OCTOBER 2014

To all my friends and potential Hand Motors Customers:

I wish we could carry every new car line, but we aren't that fortunate. When you buy a new car it's simpler...it's brand new, has a new car warranty, and is usually just what you want and in the color you like. Used cars are different, and the most important advice I can give you is to buy a car from someone you trust and will stand behind what they sell.  
So do your homework. Ask the salesperson for the service history, the car fax, and the details of the warranty. In addition, take it for a good test drive and have your favorite mechanic check it out if you like. Oh by the way, insist on a fair interest rate that matches your credit score, and make sure the owner of the business is there to meet you at the front door and be there to help you with the process.  
We have a great sales team who are here to take care of you and I promise they will! Give me a call anytime...

I'll be waiting by the phone. Best, John Hand

*John Hand*
