

sylvansport®

Cooler. Camper. Ever.

- National Geographic Adventure

The SylvanSport GO was designed to break the rules and
reset your expectations for what a camper can be.

We understand it's not for everyone.

If you crave the energy and freedom of being outdoors
but also insist on award-winning design, superior
craftsmanship and extreme comfort - then we think
you'll love the GO.

The average person may never choose to do the math,
but by almost any measure, this unique Adventure
Camper redefines a "smart investment."

It's time to feel exhilarated again. Let's GO.

sylvansport

The top 5 reasons you will fall in love with a SylvanSport GO.

Versatile

Multi-use design for epic and everyday adventures

Comfortable

Spacious, elevated, waterproof tent sets up fast with multiple comfy dining and sleeping options

Lightweight

Fuel efficient and amazingly easy to tow with almost any car or truck

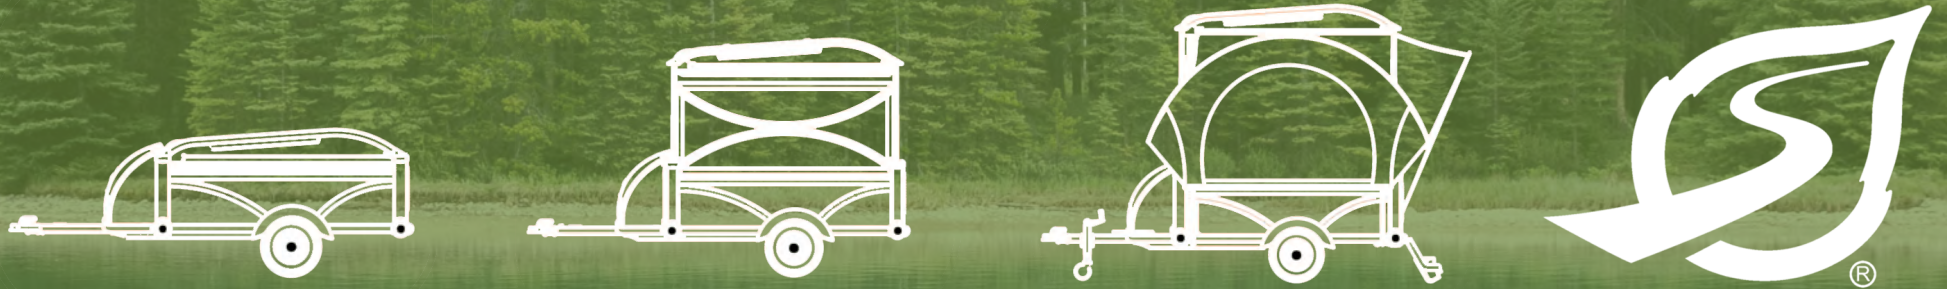

Durable

Built to last with the highest quality materials and near zero maintenance

American Made

Each GO is individually hand-crafted in Brevard, NC

GO way beyond camping.

The SylvanSport GO redefines versatility. It's a camper, a gear hauler, and a utility trailer all in one.

Camper Mode

If you truly love to camp, the SylvanSport GO is camping, elevated. Not only do you get to enjoy the full natural immersion of tent camping, but the GO keeps you elevated above the ground for a drier, cleaner, safer and more comfortable camping experience. The GO interior is bright and spacious with a six and a half foot ceiling height, oversized windows and screens, and multiple sleeping and dining configurations. The awning gives you an additional 46 square feet of covered outdoor living space to create your dream campsite.

Gear Hauler Mode

Gear Hauler Mode lets you load up all your outdoor toys for the most epic experiences ever. Boats, bikes, scooters, motorcycles, ATVs, SUPs, surfboards, coolers, grills and more (up to 800 additional pounds on the deck and 160 additional pounds on the top rack). The GO's Control-tilt deck allows for ramp-free loading and the low-profile roof rack keeps everything at arm's length.

