Small Business Packages. Big Deal Convenience.

Ford Pro Trade Packages now allow you to receive a "Work Ready" van from the factory.

Looking to accessorize your next commercial vehicle? We've done the thinking for you by creating a trade-specific accessory package, especially with your vocation in mind. And if that wasn't convenient enough, your trade package is factory-installed, so there's no need to schedule aftermarket upfitting, saving you time and money. Plus, factory installation means you finance your vehicle with your selected trade package, eliminating the hassle of arranging additional financing for the upfit alone. So, when you're looking for commercial accessories, nothing fits the job quite like Ford Pro™.
