FUSION

STYLED TO STAND OUT.

The newly restyled 2017 Ford Fusion. Responsive power. New models. Smart technology. More satisfying than ever.

Fusion Sport

- LED signature lighting
- Distinctive egg-crate grille
- 19" premium painted Tarnished-Dark wheels

Fusion Energi

- Illuminated charge port
- SYNC®
- 3 Active noise cancellation
- 17" Luster Nickel-painted aluminum wheels

Fusion Titanium

- 19" machined aluminum premium painted dark stainless wheels
- LED headlamps
- LED fog lamps with chrome bezels

Fusion Hybrid

- 18" aluminum wheels with painted pockets
- Magnetic-painted sport grille
- LED tail lamps
- New rear chrome accent strip

A new rotary gear shift dial¹ frees up cabin room and storage.

DIAL UP EXPECTATIONS. It's all about positive reaction. Between you and your vehicle. Approach Fusion with your Intelligent Access key¹ and a simple touch of the driver door handle opens the way. Press the standard push-button start and the engine springs to life. Turn the nicely weighted new rotary gear shift dial to engage the transmission – as well as your love for the open road. Your day is off to a great start.

Find your destination easily with help from the voice-activated Navigation System¹ which now includes pinch-to-zoom functionality. Zoom and scroll through interactive maps complete with available 3-D mapping and receive voice-guided turn-by-turn directions.

FUSION POWER

FOUR POWERFUL GAS CHOICES.

The Fusion engine lineup has never been stronger. A potent new 325-horsepower¹ 2.7L EcoBoost[®] – standard on Sport and the most powerful EcoBoost engine ever on Fusion – headlines the 4 Fusion engine choices, including 3 turbocharged, direct-injection EcoBoost engines.² The way you engage their power has been thoughtfully redesigned as well. Shift the 6-speed SelectShift[®] automatic³ into Drive via the new rotary gear shift dial. Stop there if you want, or tap the “S” button on top. Now, you control the shift points with steering wheel paddle shifters to enhance your driving fun.

2.7L EcoBoost

FUSION HYBRID

ENTHUSIASTIC EFFICIENCY.

As it maximizes efficiency¹ by seamlessly switching between its 2.0L Atkinson-cycle gasoline engine and electric motor, Fusion Hybrid never loses sight of its fun-to-drive nature. This year, software improvements helped engineers better harmonize engine speed with pedal tip-in, resulting in an even more connected feel.

Inside, the vibrant SmartGauge[®] with EcoGuide instrument cluster actually grows green "Efficiency Leaves" as you drive. The more efficiently you drive, the more leaves grow – giving you instant feedback. And Fusion Hybrid offers plenty of learning opportunities, as it can operate in electric mode at highway speeds thanks to its lithium-ion battery. Plus, the Regenerative Braking System captures 94% of the energy spent during braking and uses it to help recharge the battery. Even when coming to a stop, forward thinking drives your day.

Hybrid in Lightning Blue Metallic with available equipment. ¹5.7L/100 km (50 mpg) hwy and 5.4L/100 km (52 mpg) city. Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary.

FUSION ENERGI

PLUG-IN SIMPLICITY.

With its illuminated charge port and standard 120-volt convenience charge cord, Fusion Energi Plug-In Hybrid gives you the additional option to plug in or not. Recharge its large-capacity lithium-ion battery in about 2.5 hours using a Ford recommended 240-volt home charging option,¹ or 7 hours using your home's standard outlet. Please see your Ford of Canada Dealer to help facilitate a professional installation. Easily monitor and schedule charging, at home or at a public charging station, with our MyFord™ Mobile app² and website. Both feature a charging station locator powered by PlugShare.[®]

As you drive, Fusion Energi decides whether to run on its electric motor alone or to turn on its 2.0L Atkinson-cycle gasoline engine as needed. On short commutes, it may run all-electric and use no gasoline at all – even while cruising at highway speeds. Fusion Energi has a fuel consumption rating of 2.7L_e/100 km (105 MPG_e) city/hwy combined (electricity + gas),³ an all-electric driving range of up to 32 km, and a gas-plus-electric driving range of up to 900 km.³

