Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

DESIGN

EXTERIOR

With its three classic lines of a lower accent design, floating roofline and continuous waistline, the Range Rover is unmistakable. The iconic silhouette is gently tapered and curved, while the use of near-flush glass and Gloss Black pillars accentuates the roof enhancing its streamlined and elegant form.

The vehicle's fresh and contemporary appearance is complemented by carefully crafted design details that give Range Rover its distinctive character.

First to catch the eye is the very modern interpretation of the side vent design, which is executed on the surface of the front doors.

While lower down, design accents sweep around the body. Optional Adaptive Xenon headlights that swivel to follow the road during night-time driving* add to the vehicle's distinctive look.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Vehicle shown above and right is Autobiography in Indus Silver with optional features fitted.

INTERIOR

Refinement is at the heart of Range Rover.

Its interior gives a sense of calm, indulgent and luxurious comfort. It is beautifully appointed and thoughtfully designed. The broad center console and the new 10" 21:9 wide format Touchscreen* puts essential and intuitive controls within easy reach.

Clean surfaces and the use of soft supple leathers, wood veneers and highly polished interior trim help create contemporary, comfortable surroundings.

Delightful to the touch, the type of leather is determined by model choice. It enhances the interior, covering virtually every surface from the seats and instrument panel to the doors and headlining. Range Rover Autobiography, SVAutobiography Dynamic and SVAutobiography Long Wheelbase feature Semi-Aniline leather with high-grade hides selected for their exceptional suppleness and natural appearance.

The finish is naturally of the highest order.

Tailored twin-needle hand-stitching is used and every aspect is considered; from the length and direction of the stitching, to the spin, thickness and material of the thread. Even the size and shape of the needle is defined.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Interior shown right is HSE in Espresso/Ivory with Ivory seats and Figured Macassar veneer with optional features fitted.

UNCOMPROMISING ATTENTION TO DETAIL

The focus on impeccable craftsmanship is well illustrated by the authentic metal details, which are cool to the touch and stunning to look at, and provide a stylish contrast to the opulent leather and veneer surfaces.

Striking examples include the bold Brushed Aluminum pillars each side of the center console, the rotary shifter and the distinctive air vents with each blade highlighted with a keyline of Satin Chrome.

Typifying the attention to detail, the aluminum finish on the center console is created using a unique approach which involves the aluminum material passing through more than 20 distinct processes to provide an exquisitely crafted finish.

LONG WHEELBASE

EXTERIOR

Range Rover Long Wheelbase is instantly recognizable, superbly engineered and beautifully appointed. This body style has unique features such as a distinctive 'L' badge mounted behind each front wheel arch and Narvik Black mirror caps. And though the exterior length has been extended by 7.9", its silhouette retains its classic shape.

Vehicle shown left is Autobiography Long Wheelbase in Loire Blue with optional features fitted.

INTERIOR

The overall sense of unparalleled comfort is realized in Range Rover Long Wheelbase, providing an extra 7.3" of space in the rear seat and affording rear passengers an extended recline of 17 degrees.

The **Passenger Seat Away** feature can also slide the front passenger seat forward to provide greater levels of comfort and space.

This body style has an additional deep illuminated storage compartment in the center console for rear seat occupants and rear door map pockets, which are fitted to both bench and **Rear Executive Class** seats. For added convenience, the vehicle is equipped with powered side door blinds and a panoramic sunroof.

Interior shown above and right is Autobiography Long Wheelbase in Ebony/Cirrus with Cirrus seats and Grand Black veneer with optional features fitted.

SPECIAL VEHICLE OPERATIONS

Designed and engineered by Special Vehicle Operations (SVO) – the Land Rover center of excellence for bespoke commissions, luxury editions and performance models – the Range Rover SVAutobiography Dynamic and SVAutobiography Long Wheelbase models offer the pinnacle in performance and luxury.

SVAutobiography Dynamic has the power and agility to match its distinctive exterior. The lower stance hints at the performance contained within this special Range Rover. SVAutobiography Dynamic maximizes driver enjoyment of the road ahead while simultaneously delivering all the luxury you would expect from the performance Range Rover.

SVAutobiography Long Wheelbase is our most luxurious and alluring Range Rover ever. Exclusively available in Long Wheelbase, it offers unrivalled luxury, comfort and refinement – the ultimate Range Rover.

The craftsmanship and expertise of SVO are apparent in the celebrated design, precision engineering and unrivalled levels of refinement that have come together to create the SVAutobiography Dynamic and SVAutobiography Long Wheelbase.

Vehicle shown left is SVAutobiography Long Wheelbase with Duo Tone paint in Corris Grey and Santorini Black with optional features fitted.

THE DISTINCTIVE EXTERIOR OF RANGE ROVER **SV**AUTOBIOGRAPHY DYNAMIC IS TIMELESS. WITH A POWERFUL V8 ENGINE AT ITS HEART, IT HAS THE PERFORMANCE AND AGILITY TO MATCH ITS DYNAMIC APPEARANCE.

John Edwards.
Managing Director of Special Vehicle Operations.

SV AUTOBIOGRAPHY DYNAMIC

EXTERIOR

Designed for luxury performance, the flowing lines and contemporary design of SVAutobiography Dynamic will turn heads all over the world.

With a tuned chassis, steering, exhaust and suspension, the SVAutobiography Dynamic sits 0.3" lower than a standard Range Rover – its aggressive stance hinting at the power and performance contained within.

