blood alcohol concentration (BAC) of any driver who appears to be driving under the influence. BAC is the percentage of alcohol in the body. It can be measured by testing blood, breath or urine. The breath test is the most common test.

Even one drink can impair the ability to drive safely and raise BAC over the zero tolerance* level.

Other substances
Other drugs affect driving, too. Marijuana, for example, can impair vision, coordination, reaction times and short-term memory. It can also cause a shortened attention span.
New Jersey prohibits driving while under the influence of any illegal drug.
Combining alcohol and other substances, including legal prescription drugs, is especially risky. The effects of the alcohol and/or the other drugs may be intensified. This can impair driving skills, judgment and alertness—and possibly lead to coma or death.

*Zero tolerance in New Jersey means that any licensed driver under 21 driving with a BAC of .01% or higher will have his or her license suspended for 30-90 days. For drivers age 21 and older, it’s illegal to drive with a BAC of .08% or higher. See the New Jersey Driver Manual for more details.

Remind your new driver that any drug—prescription or nonprescription—can impair his or her driving ability!
Understanding New Jersey’s Graduated Driver License (GDL) program

**Instruction + Experience = Safer drivers**

Studies show that a young driver’s risk of being involved in a car accident is highest within his or her first 12-24 months of driving. With this in mind, New Jersey designed its Graduated Driver License (GDL) program to provide young drivers with the instruction and driving experience they need to stay safer. The GDL program subjects new drivers to certain conditions and restrictions in an effort to gradually build their experience. Upon completion of all steps, drivers are awarded a full privilege basic driver license.

The ultimate goal of the GDL program is to protect the lives of young drivers—and the lives of their passengers and other motorists.

**Identifying the risks**

Two of the most dangerous situations a young driver can face are:
- driving with other teens
- driving at night.

More than half of all deaths involving 16- to 17-year-old drivers occur when passengers are under age 20—and no adults are in the vehicle.

The GDL program is a proven way to save the lives of young drivers and their passengers. The more knowledge and behind-the-wheel experience a new driver has, the safer he or she will be on the road.

**What’s the leading cause of death for young people ages 16-24?**

It’s motor vehicle crashes. Here’s a breakdown:

<table>
<thead>
<tr>
<th>Cause</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Motor Vehicle Crashes</td>
<td>44%</td>
</tr>
<tr>
<td>Suicide</td>
<td>19%</td>
</tr>
<tr>
<td>Homicide</td>
<td>14%</td>
</tr>
<tr>
<td>All other</td>
<td>23%</td>
</tr>
</tbody>
</table>

Your supervision and guidance, along with the information in this guide, can help your new driver reduce his or her risk of being involved in a crash.
GDL requirements and restrictions
The Early-Bird Road and the Young Adult Road have different steps, but they both lead to an unrestricted basic driver license.

The Early-Bird Road
1. To get a Special Learners Permit applicants must:
   ■ be at least 16 years old
   ■ get the signed consent of a parent or guardian
   ■ take an approved behind-the-wheel driver training course
   ■ pass MVC’s Knowledge and Vision tests
   ■ pay the required fee.

   After applicants complete a driver training course, MVC will validate their Special Learners Permit and they can move to step 2.

2. To Practice Supervised Driving your teen must:
   ■ be accompanied, in the passenger seat, by a licensed NJ driver who is 21 years or older
   ■ follow the Special Learners Permit driving restrictions
   ■ practice for at least 6 months.

3. To get a Provisional Driver License your teen must:
   ■ be at least 17 years old
   ■ complete the supervised driving period without any suspensions or postponements
   ■ pass MVC’s Road Test.

4. To practice Unsupervised Driving your teen must:
   ■ follow the Provisional Driver License restrictions
   ■ practice for at least 1 year.

5. To get a Basic Driver License your teen must:
   ■ be at least 18 years old
   ■ complete the unsupervised driving period without any suspensions or postponements
   ■ pay the required fee.

The Young Adult Road
1. To get an Examination Permit applicants must:
   ■ be at least 17 years old
   ■ get the signed consent of a parent or guardian
   ■ pass MVC’s Knowledge and Vision tests
   ■ pay the required fee.

   After applicants complete the steps above, MVC will validate their Examination Permit and they can move to step 2.

2. To Practice Supervised Driving your teen must:
   ■ be accompanied, in the passenger seat, by a licensed NJ driver who is 21 years or older
   ■ follow the Examination Permit driving restrictions
   ■ practice for at least 6 months (or 3 months if the applicant is over 21).

3. To get a Provisional Driver License your teen must:
   ■ complete the supervised driving period without any suspensions or postponements
   ■ pass MVC’s Road Test.

4. To practice Unsupervised Driving your teen must:
   ■ follow the Provisional Driver License restrictions
   ■ practice for at least 1 year.

5. To get a Basic Driver License your teen must:
   ■ be at least 18 years old
   ■ complete the unsupervised driving period without any suspensions or postponements
   ■ pay the required fee.

Restrictions
Special Learners Permit drivers:
■ may not drive between 11:01 p.m. and 5:00 a.m.
■ may not use cell phones or other handheld electronic devices
■ must be accompanied by a licensed NJ driver who is 21 years or older and licensed for at least 3 years
■ may only have passengers from their household, plus 1 additional person.

Examination Permit drivers:
■ may not drive between 12:01 a.m. and 5:00 a.m.
■ may not use cell phones or other handheld electronic devices
■ must be accompanied by a licensed NJ driver who is 21 years or older and licensed for at least 3 years
■ may only have passengers from their household, plus 1 additional person.

Permit holders over age 21 are not subject to passenger or hour restrictions.

Provisional License drivers:
■ may not drive between 12:01 a.m. and 5:00 a.m.
■ may not use cell phones or other handheld electronic devices
■ may only have passengers from their household, plus 1 additional person.

Provisional License drivers over age 21 are not subject to passenger or hour restrictions.

All drivers and passengers must wear safety belts. It’s the GDL law!
Motor Vehicle Agencies

Motor Vehicle Agencies are generally open from 8 a.m. until 4:30 p.m. Monday through Friday, from 8 a.m. until 12 p.m. on Saturday and one night a week until 7:30 p.m.

Call 1-888-486-3339 toll free in New Jersey, 1-609-292-6500 from out of state or 1-609-292-5120 (TTY) for more information, or visit www.njmv.gov.

Driver testing centers

Driver testing centers (DTC) are generally open from 8 a.m. to 4:30 p.m. Monday through Friday. Some have evening hours. Before your teen takes his or her road test, he or she must:

- purchase a permit at a motor vehicle agency
- pass the vision and knowledge tests at any DTC (no appointment is necessary)
- make a road test appointment at any DTC.

Find more information online.

- To locate Regional Service Centers, Licensed Driving Schools and other resources for your new driver, visit www.njmv.gov.
- For a complete list of DTC hours and directions, visit www.nj.gov/mvc/facility_locations.html. Click on the county of your choice.
- For more information on safe driving, visit www.njsaferoads.com.

With your support and encouragement, your new driver can learn to drive confidently—and safely.