Fusion Energi Plug-In Hybrid in Shadow Black with available equipment. ¹Available feature. ²MyFord Mobile subscription complimentary for 5 years from the vehicle sale date as recorded by your Ford of Canada Dealer. Subscription fees apply after 5 years. MyFord Mobile requires a compatible 2.5G independent cellular network. Evolving technology and cellular networks may affect future availability and functionality. Text and data rates may apply to usage. ³Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary. 53-litre fuel tank. L_e/100 km is the Government equivalent measure of gasoline fuel consumption for electric mode operation.

STYLED TO SATISFY. With spacious room for up to 5, a carefully crafted interior welcomes all to Fusion. On Titanium, you'll be treated to leather-trimmed, 10-way power, heated front seats with memory settings for 2 drivers. Aluminum accelerator and brake pedals. A leather-wrapped steering wheel. A convenient 110-volt power outlet¹ to recharge your devices. And ambient lighting in your choice of 7 hues to bring it all together.

For your listening pleasure, enjoy the sound from a well-balanced, 12-speaker Audio System from Sony.^{®1} Especially as you listen to your favourites all across Canada with SiriusXM.^{®2} Your 6-month prepaid subscription gets you the best in audio entertainment including 100% commercial-free music from every genre, world-class news, sports, comedy and entertainment.²

Titanium leather-trimmed interior in Ebony with available equipment. ¹Available feature. ²SiriusXM subscriptions sold after 6-month prepaid period expires. Subscriptions are governed by SiriusXM Customer Agreement; see siriusxm.ca.

SYNC 3

In addition to all the voice-activated benefits of SYNC® – placing and answering calls, and controlling music from your devices – you'll love the easy-to-use interface of SYNC 3.^{1,2} An 8" colour LCD screen displays phone, audio and navigation¹ features. Enhanced voice recognition lets you give simple commands. A capacitive touchscreen includes a convenient swipe feature, as well as pinch-to-zoom functionality within navigation.¹

SYNC Connect³

With a SYNC Connect equipped Fusion, you can use FordPass® to track your vehicle's location and remotely access features such as start, lock and unlock, and vehicle status including fuel level and approximate kilometres driven. You can also schedule specific times to remotely start your Fusion so it's ready to hit the road as soon as you are.

SYNC AppLink

Use your voice to control some of your favourite compatible mobile apps, thanks to standard SYNC AppLink.^{TM4}

Siri Seamless Integration

Bring the power of Siri® into Fusion with Siri Eyes Free, your paired iPhone® and a long press of the voice recognition button on the steering wheel.

Automatic Updates Over Wi-Fi

Keep SYNC 3 current with the latest software as new updates become available.⁵ All you need is a Wi-Fi® connection.

U.S. model shown. Screens available in English, French and Spanish. ¹Available feature. ²Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. SYNC voice recognition and screens available in English, French and Spanish. Some features may be locked out while the vehicle is in motion. ³SYNC Connect is an optional feature on select 2017 MY vehicles and includes SYNC Connect service for 5 years from the vehicle sale date as recorded by the dealer, through use of FordPass on select smartphones. FordPass is available to download via the App Store® or Google Play,TM late availability, Spring 2016. Message and data rates may apply. Service may be limited by mobile phone network coverage area. FordPass Terms and Privacy Policy apply. To learn more about where FordPass can take you, visit www.fordpass.ca. ⁴SYNC AppLink is available on select models and compatible with select smartphone platforms. Commands may vary by phone and AppLink software. ⁵Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update. Data rates may apply.

**Sortie 39 de l'autoroute 15
à 2min de la 117**

BLIS® (Blind Spot Information System)¹ alerts you with a light in either sideview mirror¹ if its radar sensors detect a vehicle in the corresponding blind spot. Cross-traffic alert, part of the system, notifies you with a beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you slowly back Fusion out of a parking space. Either way, BLIS with cross-traffic alert helps keep you aware of things that may be just out of your line of sight.

