

The fuel and maintenance solutions offered through Kia Commercial Advantage serve up more actionable opportunities to control your vehicle spend, while requiring less of your time and involvement:

FUEL

Shut down fraud and control spend activity

- We make it simple to keep your drivers on the road and fuel costs under control
- Every enrolled vehicle comes with a WEX fuel card accepted at 95% of U.S. fuel stations
- Using our online portal, you can set velocity controls, manage PINs, and receive real-time fraud alerts from WEX

MAINTAIN

Gain peace of mind about repair costs and spend less time with vendors

- When it's time to service a vehicle, you can find vendors via our online locator
- All proposed work routes through our automated system that verifies prices are in range and flags recently repaired items
- Compliant work orders up to \$750 are approved; anything higher routes to you for approval, negotiation, or rejection
- Need help? You can request support from Holman's ASE-Certified technicians who will negotiate directly with vendors for a nominal flat fee
- For emergencies, drivers call our toll-free hotline for roadside assistance and rentals

MONITOR

Pay and review fleet spend in a single place

- All lease, fuel, and maintenance charges are paid via a single monthly invoice
- You can quickly see how much each vehicle is costing your company using our easy-to-read online fleet reports

Kia is a global automotive leader. With Kia Commercial Advantage, let's team up to gain better visibility into your fleet spend, reduce administrative time, and drive more informed decisions.
