

COMPLETE PROTECTION

Protection from the unexpected

A BUNDLE OF PROTECTION FOR THE ROAD AHEAD

Complete Protection provides a bundle of benefits designed to take away much of the financial burden associated with tire and wheel repair/replacement, paintless dent repair, windshield repair and key replacement.

Over the past few years, combo products have become a staple in the F&I office, as dealers can find considerable cost savings when benefits are bundled. National Auto Care developed Complete Protection to be the most comprehensive combo product in the market today.

“Complete Protection rounded out my portfolio and has done wonders for my sales on leases.

National Auto Care Dealer
Massachusetts