Unique Graphite Atlas accents, distinctive Red Brembo™ branded brake calipers and exclusive wheels add to the performance appeal of the vehicle.

The SVAutobiography Dynamic provides a new level of agility and performance for the driver to enjoy.

Brembo is a registered trademark of Freni Brembo S.p.A.

RANGE ROVER **SV**AUTOBIOGRAPHY LONG WHEELBASE EPITOMIZES SOPHISTICATED DESIGN. OUR MOST LUXURIOUS SPECIFICATION YET, THIS VEHICLE HAS BEEN CRAFTED WITH PRECISION AND CARE, CULMINATING IN EXQUISITE ATTENTION TO DETAIL.

John Edwards.
Managing Director of Special Vehicle Operations.

SV AUTOBIOGRAPHY LONG WHEELBASE

EXTERIOR

Craftsmanship never goes out of style and over 45 years of expertise in designing Range Rover is manifested in each SVAutobiography Long Wheelbase.

Every tailored aspect whispers elegance and attention to detail. Approaching the front, each vehicle is crafted with luxury design cues such as the unique front grille and 'Range Rover' front and rear script with a dark knurled effect finish edged in Bright Chrome.

The SVAutobiography Long Wheelbase retains a poised stance, even with the 7.9" extra length. Body-colored side vent panels are punctuated by Bright Chrome inserts, with Bright Chrome door handle surrounds and tailgate finisher. Unique 21" and 22" wheel choices complete the luxury design.

To reflect your personal taste, the option of exterior Duo Tone paint allows customers to specify the vehicle in one of 25 exterior colors* below the waistline, with a Santorini Black finish above the waistline to produce a prestigious appearance.

*Duo Tone paint available on SVAutobiography Long Wheelbase only. Please see page 101 for details. Vehicle shown right is SVAutobiography Long Wheelbase with Duo Tone paint in Corris Grey and Santorini Black with optional features fitted.

INTERIOR

The interior of SVAutobiography Long Wheelbase is the epitome of refined, sophisticated and indulgent living.

Attention to the details is in everything you see and touch. From the rear center console with bottle chiller compartment and power deployable tables, to the unique seat design with calf support, the vehicle exudes confidence and a calm, collected air.

A knurled finish to interior features such as Stop/Start button, rotary shifter, armrest adjusters and Satin Brushed cupholder, all add to the refined look. The key fob also has a knurled detailing and Autobiography script.

Optional features include: a veneer sliding loadspace floor to enhance this area of the vehicle and a Tailgate Event Seating system. This provides two comfortable luxury leather seats which mount in the tailgate when the vehicle is stationary for participating in outdoor events.

TESTING

Before any vehicle can carry the Land Rover badge, rigorous testing has been carried out to establish the highest levels of luxury, performance and capability.

SUSPENSION

You're unlikely to push any Land Rover harder than we have. To guarantee an unrivalled breadth of dynamic capability, both on and off-road, vehicles have been exposed to ten years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

In our climate chambers we can recreate some of the most challenging wind conditions Range Rover will face. Not just 112mph crosswinds, but high ambient temperatures and low airflow situations. Only by pushing all systems to their limits do we develop true excellence.

HOT AND COLD CLIMATE

In real world environments and our climate chambers, we freeze vehicles to -40°F and bake them to 120°F. Key functions and systems are then scrutinized to our exacting standards. So even in the most remote locations, comfort and peace of mind is never far away.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai's unforgiving desert sands, we ensure our legendary all-terrain performance is innate in our vehicles. Prototypes are developed across approximately 5,300 miles of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the 'neutral sound' of our semi-anechoic chamber we precisely expose the cabin to a range of frequencies and vibrations, making certain that Range Rover sounds refined at every speed and across every surface.

MONSOON

Using our monsoon simulator, we drench our vehicles with some 18,700 gallons of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights. Ensuring each vehicle can enter and exit a body of water and stay dry inside the cabin.

TERRAIN RESPONSE®

With an all-aluminum body and true Land Rover capability at its heart, the Range Rover delivers incredible off-road performance.

Our available Terrain Response® 2 system is designed to monitor driving conditions and automatically optimize driveability and traction by adapting the responses of the vehicle's engine, transmission, center differential and chassis systems to match the demands of the terrain*†.

Even when it is not in Auto Mode, Terrain Response® 2 provides the driver with additional input, such as advising when to select low range or the off-road ride height. There are five Terrain Response settings: General Driving, Grass/Gravel/Snow, Mud and Ruts, Sand, and Rock Crawl*.

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC) is an available technology designed to help drivers set and maintain a steady speed in challenging conditions*.

Operating like a cruise control system, it functions at very low speeds between 1mph and 18mph, helping the driver to maintain full concentration on steering and finding a path through obstacles.

Developed by the all-terrain specialists at Land Rover, the system works seamlessly alongside the Terrain Response® 2 and 4 Wheel Drive (4WD) traction and braking systems*.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings.

LOW TRACTION LAUNCH

Range Rover features an available launch functionality, which can assist the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like snow or wet grass.

ELECTRONIC SUSPENSION

A sure-footed, composed drive is completed by a four corner air suspension which provides exceptional wheel articulation and poise.

