

# 2014 CC Quick-Start Guide

**Das Auto.**

**At Volkswagen,** we want to be sure you get the most out of your time behind the wheel, so we've created this guide to take you through the finer points. And if you still have questions, just turn to the back of this guide and see how easy it can be to contact us. You'll see how fun and easy it is to drive a VW, and soon you'll be speaking fluent Volkswagen.

### On-demand videos

When you see this symbol, you can discover more with your smart phone by texting the letter keys to the code provided. A video tutorial will be sent to further explain the topic.

Text\* **KYVW5** to **38981** to watch the **Introduction to knowingyourvw.com** video. Standard text and data rates apply.

\*Do not text while driving.

The information within this guide must be used in conjunction with the information in the Volkswagen Owner's Manuals. Refer to your vehicle's Owner's Manual for all information and warnings. By using this guide, you acknowledge that you are aware of and have read the warnings and information provided in the Owner's Manual on the topics in this guide and will use this information to augment that material.

## Table of Contents

Bluetooth® Technology	1
RNS 315 Audio and Navigation	5
RNS 510 Audio and Navigation	7
iPod® Adapter	9
Climatronic® Heating and Cooling	11
Cruise Control	13
DSG® Transmission	14
Key Fob Programming	15
Setting the Clock	16
Windshield Wipers	17
Tire Pressure Monitoring System (TPMS)	18
Volkswagen Car-Net™	19
Volkswagen DoubleCheck	21

## Pairing your phone

First, check your phone's compatibility at [www.vw.com/bluetooth](http://www.vw.com/bluetooth).

Start the ignition. Your vehicle's Bluetooth® system will be in "discovery" mode for the next three minutes.

From the Bluetooth® menu on your phone, search for new devices and select VW PHONE.

A connection request will appear on the multifunction display.

Press OK on the steering wheel.

The multifunction display will then show a PIN.\*\*

Make sure the same PIN is displayed on your phone and press OK on the steering wheel. Then press PAIR on your phone.†

## Reconnect Automatically

If your phone displays a prompt asking to connect to VW PHONE, make sure to enable future automatic connections.

 Text\* **PAIR5 to 38981** to watch the Bluetooth® Pairing video. Standard text and data rates apply.

\*Do not text while driving.

\*\*Some phones may require entering a four-digit PIN (0000) to complete the pairing process. †Once the PIN is shown, pairing must be completed within 30 seconds; otherwise the process will need to be repeated.

## Bluetooth® Voice Recognition

### Call by name

Press the microphone button on the multifunction steering wheel. After the chime, your vehicle's Bluetooth® system will say, "Main menu".

After the chime say, "Call", followed by the name of the person you want to call. For example, "Call Mike Brown".

The system will answer, "Calling Mike Brown".

\*Do not text while driving.

 Text\* **VOICES to 38981** to watch the Voice Recognition video. Standard text and data rates apply.

## Voice recognition tips

- The name must be said exactly as it is stored in the directory. If the name is not recognized, ensure you are saying it as it is stored in the directory.
- If multiple numbers are stored per name, you may use the shortcut "Call Mike Brown at work", or the system may ask you to choose (e.g. work, mobile, home).
- If at any time during Voice Recognition you wish to cancel a request, simply press the microphone button on the multifunction steering wheel.

LEARN MORE AT  
[knowingyourvw.com](http://knowingyourvw.com)

Important Safety Instructions and Warnings which you must read, are listed on the last panel under BLUETOOTH® TECHNOLOGY.

## Dial by number

Press the microphone button on the multifunction steering wheel.

After the chime, your vehicle's Bluetooth® system will say, "Main menu".

Say, "Dial number".

The system will respond, "Number please".

After the chime, say the number. (Speak the number in single digits 1-2-3.)

The system will repeat the number, and then say, "Continue".

After the chime say, "Dial".

## Dial by number tips

- If the system repeats the number incorrectly, say, "Correct" and repeat the number.
- You do not have to include a "1" before the area code.

## Redial

Press the microphone button on the multifunction steering wheel.

After the chime, your vehicle's Bluetooth® system will say, "Main menu".

Say, "Redial".

The system will respond, "Redial, Dialing".

