Mazda Full Circle Report Card

Customer Guide - Definition of Green, Yellow & Red status:

Green boxes identify items that are in “good” condition - they do not show evidence of unusual or significant wear. Green also is used for items that have been repaired/replaced this visit.

Yellow boxes identify items that are wearing significantly, but are not likely to fail before the next scheduled maintenance interval. Yellow condition indicates normal wear and tear.

A **Red** box identifies that an item is either broken or will likely wear out or fail before the next scheduled maintenance interval. In this case, the dealership recommends immediate replacement.
