VSC VEHICLE SERVICE CONTRACTS

Your vehicle is your ride to adventure and your livelihood—protect it, and your wallet, from unplanned repairs that may result in significant out-of-pocket expenses. EasyCare's Vehicle Service Contract (VSC) offers four levels of coverage to suit your budget and driving habits so you can protect your investment and increase your trade-in value. It may even cover some repairs that the manufacturer's warranty doesn't.

EasyCare coverage is transferable to another private owner if you sell your vehicle.

**Embrace the journey...
we'll take care of the rest.**

Did You Know?

- If you drive more than 12,000 miles per year, your factory warranty may expire before it reaches its time limit—and many used vehicles are already out of warranty.
- Today's vehicles come equipped with computers and technology, and the likelihood those components will need repairs increases over time.
- A vehicle service contract can improve the value of your vehicle by helping with covered repairs before trade-in.

Average Repair Costs

Add an additional \$280 to each occurrence for estimated towing and substitute transportation expenses that may be incurred.

¹ Refer to your contract for a complete list of covered and excluded parts and components.

² See Section C in your contract for WHAT IS NOT COVERED.

EVs need coverage too

It's true that electric vehicles run differently, but they still have many components in common with gasoline vehicles—like heating, air conditioning, steering, technology, electrical, and more.

Plus, EVs have lots of specific, complex components with hefty price tags if they need repairs. EasyCare's VSC includes coverage for these EV components to help protect your budget.

EV Components' Average Repair Costs

| | |
|------------------------|--------------------|
| Drive Motor | \$4,768 - \$33,419 |
| Battery | \$4,089 - \$42,344 |