## Help

1. Press the microphone button on the multifunction steering wheel.
2. After the chime, your vehicle's Bluetooth® system will say, "Main menu".
3. Say, "Help", then follow the prompts.
4. You can say, "Help" after any prompt for the system to give you available options. This will take you to further options (e.g. read phone book, call history, or settings).
5. To end prompts, press the microphone button again.

## Answer an incoming call

The Bluetooth® system will interrupt your vehicle's stereo with a ringtone. Press the phone button on the multifunction steering wheel to answer the call.

## Switch to privacy mode

To switch a call to a connected mobile phone to prevent passengers from overhearing the conversation, press and hold the phone button on the multifunction steering wheel.

## End a call

Briefly press the phone button on the multifunction steering wheel.

## Enter a destination

Press the NAV hard key.

Tap the flag icon on the touchscreen. This will allow you to enter the address.

Enter the state first, then the city, the street, and the number.

Not sure about the number of the address? You can just enter the state, the city, and the street, then press the List soft key to display the street.

Confirm the address. If the address is incorrect, press the back button to return to the address entry screen.

Press the START soft key to begin your route.

Text\* **RNS315C** to **38981** to watch the RNS 315 Navigation video. Standard text and data rates apply.

## Change the route settings

The system will automatically display the fastest route. You can also have the most economical or shortest route displayed.

Within the Navigation screen, press the SETUP hard key.

Choose ROUTE OPTIONS.

Choose ROUTE CRITERIA.

Now you can change from the Fast default to Economic or Short.

**Important Safety Instructions and Warnings** which you must read, are listed on the last panel under NAVIGATION & INFOTAINMENT.

\*Do not text while driving.

## Streaming audio with Bluetooth® technology

First, pair your compatible Bluetooth® equipped phone or audio player. (Refer to the Bluetooth® pairing instructions on page 1.)

Press the MEDIA hard key. Audio will start to play from your phone.

If other media are connected, such as an SD card, CDs or an iPod®, press the  soft key on the menu.

To select the next or previous track, press the arrow hard keys on the left side of the steering wheel.

NOTE: RNS 315 Audio and Navigation is available on certain trim lines.

## Set your presets for AM/FM/SiriusXM®

1. Press the BAND hard key repeatedly to toggle between FM, AM or SiriusXM®.
2. Turn the center knob to your desired station, then press and hold the knob.
3. The preset soft keys will appear.
4. Press a preset soft key until you hear the confirmation tone.
5. To save another preset, turn the center knob again to choose a station, and repeat the steps.

**SiriusXM® Satellite Radio.** New Volkswagen vehicles come with a three-month trial subscription to the Sirius Select package. Infrequently, tall buildings and tunnels may interrupt the satellite signal; this is normal. The signal will refresh as you drive. For more information, please refer to the SiriusXM® brochure in your glove box.

Text\* **RNS510C** to **38981** to watch the RNS 510 Navigation video. Standard text and data rates apply.

## Enter a destination

Press the NAV hard key.

Now press the Dest. soft key.

Tap the Address soft key. Now enter the information, beginning with the state, then enter the city, the street, and the number.

Not sure about the number of the address? You can just enter the state, the city, and the street.

Confirm the address. If the address is incorrect, press the back button to return to the address entry screen.

Press the START soft key to begin your route.

Important Safety Instructions and Warnings which you must read, are listed on the last panel under NAVIGATION & INFOTAINMENT.

\*Do not text while driving.

## Streaming audio with Bluetooth® technology

First, pair your compatible Bluetooth® equipped phone or audio player. (Refer to the Bluetooth® pairing instructions on page 1.)

Press the MEDIA hard key.

Press the soft key with the icon.

Music may start streaming automatically, or you may have to press PLAY, depending on your device.

To navigate through your music, press the PLAY/PAUSE, PREVIOUS, and NEXT TRACK soft keys. You can also use the arrow keys on the multifunction steering wheel.

NOTE: RNS 510 Audio and Navigation is available on certain trim lines.

## Set your presets

1. Press the BAND hard key repeatedly to toggle from FM, AM or SAT.
2. Press the Presets soft key to choose the preset group of your choice.
3. Turn the tuner knob on the right to select a station to preset.
4. Press and hold a preset soft key until you hear the confirmation tone.