Utility Trailer Mode

With a few easy adjustments, you can easily transform the GO into a fully functional utility trailer ready for every day moving needs. Whether you're picking up a load of building materials from the home store, or moving a futon and refrigerator to your daughter's college apartment, the GO can become your temporary pick-up truck.

We call it extreme comfort.

Your king-and-a-half size bed will be the envy of the campground.

The SylvanSport GO interior is spacious and comfy with multiple sleeping, eating and playing configurations.

You'll stay safe, dry and comfortable even in the worst weather. Our tent is completely waterproof and seam-sealed, so there is no need for an additional rainfly.

3-way doors and windows (screen, clear weather protection & privacy), as well as roof and floor ventilation, allow you to control the airflow for maximum comfort in any season.

It's like pulling fresh air.

The SylvanSport GO is light-weight and low-profile.

At only 840 pounds, the SylvanSport GO Adventure Camper can be easily towed by almost any size car or truck, and your gas mileage won't suffer along the journey. Once you arrive at your campsite, GO unhooks easily from your vehicle and can be maneuvered by hand into position for the perfect view or to catch a gentle summer breeze.

Built to last.

Don't let the GO's light weight fool you.

This camping trailer is a beast when it comes to quality and durability. From the TIG welded aluminum frame and diamond plate deck - to the Dexter torsion axle and extra-wide tires - to the waterproof and UV protected 220-denier ripstop nylon fabric (3x heavier duty than traditional family tents), the SylvanSport GO is built to last.

We could list hundreds of our quality details, but we'll let you visit our website for complete specs.

