This specification sheet is intended for general descriptive and informational purposes only. It is subject to change and does not constitute an offer, representation or warranty (express or implied) by Nissan North America, Inc. Interested parties should confirm the accuracy of any information in this brochure as it relates to a vehicle directly with Infiniti before relying on it to make a purchase decision. Nissan North America, Inc. reserves the right to make changes, at any time, without prior notice, in prices, colors, materials, equipment, specifications, and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, actual vehicle, materials and specifications may vary from this brochure. Some vehicles shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options and accessories may differ in Hawaii, U.S. territories and other countries. For additional information on availability, options or accessories, see your Infiniti retailer or contact Nissan North America, Inc.

<sup>1</sup> The Advanced Climate Control System with Plasmacluster air purifier helps scrub the air in the vehicle's interior. The system senses exterior odors, suppresses unpleasant interior odors, stops the inflow of external odors and helps keep the cabin smelling fresh, but does not always eliminate odors. <sup>2</sup> Always give your full attention to driving. Avoid operating your iPod<sup>®</sup> in such a way that you can be distracted during vehicle operation. See Retailer for details. iPod is a registered trademark of Apple, Inc. All rights reserved. iPod<sup>®</sup> not included. <sup>3</sup> Required XM Radio, XM NavTraffic and XM NavWeather subscriptions sold separately. Installation costs, one-time activation fee, other fees and taxes will apply. XM NavTraffic available in select markets. XM Radio U.S. service and XM NavWeather service available only to those at least 18 years of age in the 48 contiguous United States and D.C. Fees and programming subject to change. Subscriptions governed by XM Customer Agreement available at xmradio.com. ©2011 SIRIUS XM Radio Inc. SIRIUS, XM and all related marks and logos are trademarks of SIRIUS XM Radio Inc. and its subsidiaries. <sup>4</sup> Availability of specific features is dependent upon the phone's Bluetooth<sup>®</sup> support. Please refer to your phone owner's manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Infiniti is under license. <sup>5</sup> Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. <sup>6</sup> Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. <sup>7</sup> The Front and Rear Sonar System is a convenience, but not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object in front of or behind you. <sup>8</sup> Distance Control Assist helps maintain a distance to the vehicle in front under certain conditions. Not a collision avoidance system. Failure to apply the brakes could result in an accident. <sup>9</sup> Intelligent Cruise Control (Full-Speed Range) is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. <sup>10</sup> The Lane Departure Warning/Lane Departure Prevention systems operate above approximately 45 mph and only when the lane markings are clearly visible on the road. Will not prevent loss of control. Refer to your owner's manual for more information. <sup>11</sup> IBA is not a collision avoidance system. It may not provide warning or braking in certain conditions. Never rely solely on IBA. <sup>12</sup> FCW cannot prevent accidents due to carelessness or dangerous driving techniques. Always drive safely. <sup>13</sup> The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you. <sup>14</sup> 2012 EPA Fuel Economy Estimates. Actual mileage may vary with driving conditions. Use for comparison only. <sup>15</sup> Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your owner's manual for more details. <sup>16</sup> VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. <sup>17</sup> Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.

# Safety

**Infiniti Safety Shield®** is our comprehensive approach to safety. It includes rigorous crash testing, over 50 standard safety features on every vehicle and available advanced safety technologies. Infiniti Safety Shield® is designed and developed into every vehicle we build to help protect you and your passengers.

**Infiniti Advanced Air Bag System (AABS)<sup>15</sup>** Includes dual-stage front supplemental air bags with seat belt sensors and an occupant-classification sensor which adjust their inflation rate depending on crash severity and seat belt usage. If the front-passenger's seat is empty, a sensor will deactivate the air bag.

**Seat-mounted and Roof-mounted Side-impact Supplemental Air Bags<sup>15</sup>** Side-impact supplemental air bags are placed in the front-seat side bolsters so they move with the seat to help maintain optimal positioning. Roof-mounted curtain supplemental air bags deploy from the headliner above the side windows, helping to give outboard occupants enhanced head protection in the case of a side impact.

**Electronic Brake force Distribution (EBD)** To help optimize braking performance for a variety of vehicle loads, EBD adjusts the amount of brake force applied to the rear wheels for improved braking performance, reduced front-end "dive" during braking and more even brake wear.

**Brake Assist (BA)** In emergency braking situations, many drivers don't brake hard enough, soon enough. Brake Assist monitors how you apply the brakes and, sensing emergency braking, applies maximum brake force for potentially shorter stops.

**4-wheel Anti-lock Braking System (ABS)** The Infiniti EX's 4-wheel, 4-channel ABS helps you maintain control by helping to prevent wheel lockup.

**Blind Spot Warning (BSW)<sup>13</sup>** This available feature helps alert the driver to a vehicle detected in the blind spot area.

**Forward Collision Warning (FCW)<sup>12</sup>** Using the EX's laser rangefinder, this available feature helps alert the driver of an imminent collision by providing a visual and an audible warning.

**Intelligent Brake Assist (IBA)<sup>11</sup>** This available active safety feature continuously monitors and analyzes closing speeds to a vehicle ahead or to a stationary obstacle. If the driver does not adequately respond to the Forward Collision Warning and a collision cannot be avoided, IBA will automatically engage the brakes to help reduce collision speed and impact, helping to mitigate the consequences of the accident.

**Lane Departure Warning (LDW) and Lane Departure Prevention (LDP)<sup>10</sup>** Optional LDW sounds an audible warning when you start to drift out of your lane and available LDP lightly applies the brakes to help ease you back between the lines.

**Traction Control System (TCS)** To help enhance rear-wheel grip when accelerating, the Infiniti EX's Traction Control System senses wheelspin and automatically reduces engine output and/or brakes the spinning wheel to help improve traction.

**Vehicle Dynamic Control (VDC)<sup>16</sup>** Acting in tandem with the Traction Control System, VDC compares actual vehicle cornering performance to the driver's input, adjusting power levels and applying appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path.

**snug-kids™ Snug Kids®** The first venture of its kind, Snug Kids is our online guide to selecting and correctly installing a child restraint seat for your Infiniti automobile. Our safety engineers evaluated numerous child restraint seats, installing them in every Infiniti car and SUV. Visit [InfinitiUSA.com/snugkids](http://InfinitiUSA.com/snugkids) to view or download the results.

## Additional Safety Features:

- 3-point height-adjustable front seat belts with pretensioners and load limiters, driver's seat Emergency Locking Retractor (ELR) and passenger's seat ELR and Automatic Locking Retractor (ALR)
- Second-row 3-point seat belts with ELR and ALR
- Front-seat Active Head Restraints (AHR)
- Slide-away brake pedal assembly
- Zone Body construction with reinforced passenger compartment and front and rear crumple zones
- Tire Pressure Monitoring System (TPMS)<sup>17</sup>
- LED taillights. Lighting faster than conventional taillights, they help give drivers behind you a quicker indication of your braking
- LATCH System (Lower Anchors and Tethers for Children) helps simplify proper installation of compatible child restraint seats