**HD Radio™ Programming.** HD Radio™ is totally free programming, offering crystal clear sound—FM stations have CD-quality sound, while AM stations sound like FM stereo. HD Radio™ also offers more variety, as many FM stations broadcast extra HD multicast channels.

**HD Radio™ Signal Interruption.** When leaving the HD coverage area, HD1 channels will switch to the analog signal, while HD2/HD3 channels will cut off completely, without gradual fading; this is normal. The signal will refresh as you drive.

**SiriusXM® Satellite Radio.** New Volkswagen vehicles come with a three-month trial subscription to the Sirius Select package. Infrequently, tall buildings and tunnels may interrupt the satellite signal; this is normal. The signal will refresh as you drive. For more information, please refer to the SiriusXM® brochure in your glove box.

## To connect your device, here's all you need to do

### RNS 510

First, note that your iPod® music player must be Generation Four or newer.

Connect it to your vehicle's MDI cable.

Press the MEDIA hard key.

Press the MDI or MEDIA-IN soft key until the external audio device is shown in the display.

To choose a song, press the Selection soft key.

To display the category, press the key with the folder icon at the upper left of the screen.

To return to the main screen, press the Back soft key on the upper right corner of the screen.

### RNS 315

First, note that your iPod® music player must be Generation Four or newer.

Connect it to your vehicle's MDI cable.

Audio from your device will play through your speaker system.

To choose a song, press the LIST soft key, then the UP soft key.  
To display the category list, press the UP soft key again.

## Playing your media device with the auxiliary jack

First, plug in your media device to the auxiliary jack. Note that an auxiliary cable does not come standard.

### RNS 510

1. Press the SETUP hard key.
2. Press the MEDIA soft key.
3. Press the Enable AUX Input soft key.
4. Press the MEDIA hard key.

### RNS 315

1. To toggle between different media, such as a CD or streaming audio from your phone, press the MEDIA hard key.
2. Then press the media specific soft key.

\*Do not text while driving.

## To cool or heat the interior

Turn the temperature dial to 72°F.

Press the AUTO button.

Like a thermostat, the system will maintain the temperature.

In extreme heat, press the MAX AC button.

When a comfortable temperature has been reached, push the AUTO button again.

Text\* **CLIMATE5** to **38981** to watch the Automatic Climate Control video. Standard text and data rates apply.

## Defrost the windshield

1. Press the MAX defrost button.
2. For optimal performance, the AC function will come on automatically to dry the air.
3. When the windshield is clear, push the AUTO button to return to your automatic climate control settings.

## Set and synchronize temperatures for driver and passenger

The driver turns the left dial until the desired temperature is shown above the dial.

The passenger can choose a different temperature by turning the right dial.

The passenger's temperature can be synchronized with the driver's temperature by pressing the SYNC button. When the light is on, SYNC is activated.

# Cruise Control

## Activate

Pull the cruise control stalk toward you. The speedometer icon will appear in the multifunction display.

## Set cruising speed

When you get to your cruising speed, press the SET button at the end of the stalk.

Your speed will appear next to the speedometer icon.

The green CRUISE light will appear in the instrument cluster.

To increase/decrease your speed to the nearest increment of 5, tap the stalk up or down.

Your most recently set speed will appear as a small icon in the multifunction display. It will remain in memory until you turn your VW off.

## Cancel and resume

1. To cancel and resume cruise speed, press the brake pedal or slightly push the stalk away from you.
2. The CRUISE light will go off.
3. To resume, pull the stalk towards you. You'll resume cruising at your saved speed.

Text\* **CRUISE5** to **38981** to watch the Cruise Control video. Standard text and data rates apply.

Important Safety Instructions and Warnings which you must read, are listed on the last panel under CRUISE CONTROL.

\*Do not text while driving.

# DSG® Transmission

The DSG® technology is a groundbreaking “two-in-one” concept. Totally unlike a conventional automatic transmission, it combines the fuel efficiency of a clutch-operated transmission with the convenience of automatic shifting. Twin electronically controlled shafts manage gear selection, always anticipating your next shift.

Text\* **DSG5** to **38981** to watch the DSG® Technology video. Standard text and data rates apply.

NOTE: DSG® Transmission is available on certain trim lines.

\*Do not text while driving.

