

How will Kia Commercial Advantage benefit your business?

Protect Your Cash Flow

Preserve your cash with secure funding options that align with your business needs, budget and goals

Grow Your Fleet

With low monthly payments, you can afford more vehicles on the same monthly budget, multiplying your revenue generating opportunities.

Streamline Fleet Operations

Our all inclusive fleet management services will help drive down your fleet costs without the expense of adding headcount.

Make your fleet more productive, predictable, and profitable.

- **Funding**

Terms from 2 to 6 years in length with the flexibility to own the vehicle at the end or cycle it out before costly maintenance and the associated down-time impact your business. Lower your monthly payments by up to 30% and use the additional savings to grow your fleet and add \$ directly to your bottom line.

- **Fuel Management**

Track fuel spend for expense forecasting and fraud monitoring. Makes it simple to keep track of drivers on the road and keep fuel costs under control using built-in management tools.

- **Maintenance Management**

Our automated, hands-off approach to vehicle maintenance will allow you to focus on running your business. Find a service vendor that fits your needs in our vendor locator and get ahead of your service intervals with the PM tracker. You'll never DIY your fleet again.

- **Account Management**

A dedicated Account Executive will be assigned to your business, along with consolidated billing, and a custom online dashboard to proactively monitor your fleet.

- **Telematics**

Access to comprehensive data on their fleet, including vehicle location, performance, and downtime. Armed with this information, you can make more informed decisions to optimize your fleet's efficiency.
