

World of GMC SUVs and Trucks

An Unprecedented Time to Visit a Special Dealership

Off-road dominance is engineered into every element. As the world's first zero emissions all-electric supertruck, Hummer EV generates the power and technology to conquer the off-road with extraordinary confidence.

BY SAMUEL PATRICK

The GMC emblem is possibly the most recognizable and frequently observed logo on the road today. GMC's heritage goes far back to 1912 at the New York Auto Show. Featuring three large red letters trimmed in silver, the logo's design undeniably impresses and symbolizes sheer power, utility and reliability – features GMC owners expect in their trucks and SUVs.

As both a car enthusiast and writer, I take great pleasure, and honor, in an opportunity to showcase the iconic GMC brand and Hill Buick GMC. When I'm driving the region's roads and highways, no other iconic logo grabs my attention more than GMC. Not surprising at all, the bold emblem strikingly appears on the grills of eight GMC SUV models: Yukon, Yukon Denali, Yukon XL, Yukon XL Denali, Terrain, Terrain Denali, Acadia, and Acadia Denali; and seven GMC truck models: Sierra 3500 Denali HD, Sierra 3500 HD, Canyon, Sierra 1500, Sierra 1500 Denali, Sierra 2500 HD, and Sierra 2500 Denali HD. GMC SUV and truck choices seem endless.

When I'm driving the region's roads and highways, no other iconic logo grabs my attention more than GMC.

Like everything about Hummer EV, its cabin was designed with an unprecedented combination of innovation and luxury in mind.

The first Hummer EV model goes on sale fall of 2021. Hummer EV is superfast. One electric motor drives the front wheels and two more drive the rear wheels, generating incredible 1,000 horsepower and an overabundance of torque that propels the supertruck 0-60 in 3 seconds. Whether internally or externally, the all-electric supertruck is a high-tech powerhouse.

Whether you reside in such western communities as Chester Springs, Downingtown, Malvern, or West Chester, or the eastern communities such as Paoli, Berwyn, Wayne, or Media, there's a special destination in Newtown Square featuring GMC trucks and SUVs. On Route 3 (West Chester Pike), just one mile west of the Route 252 and Route 3 crossroads, resides the family dealership of Hill Buick GMC, and its neighboring dealership Hill Cadillac.

Recently, I visited with Geoffrey Hill Jr., Hill Buick GMC President. The timing of my visit could not have been better. The following are highlights of what I discovered about some of the latest GMC new model introductions and updates.

Announcing 2022 GMC Hummer EV – World's First Zero Emissions All-Electric Supertruck

Personally, based on my professional observations and GM experiences, I believe GMC's over one hundred years of exceptional automotive innovations merge together and culminate in the 2022 GMC Hummer EV. Whether internally or externally, the all-electric supertruck is a high-tech powerhouse.

Technology connectivity features include a large 13.4-inch diagonal GMC Infotainment System with Navigation, Apple CarPlay compatibility, Android Auto compatibility, a Wi-Fi Hotspot, and GM's OnStar telematics system.

GMC's over one hundred years of exceptional automotive innovations merge together and culminate in the 2022 GMC Hummer EV.

The first Hummer EV model goes on sale fall of 2021; reservations are being taken at this time. Visit or call Hill Buick GMC for details. The second model is projected to launch fall of 2022; and subsequent models spring 2023 and spring 2024.

Off-road dominance is engineered into every element. As the world's first zero emissions all-electric supertruck, Hummer EV generates the power and technology to conquer the off-road with extraordinary confidence. First-of-its-kind Extract Mode facilitates getting over or out of challenging tough spots. Ultravision, with up to 18 camera views, includes waterproof underbody cameras that provide real-time views to help pick the best line along a trail. For on- and off-road performance, towering ground clearance starts with specially engineered 35-inch Goodyear Wrangler Territory tires. Extreme off-road capability is engineered into every aspect of Hummer EV. Standard independent front and rear suspension enables remarkable off-pavement handling and highway com-

fort while available front e-lockers and virtual rear lockers optimize traction. Available CrabWalk is a revolutionary setting utilizing Hummer EV's 4-wheel steering to drive diagonally at low speeds, helping the supertruck traverse tight trails with a capability that no other truck in its segment can match.

