

2011 Honda

Accord

Honda of Lisle
4475 LINCOLN AVE.
LISLE, IL 60532
(866) 865-8090

For many people, the words Honda and Accord are one and the same. And that's no mistake, because the Accord Sedan is more than just a car. It is a collection of ideas. Like the notion

Balance isn't about compromise. It's about **excelling** at everything.

that you can be responsible and still enjoy yourself. Or, that smarter engineering can result in both power and efficiency.

That's the way Honda thinks. And it's why Accord exists.

Welcome to the **intersection** of sleek and sensible.

The Accord Coupe is one hundred percent Accord, albeit in a decidedly sexier package. Boldly sculpted edges and a powerful stance can stir passion from any angle. The payoff is when you get behind the wheel. With its precise handling and available 271-hp V-6, this coupe offers more than enough performance to back up its appearance.

Accord EX-L V-6 Coupe shown in Belize Blue Pearl.

For an extra helping of athletic ability, try the Accord EX-L V-6 6-speed Coupe. Its short-throw shifter gives you pinpoint control over the vehicle's well-chosen gear ratios. Eighteen-inch alloy wheels also complement its sporting potential.

Accord EX-L V-6 Coupe shown in San Marino Red.

Take a **no-compromise** approach to power and efficiency.

Imagine an engine that not only exhilarates, but can also minimize fuel use¹ and emissions.² Accord offers three. A 177-hp, 2.4-liter i-VTEC[®] 4-cylinder (sedan only) and a 190-hp version, both of which received a Partial Zero-Emission Vehicle (PZEV) rating.² A 271-hp, 3.5-liter V-6 is also a model of efficiency.¹

The Accord's V-6 features the latest generation of Variable Cylinder Management[™] (VCM[®]) technology. This system can activate and deactivate the engine's cylinders as needed to meet the demands of acceleration and help maximize fuel efficiency.¹

During steady cruising, the Accord's V-6 shuts down the entire rear bank of cylinders. So the vehicle is essentially running on half an engine—resulting in greater fuel efficiency.¹ In this mode, the audio system's Active Noise Cancellation[™] (ANC) function generates out-of-phase sound waves to cancel out any undesirable noise that may be due to the harmonics of 3-cylinder operation.

3

When maximum torque is required—such as when you're merging onto the freeway or climbing a steep hill—all six cylinders are firing to deliver the engine's full power. The transition between the three operating modes is nearly seamless to the driver and passengers.

6

4

When cruising speeds climb, the engine will move from 3-cylinder operation to a 4-cylinder mode. The first, second, fifth and sixth cylinders—two cylinders in each bank—will be engaged for balanced running. To help keep engine vibration from reaching the cabin in every mode, a pair of active engine mounts automatically adjust their firmness to help absorb energy.

A level of **refinement** that may forever raise your standards.

From the way the seat holds your form to the way the controls feel to your touch, every detail is scrutinized.

Nothing is superfluous. Nothing an afterthought. Man and machine have never been more in tune.

Accord EX-L V-6 Sedan shown with Ivory Leather and available Honda Satellite-Linked Navigation System.^{TM3}

The simplicity and ease with which controls and switches fall to hand reflect the intense scrutiny paid to their design. A signature Accord benefit is that interacting with the vehicle's various systems quickly becomes second nature.

Comfort comes not just from the wide, supportive seats, rich upholstery or available leather. The Accord interior is a study in appealing textures, precisely joined surfaces and exacting quality.

Accord EX-L V-6 6MT Coupe shown with Black Leather and available Honda Satellite-Linked Navigation System.³

The Accord is designed to be an extremely engaging experience. Equip your EX-L with the available Honda Satellite-Linked Navigation System,³ and you'll command a vast knowledge of the U.S., except Alaska. It has a huge point-of-interest database,⁶ including restaurant ratings and

reviews from Zagat Survey.^{6,4} The system can be operated by voice commands or with the central interface dial, which also lets you work the audio system and climate controls. And, all EX-L models feature *Bluetooth*⁵ HandsFreeLink,⁶ which easily connects with your compatible phone.

⁶Some roads unverified. Please see your Honda dealer for details.

On navigation-equipped Sedan models, shift into reverse, and the rearview camera with an innovative guideline display makes it easier for you to maneuver the vehicle when backing up.

Move up to an EX-L model, and your ears will be treated to a 270-watt, 7-speaker audio system with a 6-disc in-dash CD changer, an 8-inch subwoofer, XM[®] Radio,⁹ an MP3/auxiliary input jack and a USB Audio Interface⁷ so you can plug in a compatible player or flash drive filled with music files. All models are equipped with Radio Data System (RDS), which can display artist and title information of the song playing and lets you scan for a particular type of music or program.

Some of its **smartest** features may never be used.

The Accord's Advanced Compatibility Engineering™ (ACE™) body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

The Vehicle Stability Assist™ (VSA®)* system is standard on all Accords. During an understeer or oversteer situation, it can brake individual wheels and/or reduce engine power to help restore your intended course. Standard ABS will also help you maintain steering – even during hard

braking. Also standard is Brake Assist, which helps apply full braking in some emergency situations, and Electronic Brake Distribution (EBD), which helps braking performance by distributing brake force among the four wheels based on how much load each wheel is bearing.

Every Accord comes standard with dual-stage, multiple-threshold front, dual-chamber front side and side curtain airbags to help reduce the likelihood of injuries in a collision.† The front passenger's side airbag uses the Occupant Position Detection System (OPDS) to prevent deployment if a child or small-statured passenger is out of position and in the airbag's path of deployment.

Airbags inflated for display purposes.

*VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.

To help reduce the likelihood of whiplash injuries in a rear-end impact, the front seats have active head restraints. They move up and forward in a rear collision to help keep head movement to a minimum.

Airbags inflated for display purposes.

All five passengers benefit from 3-point seat belts. The front belts are equipped with an automatic tensioning system that tightens in the event of a moderate-to-severe frontal impact. Outboard rear seats have the LATCH (Lower Anchors and Tethers for CHILDren) child-restraint system.

†Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

Your dealer's team of trained technicians is at the ready to help keep your Honda in superb shape. All 2011 Honda vehicles—and any Honda Genuine Accessories installed at the time of vehicle purchase—are covered by the 3-year/36,000-mile New-Vehicle Limited Warranty.¹¹ Plus, Honda cars and trucks are covered by a 5-year/60,000-mile Limited Powertrain Warranty, too.¹¹ For more information or assistance, see your Honda dealer or please give us a call at 1-800-33-Honda.

Want your own look? Ask your dealer about Honda Genuine Accessories. They're designed, engineered and tested to meet the same exacting standards as your new vehicle—and a high-quality way to make your new Honda a reflection of your one-of-a-kind personality.

Whether you buy or lease a Honda vehicle, Honda Financial Services can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

Honda Care® is an affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. Please see your Honda dealer for details.