LEARN MORE AT

[knowingyourvw.com](http://knowingyourvw.com)

# Key Fob Programming

## Customize which doors lock or unlock when you press the key fob

First, make sure your vehicle is parked.  
Your vehicle won't let you do this while you're driving.

Press the button with the menu icon, located on the steering wheel, until you see the "Settings" screen on the multifunction display.

Press the down arrow to scroll to "Convenience". Press OK.

Scroll down to "Central Locking". Press OK.

Select "Unlock doors" to adjust which doors lock or unlock when the key fob is pressed once. Press OK.

"All doors" unlocks all doors.

"Single door" unlocks only the driver's door.

"Vehicle side" unlocks the doors on the driver's side of the vehicle.

Press the up or down arrows to select an option.

Press OK to select your preference.

 Important Safety Instructions and Warnings which you must read, are listed on the last panel under KEY FOB.

# Setting the Clock

Text\* **CLOCKS** to **38981** to watch the Clock Setting video.  
Standard text and data rates apply.

Turn the ignition On.

Press the Menu/Clock button to highlight the hour in the instrument cluster display.

To advance the hour, push the **0.0 / SET**. Press and hold the button to fast forward through the hours.

Press the Menu/Clock button again to highlight the minutes.

The minutes can be advanced, like the hours, by pressing the **0.0 / SET**. Press and hold the button to fast forward through the minutes.

Press the Menu/Clock button again to complete the procedure.

Driving on today's roads demands the full attention of the driver at all times. Driver distraction causes accidents, collisions, and serious personal injury. Never use the buttons in the instrument cluster while driving.

\*Do not text while driving.

LEARN MORE AT  
[knowingyourvw.com](http://knowingyourvw.com)

# Windshield Wipers

## Continuous

LOW: From the OFF position, move the wiper stalk two clicks up.

HIGH: From the OFF position, move the wiper stalk three clicks up.

## Pulsing/quick wipes

From the OFF position, press the wiper stalk down for a single wipe.

Press and hold the wiper stalk down for two seconds for a faster wipe.

## Wash

Pull the stalk toward you to spray washer fluid.

## Use the rain-sensing wipers

From the OFF position, move the wiper stalk one click up to activate the rain-sensing wipers. The rain sensor automatically turns on the wipers when it begins to rain, adjusting the wiper frequency in line with rainfall intensity.

The rain sensor's sensitivity can be adjusted manually. Adjusting the sensitivity of the rain sensor:  
Move switch to the right – high sensitivity.  
Move switch to the left – low sensitivity.

NOTE: Be sure to turn off the rain-sensing wipers before going through a car wash.

 Important Safety Instructions and Warnings which you must read, are listed on the last panel under WINDSHIELD WIPERS.

# Tire Pressure Monitoring System (TPMS)

Correct tire pressure ▶

## Seeing the TPMS light? Here's what to do.

The correct tire pressure is displayed on the sticker on the driver's door jamb. Inflate your tires to those specifications, not to the number on your tires.

If you see the TPMS light on your instrument panel or the message "Tire pressure too low" in the multifunction display, use the right menu button on your steering wheel to show Vehicle Status on the display. This will show the current and recommended tire pressure.

Inflate the low tire(s) to the correct pressure as soon as possible.

Cooler temperatures may cause a warning to appear and then disappear as the tires warm up. This is a good reminder to check and adjust the tires to the proper inflation pressure.

LEARN MORE AT  
[knowingyourvw.com](http://knowingyourvw.com)

 Important Safety Instructions and Warnings which you must read, are listed on the last panel under TIRE PRESSURE MONITORING SYSTEM (TPMS).

Text\* **CARNETS** to **38981** to watch the **VW Car-Net™ Features & Functions** video. Standard text and data rates apply.

## Automatic Crash Notification

In the event of an accident, if your airbags\*\* are deployed, you will automatically be put in contact with a VW Car-Net™ Customer Specialist who is automatically notified of your vehicle's location. A VW Car-Net™ Customer Specialist contacts your vehicle immediately to determine your needs and calls for help if necessary. If there is no response from your vehicle's occupants, the specialist will get help to you immediately.

\*Do not text while driving.

\*\*Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Automatic Crash Notification may be enabled for up to six months without activating a trial or paid subscription; Manual Emergency Call feature and all other VW Car-Net™ features require trial or paid subscription.