Capable of taking on tough situations, this system is designed to keep the Range Rover composed and stable even in rougher terrain. For optimum ride quality, it switches heights seamlessly when necessary.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details †Standard on Autobiography, Supercharged, SVAutobiography Dynamic, SVAutobiography Long Wheelbase. Features and their availability may differ by vehicle specification. Please see pages 74-93 for details, or contact your nearest Land Rover Retailer, for more information. Vehicle shown right is HSE in Indus Silver with optional features fitted.

HILL DESCENT CONTROL (HDC®)

To complement the Terrain Response® system*, Range Rover can also call upon a unique suite of all-terrain technologies to help increase performance, including Hill Descent Control (HDC®)*.

Hill Descent Control assists with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel*.

Hill Start Assist is designed to prevent the vehicle from rolling backwards as you pull away on an incline*.

The vehicle also utilizes **Gradient Release Control (GRC)** which is designed to prevent the vehicle 'running away' on a steep incline when the driver quickly releases the brake*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information. Vehicle shown right is Autobiography in Indus Silver with optional features fitted.

ADAPTIVE DYNAMICS

Adaptive Dynamics* makes the miles go by virtually unnoticed. The system monitors vehicle movements up to 500 times a second, reacting to driver or road inputs almost instantaneously to give greater control and minimize body movement ensuring a composed ride.

The system even senses off-road conditions, and optimizes damping accordingly so driver and passengers arrive at their destination refreshed and relaxed.

DYNAMIC RESPONSE

Dynamic Response** improves vehicle handling and occupant comfort by reducing the amount of body lean during cornering*.

Our two channel system is capable of controlling the front and rear axles independently, allowing it to be tuned to deliver increased low-speed agility, along with enhanced high-speed stability and greater steering precision*.

This feature also aids off-road capability. If the system detects off-road conditions, the control module reduces the level of roll compensation and actively manages the body roll rate, allowing improved passenger comfort and body composure at low speeds*.

- 1 UNADJUSTED LATERAL BODY LEAN
- 2 CORRECTED LATERAL BODY LEAN

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details **Only available on V8 Supercharged. COMMAND DRIVING POSITION

The Range Rover drive is confident and measured with the legendary Command Driving Position* placing the driver in an elevated, upright seating position. This offers a reassuring view of the vehicle and its surroundings. The sense of control offered by the elevated driving position is enhanced by the vehicle's outboard seating location with clear visibility to the side, and outstanding forward visibility over the characteristic profile of the hood.

FULL THIN FILM TRANSISTOR (TFT) INSTRUMENT PANEL

The 12.3" virtual instrument panel uses high-resolution display technology and color graphics for clear communication of the main vehicle functions and data, including full screen navigation. With elegant virtual dials resembling 3D Chrome it can be tailored to display only information that is relevant to the current driving situation.

TRAFFIC SIGN RECOGNITION WITH INTELLIGENT SPEED LIMITER

Traffic Sign Recognition keeps you fully informed by displaying particular traffic signs in the instrument cluster where they can easily be seen, and as part of Head-up Display when fitted. The system is capable of detecting speed limit signs and where it exists, navigation data is used to increase its effectiveness*.

When activated, Intelligent Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information. Image shown left is Autobiography Long Wheelbase in Santorini Black with optional features fitted.

HEAD-UP DISPLAY

Head-up Display is an option that presents key vehicle data such as speed, gear selection and navigation directions on the windshield, without distraction or the need for you to take your eyes off the road*.

The innovative laser system is more robust against issues such as 'washout' – the effect that the glare from sunlight has on competitive LED systems. The feature can be turned on and off dependent on driver preference.

BUILD YOUR OWN

DRIVING AIDS

Range Rover has a wealth of driving aids on hand to give you and your passengers even more assistance. Featuring the most innovative thinking, engineering and technologies, these features will help you manage more easily most traffic, highway, road and even night-time driving situations.

LANE KEEP ASSIST* AND DRIVER CONDITION MONITOR**†

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back. Driver Condition Monitor is designed to detect if you're starting to feel drowsy and gives you an early warning when you need to take a break.

ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST AND INTELLIGENT EMERGENCY BRAKING†

When you're cruising on the highway or travelling in slow-moving traffic, this system is designed to keep your vehicle a pre-set distance from the one in front should it slow or stop. When the vehicle speeds up again, so does the Range Rover. If a collision is unavoidable, Adaptive Cruise Control is designed to engage Intelligent Emergency Braking. This system is designed to help reduce the severity of the possible impact by automatically applying the brakes.

AUTONOMOUS EMERGENCY BRAKING†

Functioning at moderate speeds, if a potential collision is detected, this system displays a forward collision warning, giving you time to take action. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

BLIND SPOT MONITOR WITH REVERSE TRAFFIC DETECTION**†

Blind Spot Monitor is designed to alert you to vehicles in, or quickly approaching, your blind spot, through a small warning light in the corresponding door mirror. Reverse Traffic Detection warns you of hazards approaching from either side of your vehicle when backing up, through both audible and visual warnings so you know what's approaching from the side. Optional Blind Spot Assist with Reverse Traffic Detection is also available*.

*Available with Drive Pro Package **Available with Drive Package †These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Features and their availability may differ by vehicle specification and market. PARKING AIDS

Parking your vehicle in a busy town or city has never been a particularly simple and straightforward maneuver, which is why Range Rover features an array of aids to help you reverse and park, even when you're negotiating the tightest of spaces.

PARK ASSIST – PARALLEL PARK, PARKING EXIT AND PERPENDICULAR PARK†

Our Park Assist system makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed. Park Assist will also steer you out of a space, taking all of the stress out of parking. Graphical instructions and notifications guide you through the maneuvers.

