COMPLETE FLUID EXCHANGE SPECIALS

POWER STEERING EXCHANGE SPECIAL

Power steering fluid is possibly the most neglected oil in an automobile. As power steering fluid ages, it becomes contaminated and loses much of its ability to lubricate. Contaminated fluid also begins to deteriorate and harden seals, which can cause leaks and eventually mechanical failure. This Power Steering Exchange Service safely and effectively flushes out old fluid and replaces it with a special high-performance fluid. The new fluid has special anti-oxidants which keep it cleaner longer, and anti-wear agents to provide smoother, quieter operation.

INCLUDES FREE Car Wash