## Manual Emergency Call

In other emergency situations, whether it's a medical issue or a different unsafe situation, assistance is only a push of the **"SOS" Button** away. Your vehicle's location is transmitted to the Emergency Response Center automatically when the call is placed.

## Roadside Assistance

There's no quicker way to get assistance to a disabled vehicle than by simply pushing the VW Car-Net™ **Wrench Button** in your vehicle. Not only is the vehicle location transmitted to Volkswagen Roadside Assistance, but the vehicle's diagnostic information is sent to help ensure prompt and accurate assistance.

Roadside Assistance provided by Allstate®.

## Live Operator – Route Assistance

If your Volkswagen is equipped with a factory-installed navigation system, finding your way is as simple as entering an address or Point of Interest (POI) and following directions. But, if you prefer, you can have an operator send a destination directly to your vehicle's navigation system. Just push the **i Information Button** to connect with a VW Car-Net™ Customer Specialist and get headed in the right direction.

VW Car-Net™ services provided by Verizon Telematics, Inc. Available only on select models. Automatic Crash Notification may be enabled for up to six months without activating a trial or paid subscription; Manual Emergency Call feature and all other VW Car-Net™ features require trial or paid subscription. VW Car-Net™ services requires vehicle cellular connectivity and availability of vehicle GPS signal. VW Car-Net™ includes services that may collect location information. See applicable Terms of Service available at [www.vw.com/carnet](http://www.vw.com/carnet) for details.

LEARN MORE AT  
[knowingyourvw.com](http://knowingyourvw.com)

Important Safety Instructions and Warnings which you must read, are listed on the last panel under VOLKSWAGEN CAR-NET™.

## Got questions? We've got answers.

### Go to [knowingyourvw.com](http://knowingyourvw.com)

knowingyourvw.com is a dedicated website that provides "how-to" video tutorials for operating many of the features found on your Volkswagen. Video tutorials are able to be viewed from your desktop or on a mobile device.

### Call 1-800-444-8982

Contact the Volkswagen Loyalty Center, and a friendly Volkswagen representative will be happy to assist you.

### Owning a VW gets even better.

Call your dealer to make an appointment for your Volkswagen DoubleCheck, also known as your second vehicle delivery, within 30-days of ownership. At the appointment, we'll answer any questions you may have about your new Volkswagen, so you can get more out of your vehicle.

#### **Volkswagen Carefree Maintenance\***

As a Volkswagen driver, you can visit any VW dealer and receive routine maintenance like oil changes and vehicle inspections from certified techs that speak fluent Volkswagen.

#### Volkswagen DoubleCheck Appointment:

Month | Day | Year | Time

**2 Years or 24,000 Miles of No-Charge Scheduled Maintenance.**  
Whichever occurs first. 2014 models. Some restrictions. See dealer or program for details.

LEARN MORE AT  
[knowingyourvw.com](http://knowingyourvw.com)

\*The Volkswagen Carefree Maintenance Program covers the vehicle's scheduled maintenance for two years or 24,000 miles, whichever occurs first, only on 2014 models. This program does not apply to 2009-2013 models. Some restrictions apply. See dealer or vehicle maintenance program booklet for details.

## Important Safety Instructions and Warnings

### BLUETOOTH® TECHNOLOGY

- Accidents and injuries can occur if the driver is distracted. Speaking on or using a phone while driving can distract the driver from traffic.
- Select the volume settings so that the acoustic signals from the outside are still audible (e.g. the sirens of emergency rescue vehicles). Obey all applicable legal requirements.
- In areas without mobile network coverage or with poor mobile network coverage, as well as in some tunnels, garages and subways, phone conversations may be interrupted, and it may be impossible to make phone calls – even emergency calls.
- In some countries and/or certain mobile networks, emergency calls may only be supported when the mobile phone is connected to a mobile phone package which has a SIM card which is “blocked” and/or has sufficient calling credit on it, and adequate network coverage.
- A mobile phone on the seat, instrument panel or in other places can be thrown around the inside of the vehicle during a sudden braking maneuver, crash or other accident and cause injury to vehicle occupants.
- Never place or mount a mobile phone on doors, the windshield, on or near the area on the steering wheel marked “AIRBAG”, the instrument panel, the seat backrests or the areas between these points and the driver/passengers. Mobile phones can lead to serious injuries in cases of accidents, especially when the airbags are inflated.
- Always switch off your mobile phone at gas stations or wherever there is a fire or explosion hazard. The electromagnetic radiation can cause sparks that can ignite fuel vapors and cause a fire.
- The mobile phone will automatically connect to the mobile network when the Bluetooth® connection to the mobile phone package is disconnected.
- Using a radio device in the vehicle without a connection to an external antenna might exceed electromagnetic radiation thresholds. This also applies if the outside antenna is not installed properly.
- Always keep the cell phone antenna at least 8 inches (20 cm) away from

