ford.ca

Drive one.

More power to THE PONY

Closed course. Professional driver. Do not attempt.

All-new aluminum engines shout higher, more intense performance – for both V6 and GT. The most powerful production V6 and GTs ever are now armed with all-new 6-speeds. Efficiency is unsurpassed.¹ Choose coupe, convertible or glass roof. No excuses: This is the year of your Mustang.

¹Based on 10.7L/100 km city and 6.4L/100 km hwy. for V6 Coupe with automatic transmission, and 12.2L/100 km city and 7.6L/100 km hwy. for GT with manual or automatic transmission. Fuel consumption ratings based on Transport Canada approved test methods.

V6@305 HP +

6.4 L/100 km

Can't touch this new Mustang V6. 305 horses and a class-best¹ 6.4L/100 km hwy.² No other vehicle beats that combo.³ The all-new, 3.7L aluminum engine boasts dual-overhead cams and Ti-VCT (twin independent variable camshaft timing). Translation: maximum off-the-line acceleration. New 6-speed control in the palm of your hand. The X-pipe dual exhaust is new too. Its wide, bright tips howl out a deep, rich tone – unique to V6, especially at full tilt. Yet more reasons why Mustang is Canada's favourite sports car.⁴

The New Mustang V6 ■ 280 lb.-ft. of torque with plenty of low-end oomph ■ Recalibrated suspension componentry and new electronic power-assisted steering make for greater handling ■ Now standard: limited-slip rear axle transfers driving force to rear wheel with most traction ■ Bright Pony is flanked by satin chrome on grille ■ Polished 18-in. cast-aluminum wheels perform as good as they look ■ More eye-catching cues include lower body tape stripes, a decklid spoiler and fog lamps ■ New rear head restraints can be folded down ■ Auto-indexing door windows ensure a tight seal ■ An engine block heater is available, and so is a Power Code™ Remote Start System (for automatic transmissions only) ■ Interior Upgrade Package available with MyColor,® ambient lighting, bright pedal covers, aluminum accents, heated front seats, Ford SYNC,® plus much more

¹Class is V6 and V8 Sports Cars. ²10.7L/100 km city and 6.4L/100 km hwy. for V6 Coupe with automatic transmission. Fuel consumption ratings based on Transport Canada approved test methods. ³Versus 2009/2010 models. ⁴Based on total sales for calendar year 2009.

2011 MUSTANG

ford.ca

Drive one.

The wait is over. Mustang GT pounds pavement with an advanced, all-new take on the 5.0L V8. Mod 5.0 graphics debuted on the hood scoop of a 1978 Mustang II King Cobra. The actual 5.0 badge of honor made its first appearance the following model year, creating a loyal legion of fans in the process. 1995 models – cresting at 240 hp – were last to flaunt the hi-po 5.0. Until now: Output reverberates with an astounding 412 hp¹ and 390 lb.-ft. of torque.¹ This baby kicks and screams like the day it was born, only way stronger.

Legendary THUNDER RETURNS

The all-new, all-powerful 5.0L V8 ■ Aluminum cylinder block with optimized bay-to-bay breathing ■ Aluminum, hi-flow 4-valve-per-cylinder heads lend volumetric efficiency ■ Torque-actuated Ti-VCT (twin independent variable camshaft timing) adjusts valvetrain intake in microseconds ■ Dual-overhead-cam, compact Roller-Finger Followers configured for aggressive cam-lift rates ■ Unique tubular exhaust headers maximize pulse separation ■ Forged-steel crankshaft is fully counterweighted ■ Nodular iron, cross-bolted main bearing caps contain upsized bolts ■ Deep-sump, stamped-steel oil pan enables a sustained, high-range rpm

¹Figure achieved using premium unleaded fuel.

Mustang GT • Race Red • Available Equipment

2011 MUSTANG

Drive one.

GT @ 412 HP¹ + 390 TORQUE¹

Mustang GT tops any enthusiast's wish list. The all-new 5.0L V8 raises desire tenfold, especially its pulse-popping, 82-hp-per-litre force. Redline is pushed to 7,000 rpm. Compression ratio is formulated to 11:1.

Transmission is optimized to 6 speeds, with the benefit of 7.6L/100 km hwy.² New handling dynamics include electronic power-assisted steering for optimal all-speed performance; re-tuned struts and shocks for improved ride and balance; plus larger-diameter stabilizer bars and brakes for tighter cornering. GT – for ultimate kicks.