A NEW LANE-KEEPING SYSTEM^{1,3} can detect lane markings and apply torque to the steering wheel if it senses your vehicle drifting unintentionally out of its lane. If needed, the Lane-Keeping System can also send gentle vibration pulses to the wheel to prompt you to steer back toward centre.⁴ If it detects you've come too close to – or crossed – the markers multiple times, a Driver Alert System² displays a coffee cup icon to suggest taking a break from driving.

PRE-COLLISION ASSIST WITH PEDESTRIAN DETECTION including collision warning, brake support and active braking¹ fuses information from a forward-facing camera and radar technology to help in various driving situations.² The system monitors the proximity of Fusion to other vehicles, as well as pedestrians. If a potential collision is detected, collision warning can alert you with visible and audible signals, so you can take action. If needed, brake support will precharge and increase brake-assist sensitivity to provide full responsiveness when you brake. And if the system determines a collision is imminent, active braking may automatically apply the brakes.²

ADAPTIVE CRUISE CONTROL WITH STOP-AND-GO¹ uses advanced radar technology to scan for slower vehicles in front of you. It can automatically adjust your vehicle's speed to maintain a preset gap from that vehicle. The system can be used at both high and low speeds, and can even follow the vehicle in front of you to a complete stop.

Titanium in White Platinum Tri-coat Metallic with available equipment. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ¹Available feature. ²While Pre-Collision Assist with Pedestrian Detection may be especially helpful in unexpected situations, it does not replace the driver and has limitations, which include nighttime, low and harsh lighting conditions, vehicles moving in a different direction, and certain weather conditions. ³Lane-Keeping System does not control steering.

WHEN PARKING, THERE IS NO PARALLEL.

After just one use of its Enhanced Active Park System,¹ you'll never go back to parking Fusion the "old-fashioned" way. Whether you're backing into a perpendicular spot or slowing down to parallel park, ultrasonic sensors can identify a parking space that is the right size, then the system steers the vehicle into it. All you do is follow on-screen prompts, and operate the accelerator, brake and rotary gear shift dial as needed.

The system can even provide steering assistance when pulling out of a parallel spot. And in parking manoeuvres, the Forward and Reverse Sensing Systems provide guidance by emitting beeping tones to alert you to objects near the front, rear or sides of Fusion. No second guessing. Much less stress.

Platinum in White Gold Metallic with available equipment. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ¹Available feature.

FUSION PLATINUM

THE ULTIMATE IN REFINEMENT.

More rare than even gold, platinum signifies ultimate luxury. One look inside and you'll know how Fusion Platinum got its name. In addition to the standard leather-trimmed heated and cooled front seats in Medium Soft Ceramic, the instrument panel and console rails are leather wrapped and stitched, while leather also wraps the door armrests, the centre console armrest and the heated steering wheel.

Every driver-assist technology Fusion offers is standard on Platinum. As is a Navigation System with pinch-to-zoom functionality to help guide you. Outside, Platinum distinction is marked by a Magnetic-painted sport grille, a power moonroof overhead, and 19" polished aluminum wheels at the corners.

A Magnetic-painted sport grille puts Platinum front and centre.

FUSION SPORT

HERE TO THRILL.

**Votre Ford au meilleur prix
& toujours le meilleur service**
155 Boul. Lachapelle St-Jérôme, QC, J7Z 7L2

**Sortie 39 de l'autoroute 15
à 2min de la 117**

1 (877) 844-4331

Introducing Sport.¹ One hot new Fusion. Ready to greet the street with 325 horsepower.² Its distinct appearance is backed by a new 2.7L EcoBoost[®] engine, the most powerful ever offered on Fusion, and a paddle-shifted 6-speed SelectShift[®] automatic transmission. To handle all that thrust, a modified sport-tuned suspension and standard Intelligent all-wheel drive (AWD) can combine to deliver a taut ride, precise cornering and extreme road-holding finesse.