SURROUND CAMERA SYSTEM†

Giving a 360° exterior view via the Touchscreen, this helps with various maneuvers from parking by a curb to getting in and out of tight spaces and intersections.

REAR VIEW CAMERA†

To make parking in tight spots simpler, lines to represent the vehicle's outer perimeter and predicted path are superimposed on the rearward image displayed on your Touchscreen.

Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information.

TOWING AIDS

With a towing capacity of up to 7716lbs* and by incorporating tailored technologies, Range Rover can handle the most demanding of tasks.

TOW HITCH ASSIST

Tow Hitch Assist** makes coupling a trailer to the vehicle much easier by helping you visualize the hitching process**; it displays the predicted path of the vehicle tow ball towards the trailer coupling on the Touchscreen.

TOW ASSIST

On the road, the Tow Assist feature helps with reversing by predicting the trailer's direction**. You can even choose your trailer's width for precise guidelines displayed on the Touchscreen. Standard with Surround Camera System.

ADVANCED TOW ASSIST

Advanced Tow Assist** allows you to control the direction of your trailer when reversing by using the rotary Terrain Response® 2 controller. This optional system will control the vehicle's steering to achieve the desired trailer trajectory. The Touchscreen will display the current and desired trailer trajectory**.

TRAILER STABILITY ASSIST

Trailer Stability Assist monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations**.

SURROUND CAMERA SYSTEM

For a complete, all-round view, the optional Surround Camera System** incorporating Intersection View helps to see everything clearly on the high-resolution full color Touchscreen. Using four digital cameras discreetly placed around the vehicle, the system provides an almost complete 360° view including a birds-eye overhead view. It is perfect for more complex driving assignments such as towing a sailboat or horse trailer.

Along with the ability to display several different views at the same time, this technology can also zoom and pan, ensuring objects and angles, normally below the line of sight, can be seen.

*6613lbs limit on SVAutobiography Dynamic and SVAutobiography Long Wheelbase V8 Supercharged.

**These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information.

9 WAYS TO GET YOUR LIFE CONNECTED

Find out how InControl can make your life easier*.

PLANNING ROUTES

Before setting off, use the **Route Planner App** or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen*.

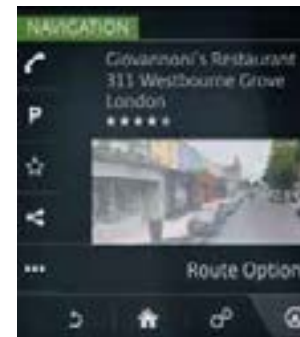

STAYING CONNECTED

Before you get into your vehicle, set your ideal cabin temperature with the **Remote Premium App** on smartphones and now the Apple Watch®. On the road, the in-car **Wi-Fi Hotspot** provides a stable Internet connection and lets you connect up to eight devices**.

STAYING FOCUSED

Our all-new InControl Touch Pro **Voice Recognition** system understands normal spoken instructions. So you can concentrate on the road ahead without distractions*.

FINDING PARKING

When you near your destination, **InControl Touch Pro Navigation** will suggest nearby parking from a database including space availability. With just one click, the parking is added and your route is updated. **Arrival Mode Parking** shows a 360° street level image to help you identify your destination.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control **The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription. Certain features require the fitment of InControl Connect Pro and a Micro SIM with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Apple Watch® is a registered trademark of Apple Inc., registered in the US and other countries. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps will need to be downloaded from the Apple/Android Store, please contact your nearest Land Rover Retailer for further information.

BUILD YOUR OWN

MOVING FASTER

InControl Touch Pro brings you more processing power, thanks to a quad core processor plus an integrated Ethernet network*.

Customizable homescreens let you arrange the screen, as you like, with up to four personalized homescreens and over 60 shortcuts.

INTELLIGENT ROUTING

Commute Mode allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest.

SHARING PROGRESS

Share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, **Share ETA** can then send automatic updates via text or email, without any further action from you*.

DOOR-TO-DOOR

Once you've parked, the **Route Planner App** will guide you to your destination – a true door-to-door experience which includes public transportation options. The **Remote Premium App** also lets you check your vehicle to make sure you've locked and secured all doors and windows.

HELP IS ALWAYS AT HAND

With **InControl Protect** the emergency services will be automatically notified if the airbags are deployed in an accident, or you can call them manually via an in-car button. You can also call a Land Rover Optimized Assistance operator should you need technical assistance.

MERIDIAN™ SOUND SYSTEMS

Meridian products offer the very best in British engineering and design. Just like Land Rover, it is an intuitive and personal experience. Meridian sound masters have employed years of psychoacoustic research to enable you to experience music in a new dimension.

MERIDIAN REFERENCE SOUND SYSTEM (1700W)*

The exceptional quality of the Meridian Reference Sound System brings a concert hall experience into the Range Rover.

Twenty-eight speakers and a dual channel subwoofer, on the 1700W system, ensure you hear everything from the thunderous rumble of bass, to the reedy whisper of a clarinet with a purity that you feel as well as hear.

Meridian Trifield™ 3D** technology provides greater control over the content of the surround and side channels, as well as additional signal feeds for height speakers, delivering a personal, realistic three-dimensional listening experience in every seat.