- Setting the volume too high can damage the hearing. This applies especially to volumes above about 85 decibels.
- Select volume settings so that acoustic signals from the outside are always audible (e.g. the sirens of emergency rescue vehicles).
- Please lower the volume before changing or connecting to an audio source.
- Unmounted or improperly mounted external devices can be thrown through the passenger compartment in the event of a sudden driving or braking maneuver or an accident, causing injury.
  - Never leave external devices in the doors, on the front windshield, on or near the area marked “AIRBAG” on the steering wheel, instrument panel, seat backs, or between these areas and the occupants. External devices can cause serious injury in the event of an accident, especially if the airbags inflate.
  - Connecting cables of external devices may obstruct the driver. Route cables so as not to interfere with the driver.
  - The armrest can affect the elbow room of the driver and thus cause accidents and severe injuries. Always keep the armrest closed while driving.

### KEY FOB

- Improper use of vehicle keys can result in serious personal injury.
- Always take the key with you when you leave the vehicle. It can be used to start the engine and operate vehicle systems such as the power windows, leading to serious personal injury. Children or other unauthorized persons could also lock the doors and the luggage compartment.
- Never leave children, disabled persons, or anyone who cannot help themselves in the vehicle. The doors can be locked with the remote control vehicle key. This could leave people trapped in the vehicle in an emergency. Depending on the time of year, people trapped in the vehicle can be exposed to very high or very low temperatures.
- A closed vehicle can become very hot or very cold, depending on the season. Particularly in the summer, heat build-up in the passenger and luggage compartment of a parked vehicle can result in temperatures in the vehicle that are much higher than the outside temperatures. Temperatures can quickly reach levels that can cause unconsciousness and death, particularly to small children.
- Never remove the key from the ignition switch while the vehicle is moving or

pacemakers. Heart specialists advise that cell phones can adversely affect the way pacemakers work.

- Never carry a mobile phone that is switched on in the breast pocket directly over the pacemaker.
- If you suspect there may be interference with a pacemaker or other medical device, switch the mobile phone off immediately.
- The center armrest can interfere with the driver’s elbow movement and thus cause accidents and severe injuries.
- Always keep the armrest closed while driving.

### CLIMATRONIC® SYSTEM

- Poor visibility increases the risk of collisions and other accidents that cause serious personal injuries.
- Always make sure all windows are clear of ice, snow, and condensation for good visibility to the front, sides, and rear.
- Maximum heating output and fast defrosting will only be possible after the engine has reached operating temperature. Wait until you have good visibility before driving off.
- Always make sure you know how to properly use the heating and ventilation systems as well as the rear window defogger that you will need for good visibility.
- Never use air recirculation for long periods of time. When the air conditioner is off and recirculation mode is on, condensation can quickly form on the windows and greatly reduce visibility.
- Always switch off recirculation mode when it is not needed. Stale air causes driver fatigue and reduces driver alertness, which can cause accidents, collisions, and serious personal injury.
- Never switch off the fan for a long period of time and never use air recirculation for a long period of time because no fresh air will come into the passenger compartment.

### CRUISE CONTROL

- Using the cruise control when it is not possible to drive safely at a constant speed can be dangerous and can lead to an accident and serious personal injuries.

rolling to a stop. The steering wheel will lock and you will not be able to steer or control the vehicle.

### NAVIGATION & INFOTAINMENT

- Driving recommendations and traffic signs displayed in the navigation system may differ from the actual traffic situation.
- Traffic signs and regulations take precedence over navigation driving recommendations and displays.
- Always adjust your speed and driving style to road, traffic, weather, and visibility conditions.
- Inserting data media while driving can distract the driver from traffic and lead to accidents.
- Always drive attentively and responsibly.