The New Mustang GT ■ Unique front end cheats the wind to help create a low drag coefficient and reduced aerodynamic lift ■ Bright, rolled 3.5-in. tips on H-pipe dual exhaust ■ Signature, throaty V8 rumble is specially piped into the cabin ■ New rear lower control arms, and now a skip shift for the manual transmission ■ Fog lamps housed in the grille, on either side of exclusive-to-GT dark chrome Pony ■ Leather-trimmed interior with contrast stitching ■ All-new California Special Edition available with chrome billet-style grille and GT/CS side stripes is loaded with many more exclusive exterior cues and interior accents ■ All-new GT Brake Performance Package available with unique 19-in. wheels and electronic stability tuning

¹Figure achieved using premium unleaded fuel. ²12.2L/100 km city and 7.6L/100 km hwy. for GT with manual transmission. Fuel consumption ratings based on Transport Canada approved test methods.

Mustang GT • Grabber Blue • Available Equipment

2011 MUSTANG

ford.ca

Drive one.

Mustang Convertible ■ Designed from the ground up ■ Z-brace added and V-brace stiffened for greater structural rigidity ■ Low-profile power top Z-folds out of sight ■ Top is weatherproofed outside, tailored inside, sound-deadened in between ■ Glass rear window with defroster ■ Vinyl top standard, cloth top optional

Mustang Glass Roof ■ Installed right at the factory ■ Tinted, high-performance safety glass helps keep the cabin cool – fully filtering 96% of ultraviolet rays and 90% of infrared rays ■ Includes a retractable, built-in shade ■ Transparent acoustic layer helps reduce wind and road noise

Twice as BREATH TAKING

Freedom of expression taken to a big-time, glorious extreme. Just the ticket for those who want to expand their horizons. Go open-air convertible – where your wind-in-hair passion knows no bounds. Or go 4-season glass roof – where even the weather can't spoil your 24/7 thrills. Either version available in V6 or GT style. Unparalleled variety. Unbelievably fun.

Even within,
awe-inspiring

Interior allure rivals that of the jaw-dropping exterior. Craftsmanship is nothing less than world class. Premium materials abound: from the seamless, soft-touch instrument panel to the available, genuine-aluminum accents. Driver-variable ambient lighting¹ radiates hi-tech prowess. As does MyColor^{®1}— with literally 125 combinations of hues — allowing you to customize the full complement of gauges. Mustang at its finest.

9. Easy Fuel[®]
10. Power sideview mirrors w/integrated blind spot mirrors

¹Available.

2011 **MUSTANG**

ford.ca

Drive one.

MYKEY™ owner controls feature is an industry-first. It allows you to assign separate keys to enforce specific driving restrictions – including top speed and audio volume. Especially helpful when it comes to that hot-shot valet.

REAR VIEW CAMERA is an optional help. Shift into reverse – a full-colour image from the spoiler-mounted camera appears in your rearview mirror, or on the available navigation screen.

SYNC SAY THE WORD

AWARD-WINNING FORD SYNC® voice-activated, in-vehicle communications and entertainment system – standard on GT, available on V6. Works with your paired Bluetooth®-enabled mobile phone and digital media player or USB drive. Delivers hands-free calling. Plays your music. All with the touch of a button and your voice! It also features 911 Assist.^{TM2}

Special OPS

VOICE-ACTIVATED NAVIGATION SYSTEM features the same speech-recognition setup as SYNC. The 8-in. LCD touch screen displays a host of services, including Route Guidance – directions are conveyed aloud. Bonus: This system also has nearly 10 GB of storage space for your photos and music (up to 2,400 songs). It's all part of the optional Next Gen Navigation System Package that includes dual-zone electronic automatic temperature control.

SIRIUS® SATELLITE RADIO is standard on GT and available on V6. It comes with a 6-month prepaid subscription.³ Surf up to 120 channels including 100% commercial-free music, plus, the best sports, news, talk and entertainment – all across Canada.

AUDIO INPUT JACK connects your portable media player to the Mustang sound system. Pump out your favorites on the go.

ALL-NEW 6-SPEED TRANSMISSION is designed for peak performance and efficiency across the powerband. Manual standard. Automatic optional.

*Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. ²The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. ³See your Ford of Canada Dealer or contact SIRIUS at 1-888-539-7474 for more information.

Elements

More tech. Further proof Mustang offers more than muscle.

A | HID HEADLAMPS emit approximately 2 1/2 times as much light as conventional versions. A special quartz bulb generates a penetrating, bluish-white light. Available on V6 and GT.

B | EASY FUEL® originated at the race track. Fill-ups are made simpler – no screw-on cap to tighten, loosen or lose. The system self seals to protect against dust, water, snow and ice.

C | BLIND SPOT MIRRORS are built into each sideview mirror. They're convex, reflecting the image of approaching vehicles that enter your blind spots.

D | ADVANCE TRAC® ESC (electronic stability control)¹ helps keep you in control and on track. It works in conjunction with the 4-wheel disc ABS and all-speed traction control.

GT BRAKE PERFORMANCE PACKAGE is available with the high-performance stopping power of 14-in. Brembo™ vented front rotors and Brembo 4-piston calipers. Brembo is a leader for braking systems – be it for street or racing circuit.

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