MERIDIAN SURROUND SOUND SYSTEM (825W)

This 825W system has 18 speakers and 16 channels, and a dual channel subwoofer, that are placed in ideal positions around the vehicle.

The system also incorporates Meridian Trifield** technology to create a concert-like experience for all occupants.

MERIDIAN SOUND SYSTEM (380W)

This 380W system has 12 speakers and 12 channels, and a dual channel subwoofer, for highly optimized sound quality.

*Only available on Autobiography and SVAutobiography

**Trifield and the "three fields" device is a trademark of Trifield Productions Ltd.

Meridian is a trademark of Meridian Audio Limited.

Features and their availability may differ by vehicle specification.

Please see page 91, or contact your nearest Land Rover Retailer, for more information.

COMFORT FOR ALL

SEAT COMFORT

The optional massage seats feature five programs and are available for driver and passenger. Both front and rear seats have the option of winged headrests and rear seat recline is standard on all vehicles.

Driver and Front Passenger Upper Seat Articulation is an optional feature that allows the driver and front passenger to adjust the upper part of their seats, providing an extra level of comfort and functionality. Other seat functionality options include adjustable bolsters, 4-way lumbar and climate seats.

PASSENGER SEAT AWAY

The rear passengers can control the movement of their own seat and the front passenger seat with the touch of a button. This allows for forward and backward movements of the front seat.

Enhanced Passenger Seat Away gives full control from the rear center console, including tilt, and is only available on Rear Executive Class seats.

REAR EXECUTIVE CLASS SEATS

For pure indulgence and refinement in an SUV, nothing comes close.

With the SVAutobiography Long Wheelbase* and Autobiography models you can choose Rear Executive Class seating. The ultimate in comfort, these two individual seats feature memory, powered headrest, rear center console armrest, cushion adjustments, massage seats and power recline.

The individual seats are separated by an elegant console that houses the rear seat controls and an optional cooler compartment.

*Standard on SVAutobiography Long Wheelbase.

Interior shown left is Autobiography in Espresso/Ivory with Ivory seats and Figured Macassar veneer with optional features fitted.

CLIMATE CONTROL

To ensure that the interior is maintained at the perfect temperature, whatever the weather outside, Range Rover features a Climate Control system which features the latest technology. The result of an incredibly rigorous development program, the system has been tested in real-world conditions in temperatures ranging from -40 to 120°F.

Two versions are available: a three-zone system, featuring separate temperature controls for driver, front passenger and rear seats, or the premium four-zone system, which has separate climate controls for driver, front passenger and each side of the rear cabin.

With its independent heating and cooling capability, the four-zone system offers a level of comfort in rear seat luxury, with multiple outlets at face, foot and hip level.

CONFIGURABLE INTERIOR MOOD LIGHTING

Passengers can change the interior lighting to suit their tastes. There is a palette of ten colors to choose from and simply operated variable brightness controls can help create the desired mood. The clean, elegant lines and premium materials of the interior are highlighted by carefully detailed LED mood lighting that brings the cabin alive at night. Available as an option.

PANORAMIC ROOF

Flooding the interior with light, the optional fixed or sliding panoramic roof enhances the feeling of space and a connection to the world outside. Yet, at the touch of a button, the driver and passengers can feel cocooned once more as the full-length power blind glides into place.

Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information. Interior shown left is Autobiography in Espresso/Ivory with Ivory seats and sliding panoramic roof with optional features fitted.

COMFORT FOR ALL

REAR SEAT ENTERTAINMENT

The optional Rear Seat Entertainment system provides either 8" screens built in to the headrest or 10" high-definition seat mounted articulating screens.

'Journey Status', a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination, is also included. Both systems come with a pair of WhiteFire® digital wireless headphones and HDMI, Mobile Hi-Definition Link and USB connections.

AUTOMATIC ACCESS HEIGHT

Attention to detail is everywhere you look and in everything you touch. For instance, the Automatic Access Height feature lowers the vehicle with precision by up to 2", for easier entry and exit when parked. Arriving in style at any function has never been more relaxed.

SPLIT TAILGATE

The split tailgate is distinctly Range Rover. Its electrically operated upper and lower tailgates help provide a platform for social and sporting events coupled with greater protection from the elements. The upper and lower tailgate can be opened independently using the buttons on the tailgate, or they can be simultaneously opened or closed using the key fob, while the upper tailgate can be operated from a switch on the dash.

POWERED GESTURE TAILGATE

This feature adds practicality and makes life with your Range Rover even easier. Electronically operated, simply by performing a smooth upward movement of the foot beneath the sensor, powered gesture tailgate enables the driver to operate the tailgate (both to open and close) from the curb without needing to physically touch either the vehicle or the key fob, provided the smart key is detected. And as the system is compatible with accessory towing solutions, you can still open and close the tailgate with the least amount of fuss.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence. Features and their availability may differ by vehicle specification and market. Please see pages 74-93, or contact your nearest Land Rover Retailer, for more information. Interior shown left is Autobiography in Ebony/Ivory with Ivory seats Grand Black veneer with optional features fitted. Vehicle shown right is Autobiography in Indus Silver with optional features fitted.

ENGINES

8-SPEED AUTOMATIC TRANSMISSION

All engines in the Range Rover are paired with the advanced electronically controlled ZF 8-speed Automatic Transmission, which has been tuned by Land Rover to combine silky-smooth shifting with exceptionally rapid response. With eight closely spaced ratios, gear changes are almost imperceptible, with each shift completed in just 200 milliseconds.