### RNS 315 AUDIO

- Driver distraction can cause accidents and serious personal injury. Operating the radio navigation system while driving can distract the driver from traffic situations.
- Always drive attentively and responsibly.
- Select volume settings so that acoustic signals from the outside are audible (e.g. the sirens of emergency rescue vehicles).
- Setting the volume too high can damage hearing. This can also extend to short exposure of the ears to loud volumes.
- Sudden volume fluctuations may occur when the audio source is changed or connected.
- Lower the volume before changing or connecting to an audio source.
- Connecting cables of external devices may obstruct the driver.
- Route cables so as not to interfere with the driver.
- Unmounted or improperly mounted external devices can be thrown through the passenger compartment in the event of a sudden driving or braking maneuver or an accident, causing injury.
- Never leave external devices in the doors, on the front windshield, on or near the area marked “AIRBAG” on the steering wheel, instrument panel, and seat backs or between these areas and the occupants. External devices can cause serious injury

- Never use cruise control when driving in heavy or varying traffic or when you cannot keep a safe distance between you and the vehicles ahead of you.
- Never use cruise control on steep, winding, or slippery roads (such gravel roads, wet roads, or snowy or icy roads) or on roads with standing water.
- Never use cruise control when driving off road or on unpaved roads.
- Always adjust your speed and the distance you keep between you and the vehicles ahead of you to the road, traffic, weather, and visibility conditions.
- To help prevent unintended operation of cruise control, switch the system off when it is not being used.
- It is dangerous to use the Resume feature when the previously set speed is too high for the existing road, traffic, or weather conditions.
- When going downhill, the cruise control may not be able to maintain a constant speed. The vehicle will speed up because of its own weight. Downshift and/or use the foot brake to slow the vehicle.
- Failure to heed warning lights and instrument cluster text messages can cause the vehicle to break down in traffic and result in a collision and serious personal injury.
- Never ignore warning lights or text WARNINGS.
- Always stop the vehicle as soon as it is safe to do so.

### IPOD® ADAPTER

- Driver distraction, including the operation of external audio devices, can cause accidents and serious personal injury.
- Always focus your undivided attention on driving the vehicle.
- Never display video images in the display when the vehicle is moving.
- Use the radio navigation system only if road, traffic, and weather conditions permit and you will not be distracted from your driving.
- Always obey applicable laws regarding the use of displays when the vehicle is moving.
- Always adjust volume so that horns and warning sounds from outside the vehicle (e.g. police and fire truck sirens) can be clearly heard at any time.
- Observe legal regulations.
- Always drive attentively and responsibly.

in the event of an accident, especially if the airbags inflate.

- The center armrest can interfere with the driver’s elbow movement and thus cause accidents and severe injuries.
  - Always keep the armrest closed while driving.
  - Invisible laser beams can cause injuries if the housing of the CD player is opened.
- Have the CD player repaired only by a specialist.

### RNS 510 AUDIO

- Driver distraction can cause accidents and serious personal injury. Operating the radio navigation system while driving can distract the driver from traffic situations.
- Always drive attentively and responsibly.
- Select volume settings so that acoustic signals from the outside are audible (e.g. the sirens of emergency rescue vehicles).
- Setting the volume too high can damage hearing. This can also extend to short exposure of the ears to loud volumes.
- Sudden volume fluctuations may occur when the audio source is changed or connected.
- Lower the volume before changing or connecting to an audio source.
- Connecting cables of external devices may obstruct the driver.
- Route cables so as not to interfere with the driver.
- Unmounted or improperly mounted external devices can be thrown through the passenger compartment in the event of a sudden driving or braking maneuver or an accident, causing injury.
- Never leave external devices in the doors, on the front windshield, on or near the area marked “AIRBAG” on the steering wheel, instrument panel, and seat backs or between these areas and the occupants. External devices can cause serious injury in the event of an accident, especially if the airbags inflate.
- The center armrest can interfere with the driver’s elbow movement and thus cause accidents and severe injuries.
- Always keep the armrest closed while driving.
- Invisible laser beams can cause injuries if the housing of the CD player is opened.
- Have the CD player repaired only by a specialist.