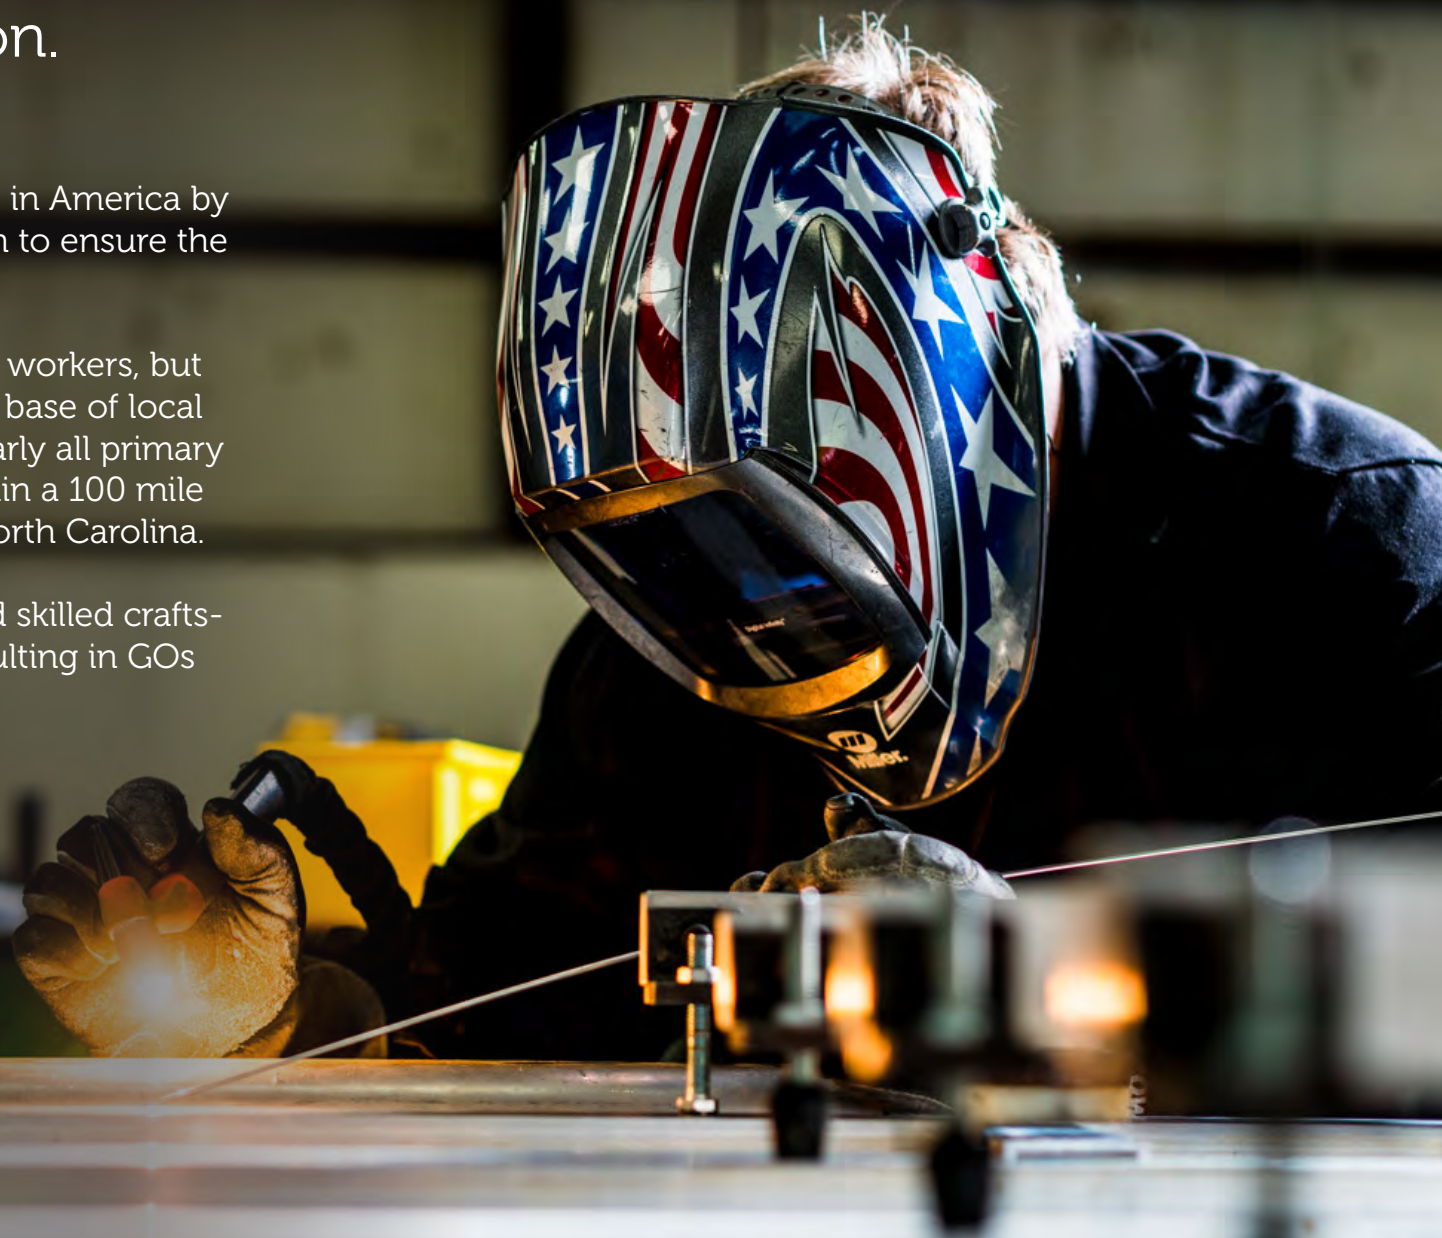

American craftsmanship.

American innovation.

Each GO is individually handmade in America by a member of the SylvanSport team to ensure the highest-quality craftsmanship.

Not only do we support American workers, but we are committed to growing our base of local suppliers. The supply chain for nearly all primary GO components comes from within a 100 mile radius of our factory in Brevard, North Carolina.

Our welders are highly trained and skilled craftsmen in the art of TIG welding, resulting in GOs that are made to last a lifetime.

GO Modes

The most innovative adventure camper in the world.