Controls include steering wheel-mounted paddle shift as standard, enabling the driver to take control of gear shifting manually.

The transmission accepts multiple downshifts, maintaining a smooth transition between ratios. This optimized 8-speed Automatic Transmission is the perfect partner to the torque-rich engines.

The transmission is tuned to select torque converter lock-up as early as possible to reduce slip and energy loss. **Transmission Idle Control** disengages 70 percent of the drive when the vehicle is stationary and the engine is idling in Drive, helping to reduce fuel consumption in urban conditions.

In cold conditions, the transmission selects a lower gear to promote fast warm up and get the engine up to its efficient operating temperature as soon as possible.

GAS ENGINES

340HP SUPERCHARGED V6

A Roots-type twin vortex supercharger is mounted in the 'V' between the two rows of cylinders for compact dimensions. Supercharging provides linear delivery of power and maximizes responsiveness. This results in performance matching much larger engines, while optimizing economy and reducing emissions. The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance. For added refinement there is a twin, counter-rotating balancer shaft system.

380HP SUPERCHARGED V6

The powerful 380HP Supercharged V6 delivers an additional 40HP and can accelerate from 0-60mph in 7.0 seconds*.

510HP SUPERCHARGED V8

With huge reserves of power and torque inherent in this configuration, an indication of the performance on offer is reflected in the 0-60mph time of 5.1 seconds*. This is achieved in the most refined and precise manner possible.

The V8 has a compact and lightweight all-aluminum design, with low levels of internal friction. The engine has been optimized around a state-of-the-art Bosch engine management system. This features high-pressure direct injection with a centrally mounted, multi-hole, spray-guided injection system.

The 510HP engine is fitted with a sixth generation, **Twin Vortex System (TVS)** supercharger that offers superior thermodynamic efficiency and extremely refined noise levels.

550HP SUPERCHARGED V8

Exclusive to SVAutobiography Dynamic and SVAutobiography Long Wheelbase. This Supercharged V8 engine delivers 550HP and 502lbs/ft of torque.

This breathtaking increase in performance has been enabled by a recalibration of the engine and its management system to increase maximum available boost pressure. Maximum torque is delivered at 3,500-4,000rpm.

BODY AND CHASSIS

ALL-ALUMINUM BODY

WORLD'S FIRST SUV WITH HIGH STRENGTH ALUMINUM CONSTRUCTION

The Range Rover features an advanced all-aluminum body structure making it lighter, more fuel efficient and sustainable.

The aluminum structure is incredibly strong. The body has been engineered to withstand the same off-road use as all Land Rover vehicles.

The joints in the shell are riveted and bonded together using techniques originally developed in the aerospace industry and adapted for automotive use by Land Rover. This structure means that traditional energy intensive construction methods such as spot welding are not required.

RUGGED SUSPENSION ARCHITECTURE

Another key factor in the driving capability of the Range Rover is the lightweight suspension architecture. The suspension systems use a clean sheet design which is designed to deliver exceptional vehicle dynamics.

Primarily constructed from lightweight aluminum components, the suspension concept is fully independent, with a wide-spaced double-wishbone design at the front and an advanced multi-link layout at the rear.

The lightweight chassis architecture is combined with four-corner air suspension to optimize the vehicle's versatility both on and off-road. The air springs offer variable ride height, and are cross-linked for maximum axle articulation.

To achieve superior performance, both in terms of ride quality and the ability to change swiftly between the different ride heights, the air suspension hardware has been completely re-engineered. The characteristic Range Rover ride quality is refined through the fitment of low-hysteresis front air springs, which are able to absorb small irregularities more effectively. The springs use a thinner, suppler material, which is protected by a metal casing.

Vehicle shown right is Autobiography in Indus Silver with optional features fitted.

SAFETY

SAFETY FEATURES

Range Rover strives to meet the most stringent global safety standards. Its optimized aluminum body structure is designed to protect occupants using a strong and stable safety cell, which is complemented by a comprehensive system of airbags and restraints. The crash structure is optimized using computer simulation tools, which allows engineers to conduct a significant number of 'virtual' crash tests long before physical prototypes are available. Vehicle crash performance has been verified via a rigorous program of 70 full vehicle crash tests and over 20 sled tests.

PASSENGER SEAT BELT CHECK SYSTEM

CURTAIN AIRBAGS* WITH ROLLOVER SENSING

In the event of a side impact or rollover, these are deployed to provide greater protection against head injuries.

SEAT BELT PRETENSIONERS

Provide additional protection in the event of a front impact by reducing the forward movement of the occupant.

DUAL STAGE DRIVER AND PASSENGER AIRBAGS*

The airbags have two levels of inflation to ensure they inflate to the optimum level depending on the incident to provide maximum occupant protection.

*Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

ENVIRONMENTAL

SUSTAINABILITY

EFFICIENCY DRIVES SUSTAINABILITY

Range Rover demonstrates Land Rover's commitment to enhancing the sustainability of its products and operations and its determination to deliver vehicles which are both relevant and highly desirable. With its aluminum structure and optimized powertrains, Range Rover addresses the growing consumer need for more socially acceptable vehicles in a carbon-conscious world.

Its greener credentials stem from a comprehensive approach to reducing environmental impact throughout the life cycle of the vehicle; from development and manufacturing, to customer use and end-of-life.

