ONCE A TOYOTA, ALWAYS A TOYOTA

ONCE A TOYOTA, ALWAYS A TOYOTA.

We know that the idea of buying a used Toyota is attractive to you. After all, getting a high-quality, low mileage Toyota at a great price is a smart move.

But we also understand your concerns. So to give you complete peace of mind, we created the Toyota Certified Used Vehicle program. It assures you the best new cars do indeed make the best used cars. Here's how:

We begin by selecting only vehicles which are within six years of the current model year and have less than 140,000 km. Each vehicle is then subjected to a 127 Point Quality Assurance Inspection and receives a CARPROOF® Vehicle History Report. The result is a collection of the best-of-the-best certified used vehicles.

What else makes a Toyota Certified Used Vehicle a smart choice? Every TCUV is eligible for special low financing rates from Toyota Financial Services. And each comes with a Toyota factory warranty which is honoured at over 1,000 Toyota dealers in Canada and the U.S.

It's no wonder why millions of cars in North America have been sold through the Toyota Certified Used Vehicle Program. It's a smart choice.

Every Toyota Certified Used Vehicle has a CARPROOF® Vehicle History Report. It provides information on ownership history, title problems and registration, with data collected from over 200,000 sources, including U.S. and Canadian DMVs, auctions and insurance companies. You will know if your vehicle is branded as: Salvage, rebuilt, non-repairable, stolen or a total loss.

CARPROOF® is the only service that supplies consumers with Canadian insurance and accident claims data. CARPROOF® is electronically connected live to its data sources. Its information is always current unlike other services.
