SAFETY

Infiniti Advanced Air Bag System (AABS) includes dual-stage front supplemental air bags with seat belt sensors and an occupant-classification sensor which adjust their inflation rate depending on crash severity and seat belt usage. If the front-passenger's seat is empty, a sensor will deactivate the air bag[8]	•	•
Driver and front-passenger seat-mounted side-impact supplemental air bags[8]	•	•
Roof-mounted curtain side-impact supplemental air bags with rollover sensor for first- second- and third-row outboard occupant head protection[3]	•	•
3-point height-adjustable front seat belts with pretensioners and load limiters, driver's seat Emergency Locking Retractor (ELR) and passenger's seat ELR and Automatic Locking Retractor (ALR)	•	•
Rear 3-point seat belts with ELR and ALR	•	•
Zone Body construction with reinforced passenger compartment and front and rear crumple zones	•	•
LATCH System (Lower Anchors and Tethers for Children) helps simplify proper installation of compatible child restraint seats. (Second-row outboard only)	•	•
Child seat top tether on second-row center seat and third-row passenger's side seat	•	•
Snug Kids®. The first venture of its kind, Snug Kids® is our online guide to selecting and correctly installing a child restraint seat for your Infiniti automobile. Our safety engineers evaluated numerous child restraint seats, installing them in every Infiniti car and SUV. Visit InfinitiUSA.com/snugkids to view or download the results	•	•
Electronic Brake force Distribution (EBD)	•	•
Brake Assist (BA)	•	•
4-wheel Anti-lock Braking System (ABS)	•	•
Blind Spot Warning (BSW) helps alert the driver to a vehicle detected in the blind spot area[9]	○	○
Forward Collision Warning (FCW). Using the JX's laser rangefinder, this available feature helps alert the driver of an imminent collision by providing a visual and an audible warning.[10]	○	○
Intelligent Brake Assist (IBA). This available active safety feature continuously monitors and analyzes closing speeds to a vehicle ahead or to a stationary obstacle. If the driver does not adequately respond to the Forward Collision Warning and a collision cannot be avoided, IBA will automatically engage the brakes to help reduce collision speed and impact, thus mitigating the consequences of the accident.[11]	○	○
Lane Departure Warning (LDW) and Lane Departure Prevention (LDP) Systems. LDW sounds an audible warning when you start to drift out of your lane and LDP lightly applies the brakes to help ease you back between the lines.[12]	○	○
Traction Control System (TCS)	•	•
Vehicle Dynamic Control (VDC)[13]	•	•
Slide-away brake pedal assembly	•	•
LED taillights. Lighting faster than conventional taillights, they help give drivers behind you a quicker indication of your braking.	•	•
Tire Pressure Monitoring System (TPMS) with individual tire pressure display and Tire Inflation Indicator provides specific information for each tire and low pressure warning[14]	•	•
SECURITY		
Remote keyless entry system with selective unlocking of driver's door or all doors		
Remote power-opening of windows; closing via exterior door lock	•	•
Infiniti Vehicle Immobilizer System embeds an encoded transponder chip into the ignition key. The engine control computer will not allow the engine to start without the correct key and transponder.	•	•
Vehicle Security System	•	•
HomeLink® Universal Transceiver offers control for compatible garage doors and home security systems	○	○
Auto Hazard Warning Signal	•	•

Installation costs, one-time activation fee, other fees and taxes will apply. XM NavTraffic available in select markets. XM Radio U.S. service and XM NavWeather service available only to those at least 18 years of age in the 48 contiguous United States and D.C. Fees and programming subject to change. Subscriptions governed by XM Customer Agreement available at xmradio.com. ©2012 SIRIUS XM Radio Inc. SIRIUS, XM and all related marks and logos are trademarks of SIRIUS XM Radio Inc. and its subsidiaries. [5] Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. [6] Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. [7] The Front and Rear Sonar System is a convenience, but not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object in front of or behind you. [8] Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your owner's manual for more details. [9] The Blind Spot Warning/Blind Spot Intervention™ Systems are not substitutes for proper lane change procedures. The systems will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you. [10] FCW cannot prevent accidents due to carelessness or dangerous driving techniques. Always drive safely. [11] IBA is not a collision avoidance system. It may not provide warning or braking in certain conditions. Never rely solely on IBA. [12] The Lane Departure Warning/Lane Departure Prevention systems operate above approximately 45 mph and only when the lane markings are clearly visible on the road. Will not prevent loss of control. Refer to your owner's manual for more information. [13] VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. [14] Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. [15] May require additional options or option packages. [16] Intelligent Cruise Control (Full-Speed Range) is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. [17] Distance Control Assist helps maintain a distance to the vehicle in front under certain conditions. Not a collision avoidance system. Failure to apply the brakes could result in an accident. [18] The Advanced Climate Control System with Plasmacluster air purifier helps scrub the air in the vehicle's interior. The system senses exterior odors, suppresses unpleasant interior odors, stops the inflow of external odors and helps keep the cabin smelling fresh, but does not always eliminate odors. [19] Some accessories may require installation, which is not included in the Manufacturer's Suggested Retail Price (MSRP). Retailer sets actual price. [20] When towing at or near Maximum Trailer Weight, the allowable vehicle cargo and/or number of passengers is reduced because it is necessary to stay below the Gross Combined Weight Rating and the Gross Axle Weight Rating. If the vehicle has cargo and passengers, the allowable Maximum Trailer Weight is reduced. See your Infiniti Towing Guide and owner's manual for proper use. [21] BCI will not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.