SUSTAINABLE BY DESIGN, WITH LIFE CYCLE APPROACH

In order to minimize the vehicle's overall ecological impact, Range Rover is designed with a life cycle approach, aiming to minimize the environmental impact by considering the entire life cycle of the vehicle. Each element of the life cycle was analyzed with a view to consuming fewer natural resources, using more sustainable materials and minimizing the generation of waste. The development process has included a full life cycle assessment in line with ISO 14040/14044.

The aluminum construction makes a major contribution to its reduced carbon footprint. Up to 50 percent of the aluminum material is sourced from recycled content, resulting in a significant saving of energy and CO₂ emissions. Recycled and renewable materials are used wherever possible in the Range Rover. High specification vehicles use up to 69lbs of recycled plastics, diverting over 9722 tons of plastic from landfill during the carline's life. Natural and renewable materials, such as the luxurious leathers and veneers, represent 98lbs of each vehicle.

Bridge of Weir leather, produced in the UK using unique 'low carbon' and low water consumption manufacturing processes, adds further to the environmental credentials of the vehicle, while the real wood veneers are all sourced from sustainable forests.

INTELLIGENT STOP START SYSTEM

All Range Rover powertrains incorporate low-CO₂ technologies such as the advanced Intelligent Stop/Start system, which is designed to improve fuel consumption between 5 and 7 percent. The system automatically shuts down the engine at rest and starts it again as soon as you lift your foot off the brake. It features a Tandem Solenoid Starter with a dedicated secondary battery for instant restarting.

Vehicle shown left is Autobiography in Indus Silver with optional features fitted.

STEP 2 CHOOSE YOUR MODEL AND OPTIONS

EACH MODEL HAS A CHOICE OF ENGINES AND DISTINCTIVE FEATURES.

This guide will help you to select your ideal Range Rover. On the following pages you'll see the standard features for each model.

RANGE ROVER

Contents of Range Rover:

- Dark Atlas grille surround, Dark Atlas grille mesh and ribs
- Body-colored bumper vent blades, side vents and door handles
- Metal Roof
- 19" 5 split-spoke 'Style 501' alloy wheels
- Xenon headlights with LED signature lighting
- Adjustable, power fold, heated door mirrors with approach lights
- Grained leather seats
- 12-way driver and passenger front seats, driver memory, rear bench seat with load through facility and rear manual recline
- Front and rear carpet mats
- Morzine Headlining

- Heated leather steering wheel with steering wheel controls
- Three-zone Climate control
- Powered gesture tailgate
- Keyless Entry with Push Button Start
- 10" Touchscreen with InControl Touch Pro Navigation** and 12.3" virtual instrument panel
- Meridian™ Sound System (380W)
- Terrain Response®*
- Rear View Camera*
- Autonomous Emergency Braking*
- Lane Departure Warning*.

HSE

Contents of Range Rover, plus:

- Auto-dimming exterior mirrors
- Soft Door Close
- Sliding panoramic roof.

Replaces Range Rover content:

- Dark Atlas grille surround, Atlas grille mesh and ribs
- 20" 5 split-spoke 'Style 502' alloy wheels
- Perforated Oxford leather seats
- 18-way driver and passenger front seats, front climate seats, heated rear seats, and a rear bench seat with load through and rear manual recline.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. PERSONALIZING THE EXTERIOR – ACCENT PACKAGES

There is plenty of opportunity to tailor the exterior to suit your personal taste. In addition to the standard finish you can change the finish of the side vent graphic to Atlas Silver or choose the Dark Atlas finish as part of an Exterior Accent Package. These are also available as an accessory fitment. The Black Design Package gives the overall design of the vehicle a more assertive appearance by changing individual elements to Gloss Black.

STANDARD FINISH* (BASED ON HSE MODEL WITH OPTIONAL FOG LIGHTS)

- Grille surround in Dark Atlas, grille mesh and ribs in Atlas
- Body-colored vent blades and door handles
- Front bumper accents in Atlas
- Lower accent graphic in Atlas Silver.

*Model shown with optional 22" 5 split-spoke 'Style 504' alloy wheels. Please refer to the optional feature listing on page 81 for applicability.

■ Standard.

(2) Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

CHOOSE YOUR SEAT CONFIGURATION

Bench Rear Seat

The leather bench seat can accommodate up to three passengers and is available with manual or power recline.

The center seat folds flat to reveal the rear seat cupholders.

For extended load capacity all of the rear seats will fold fully forward. Additionally this can be operated electronically by the touch of a button in the loadspace for seats specified with power recline.

Available on Standard Wheelbase and Long Wheelbase variants. Not available on SVAutobiography Long Wheelbase.

Rear Executive Class seats

For the ultimate in rear seat luxury, the Rear Executive Class seating option provides supreme comfort and convenience, with two individual rear seats and the full extended center console finished in the finest veneer. Seat functionality includes memory, power recline and a three-mode massage feature.

The option of a Long Wheelbase adds 7.3" in the second row of seats and has the additional benefit of providing rear passengers with a recline of 17 degrees.

Available on Autobiography and standard on SVAutobiography Long Wheelbase. Also available on both Standard Wheelbase and Long Wheelbase variants.

LAND ROVER APPROVED ACCESSORIES

Many owners want to add their own stamp of individuality by tailoring their Range Rover with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalization. One such addition is a design package. This has been designed, developed and tested by our Special Vehicle Operations (SVO) team and is therefore engineered to the highest possible level.