To help you adapt quickly to changing road conditions, Fusion Sport features Continuously Controlled Damping (CCD) with new pothole detection. 12 different sensors in the system read the road – and your driving input – 500 times per second, then quickly adjust the firmness and damping of all 4 wheels to help Fusion be in better harmony with the road surface. If a pothole is detected, the system reacts so quickly that it can adjust the shock absorbers to help reduce the severity of impact to vehicle occupants. Hit the Sport setting to tighten suspension tuning, firm up steering calibration, and enjoy a more powerful engine sound inside the cabin – all while feeling more connected to the pavement.

Dark Earth Grey leather-trimmed seats with suede cloth inserts are a Sport exclusive.

Sport in Ruby Red Metallic Tinted Clearcoat with available equipment. ¹Coming Summer 2016. ²Horsepower and torque ratings achieved with 93-octane fuel.

1 (877) 844-4331

**Sortie 39 de l'autoroute 15
à 2min de la 117**

HIGHLY RESPONSIVE IN NATURE.

Keep your poise through the corners, even under acceleration, thanks to Torque Vectoring Control.¹ By applying slight braking force to the inside front wheel as needed to help more torque reach the road, this standard system helps Fusion stay firmly planted. Helping to keep things stable, particularly in inclement weather, is standard AdvanceTrac[®] ESC (electronic stability control).¹ To further enhance Fusion performance, there's Intelligent all-wheel drive (AWD).² This fully automatic system continuously monitors and predicts traction, transferring power between the front and rear wheels as needed, typically before wheelslip can even occur. It's designed to effortlessly improve handling characteristics and maximize traction.

Whenever outside light levels dictate, automatic headlamps² turn on to help keep the road ahead well lit. At the slightest hint of moisture, rain-sensing wipers² activate to help keep the windshield clear. And new this year, the standard Individual Tire Pressure Monitoring System allows you to see individual pressure in each tire.³ Not only will you be notified if any tire's pressure is low, but the system will tell you which tire and how low.

Platinum in White Gold Metallic with available equipment. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²Available feature. ³Excludes spare, if equipped.

Ford Extended Service Plan. Help protect your investment and add to your peace of mind by complementing your vehicle purchase or lease with a Ford Extended Service Plan (ESP). Ford ESP protects you against unexpected repair costs after your Basic Coverage in the New Vehicle Limited Warranty expires by covering many vehicle components. Enjoy the drive even more by complementing your ESP with a prepaid maintenance plan, which covers all required scheduled maintenance for your vehicle, plus 8 wear items. See your Ford of Canada Dealer for details.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your local Ford of Canada Dealer for details or check us out at fordcredit.ca.

Ford Original Accessories that are properly installed by the authorized Dealer that sold the accessory will be warranted for whichever provides you the greatest benefit: 24 months/unlimited distance, or the remainder of your 3-year/60,000-km New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer's warranty. FLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your local Ford of Canada Dealer for details and/or a copy of all limited warranties.

For prompt, courteous answers to your questions:
Ford Customer Relationship Centre 1-800-565-3673;
Ford Credit Customer Service Centre 1-877-636-7346.

Our commitment to you: Peace-of-Mind Protection

- Basic Coverage: 3 years/60,000 km
- Powertrain Limited Warranty: 5 years/100,000 km
- Corrosion Perforation Warranty: 5 years/unlimited distance
- Roadside Assistance: 5 years/100,000 km

¹Ford Licensed Accessory. ²Available on Fusion Energi only.

Your vehicle's unique hybrid/electric components are covered during the Hybrid/Electric Unique Component Coverage, which lasts for 8 years or 160,000 km, whichever occurs first. The following hybrid parts are covered during this extended coverage period: high-voltage battery, hybrid continuously variable transmission, Inverter System Controller (ISC), DC/DC converter, high-voltage battery connector, battery pack fan assembly, thermistor probe, Hybrid Battery Pack Sensor Module (HBPSM), Battery Energy Control Module (BECM), and PHEV onboard charger. See your Owner's Guide for important tips on how to maximize the life and capacity of the lithium-ion battery. Certain conditions apply. For more information on these warranties and coverages, ask your local Ford of Canada Dealer or visit ford.ca.