Simply put, Hummer EV is superfast. One electric motor drives the front wheels and two more drive the rear wheels, generating incredible 1,000 horsepower and an overabundance of torque that propels the supertruck 0-60 in 3 seconds.

The industry-leading Infinity Roof and modular removable Sky Panels create an immersive open-air experience. Transparent Sky Panels are tinted to deflect sun and help protect from the elements while providing panoramic views.

Hummer EV's revolutionary design elements are infused with signature cues, beginning with six vertical grill bars, a low-turret roof profile and an upright windshield, while finishing strong with unique signature

taillamps. Like everything about Hummer EV, its cabin was designed with an unprecedented combination of innovation and luxury in mind. Intergalactic travel and other worldly landscapes are the inspiration for its Lunar Horizontal themed interior. Discover Tech Bronze accents, durable all-weather flooring and more. The Bose 14-speaker audio system with Centerpoint with Electric Vehicle Sound Enhancement (EVSE) creates an acoustical experience designed for the Hummer EV cabin.

Technology connectivity features include a large 13.4-inch diagonal GMC Infotainment System with Navigation, Apple CarPlay compatibility, Android Auto compatibility, a Wi-Fi Hotspot, and GM's On-Star telematics system.

GM's Super Cruise with driver-assistance technology provides hands-free driving and automatic lane changing on more than 200,000 miles of compatible roads. A host of safety features include lane-keeping assist, blind-spot monitoring, and more.

The bold looking, massive, luxurious Yukon SUVs provide plenty of space for passengers and cargo.

All-new Denali-exclusive interior design, and class-leading available 15" diagonal head-up display.

When it comes to range and charging efficiency, GM's new Ultium battery-pack technology adeptly supplies the Hummer EV an estimated 350-plus miles of driving range per charge. Recharging is fast and efficient. The 800-volt electrical design with 350-kilo-watt fast-charging capability adds 100 miles of driving range as quickly as 10 minutes.

Introducing GMC 2021 Yukon – The Next-Generation Yukon

The exciting and much-anticipated next-generation Yukon and Yukon XL arrived this past summer. The new, 2021 full-size SUV is unrivaled driving pleasure. The 2021 Sierra lineup is the peak of GMC design and capability. Impressive proportions, a tall stance and an unmistakable front end create a design that reflects the innovative technologies and powerful engines inside. Pictured is the Sierra Denali.

2021 GMC Sierra

While much euphoria and industry attention has been given to GMC's Hummer EV announcement as the all-new innovative model within the GMC truck lineup, there's much excitement over GMC's lineup of 2021 Sierra's. As one of the best and most famous truck manufacturers in the world, GMC's Sierra lineup of seven models (Sierra 3500 Denali HD, Sierra 3500 HD, Canyon, Sierra 1500, Sierra 1500 Denali, Sierra 2500 HD, and Sierra 2500 Denali HD) meet every pickup need imaginable, whether light-duty, medium-duty or heavy-duty; or whether standard-cab, double-cab or crew-cab; every trim package conceivable; and the latest in innovations and technologies.

The 2021 Sierra lineup is the peak of GMC design and capability. Impressive proportions, a tall stance and an unmistakable front end create a design that reflects the innovative technologies and powerful engines inside. The following are highlights.

The innovative GMC MultiPro Tailgate offers six distinct functions designed to help improve loading, unloading and accessing the cargo box. And take your music outdoors while camping or tailgating with the MultiPro Tailgate integrated with the available accessory MultiPro Audio System by Kicker®. This 100-watt exterior audio system has full Bluetooth® streaming capability and enough power to keep the party going – without leaving your Sierra running.

Cargo bed innovations include high-strength roll-formed steel providing a more durable bed floor; standard or available spray-on truck bedliner delivers durability where it counts; up to 12 available tie-downs; and powerful LED lighting. Cornerstep rear bumper in both corners features large footwells, lined with an anti-slip texture and sized for large boots, help make access to the cargo bed easier than ever.

Each Sierra comes equipped with an impressive set of standard and available head-turning wheels. An extensive premium selection perfectly matches a superior sense of style.

The 2021 Sierra interior elevates the driving experience with sound-absorbing technology, inventive storage, premium materials and comfortable leather-appointed seating that make your ride a smooth one. Outside, the stance is tall and bold, and inside the large proportions give the added confidence of sitting high. You can also stretch out with Sierra crew cab's class-leading expansive front head and leg room.

The innovative GMC MultiPro Tailgate offers six distinct functions designed to help improve loading, unloading and accessing the cargo box.

Sierra is engineered to help keep road noises outside for a quiet, comfortable ride with superior sound-absorbing technology in the dash and carpet, and inlaid, triple-sealed doors.

Sierra Denali's sharp proportions, mountainous stance and unmistakable front end create a premium look that reflects GMC's innovative technology and powerful engines.

Sierra offers powerful performance you can count on. The following engine options provide a wide range in horsepower from 285 to 460 and torque of 305 to 460: 4.3L Gas V6; 2.7L Turbo Engine; 5.3L EcoTec[®]3 V8; Duramax[®] 3.0L Turbo-Diesel; and 6.2L EcoTec[®]3 V8. Transmission choices include 6, 8 and 10-speed.

Traction Select System adjusts Sierra's transmission shift points, throttle mapping and StabiliTrak[®] to optimize performance for the situation. Available modes are Tour, Sport, Terrain, Snow, Tow/Haul, and Off-Road.

And when it comes to the long haul, Sierra features Integrated Trailer Brake Controller, available Trailer Towing Mirrors, Electric Parking Brake Assist, Max Trailering Package, and X31 Off-Road Package.

Cargo bed innovations include high-strength roll-formed steel providing a more durable bed floor; standard or available spray-on truck bedliner delivers durability where it counts; up to 12 available tie-downs; and powerful LED lighting. Cornerstep rear bumper in both corners features large footwells.

GMC MultiPro Tailgate

A Special Dealership

Members of the Hill family and their staff are car enthusiasts, and they are serious about their reputation for creating a superior buying experience for SUV and truck shoppers. Randy Hill remarked, "Customer service is everything; we stand behind our products and service." Geoffrey Hill Jr. added, "What differentiates us is that we show our clientele that we care, because we honestly do care. Our reputation is everything."

Hill Buick GMC is also a special place because vehicle buyers are attracted by Hill's reputation for premier sales, service, and financing. Hill personnel are car enthusiasts, friendly, experienced, knowledgeable, and dedicated to ensuring a superior car- and truck-buying and servicing experience. Sales management has over 20 years of automotive industry experience. Service Director Tim Hilsey has over 24 years of experience with Hill dealerships. Tim is diligent in his quest for hiring the best technicians in the business. "I'm an ASE® (Automotive Service Excellence) Master Technician, so it gives me an advantage. We work with Delaware County Community College and the Automotive Training Center in Exton to obtain skilled employees. Customers appreciate the quality of our team. We consistently score 97 percent satisfaction in service ratings." Hill is superlative in every facet of the industry: brand, sales, service, and satisfaction. "We are proud of our position and the fact we rank nationally in the top 10 percent of consumer satisfaction (CSI)," punctuated Geoffrey Hill Jr.

An Unprecedented Time

Hill Buick GMC invites you to visit and experience a seemingly endless selection of quality GMC products from entry level to large and luxurious SUVs and trucks. The time to do so has never been better. **CCL**