Exterior features include a unique front bumper, rear bumper with integrated tailpipes, side vents, grille and side sill claddings.

Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle. And importantly, these accessories can be added at any stage during the vehicle's life.

OTHER

Loadspace Retention Net
VPLMS0302

Secure small items and luggage within loadspace. Utilizes loadspace tie-down points. Includes floor net and two ratchet straps which are approximately 78.7" long.

Gearshift Paddles
VPLVS0187MMU – Aluminum
VPLVS0187CAY – Aluminum Red

Complete the look and feel of your steering wheel with premium aluminum paddles. Gearshift paddles are machine polished, anodised and hand brushed to provide exceptional wear resistance with a premium finish.

Center Armrest Cooler/Warmer Box
VPLVS0176

Food and drinks chiller and warmer that acts as a rear center armrest. With a leather-covered top, it is held in place by the center seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Luxury Loadspace Carpet Mat
VPLGS0377PVJ – Ebony
VPLGS0377AAM – Espresso

Luxurious, tailored, deep pile 2.05g/m² loadspace carpet mat, with waterproof backing, provide a well appointed finishing touch to the interior.

Mirror Covers – Noble Chrome
VPLGB0073

Noble Plated mirror covers designed to enhance the Range Rover's exterior design cues. This neat design upgrade complements various Light Atlas and Bright finish exterior trim.

Electric Cool Bag
VUP100140L

This cool bag is thermostatically temperature controlled, is powered by the 12 volt auxiliary socket and has an easy to clean interior surface. Height 15", Length 15", Width 8.6". Volume 0.5 cu.ft.

TOURING

Luggage Roof Box*
VPLVR0062

Roof mounted luggage box with Gloss Black finish. Opens from both sides and is lockable for security. Includes power-grip mounting for easy and quick fixing to the roof bars. External dimensions: 68.9" long, 32.3" wide, 17.8" high. Volume 14.5 cu.ft. Maximum payload 165lbs**.

Sports Roof Box*
VPLVR0061

Sleek, aerodynamic design Sports roof box with a Gloss Black finish which can be mounted on either side of the vehicle. Internal retention system for skis or other long loads. Lockable for security. External dimensions: 81" long, 33" wide, 13.4" high. Internal volume 11.3 cu.ft. Load capacity 165lbs**.

Large Sports Roof Box*
VPLVR0100 (not shown)

Luggage Carrier*
LR006848

Flexible rack system to facilitate roof carrying. Maximum payload 165lbs**.

Loadspace Rails
VPLGS0170

Loadspace mounted rails to help increase the flexibility of loadspace stowage, also allowing the fitment of the luggage retention kit stowage system.

Luggage Retention Kit
VPLGS0171

Package of attachments that fix into the loadspace rails via a quick lock/quick release system to help provide a flexible solution for retaining items. The attachment package includes a retractable strap with inertia reel, telescopic rod and stowage bag.

Tow Hitch Receiver
VPLGT0083, VPLGT0097,
LR037931, LR056299

This bespoke system has been optimized alongside the Range Rover advanced aluminum chassis construction. Approved for up to 7,716lb trailer load. Trailer Hitch Draw Bar Kit and Towing Electrics Kit are available separately.

Trailer Hitch Draw Bar Kit –
VPLGY0076

Towing Electrics Kit* – VPLGT0074

These handy sockets are mounted conveniently in your vehicle's rear bumper, providing the electrical power needed for rear lighting on your trailer. Must be used with the Trailer Hitch Kit.

Accessory Wheels

A range of wheels are also available as an accessory fitment. Some of the wheels shown are manufactured via premium forging process to ensure strength, with striking vibration polished finish.

120

*Roof rails and cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted.

SPORTING

Roof Rails**
Consult your Land Rover Retailer for further details

Roof rails facilitate easy fitment of cross bars for roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics.

Cross Bars**
VPLGR0102

Elegant, durable Bright finish aluminum cross bars, with T-track design which utilizes the full length of the bars, providing space to mount multiple accessories. Aerodynamic profile minimizes drag and wind noise. The incremental height when fitted is 3.6".

Ski/Snowboard Carrier*
LR006849

Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading, is also lockable for security. Maximum payload 79lbs.**

Ski Bag
VPLGS0166

The Land Rover padded ski/snowboard bag carries up to two pairs of skis and poles up to 70.8" long. It is manufactured from durable 600D polyester and features removable shoulder strap.

Aqua Sports Carrier*
VPLGR0107

Carries one surfboard, sailboard, canoe or kayak. Includes lockable multi-purpose holder to carry a mast, oars or paddles. Tilts to facilitate easy loading/unloading. Features lockable straps and rubber supports to maintain optimum weight distribution while protecting the kayak and vehicle from scratches/scuffs. Maximum load capacity 99lbs.**

Illuminated Treadplates
VPLWS0208 – SWB
VPLGS0261 – LWB

Illuminated treadplates are available on both the driver and front passenger sides of the vehicle to welcome you into the cabin.

Personalized Illuminated Treadplates
VPLWS0212 – Front
VPLWS0209 – Vehicle Set (SWB only)
VPLGS0262 – Rear (LWB only)

Personalize your vehicle further by adding a script of your choice in a variety of fonts, highlighted by subtle white illumination. Available as a full vehicle set (front pair personalized, rear pair illuminated only) or as a front pair only.

Sport Pedal Covers
VPLGS0160

Alternative pedal covers for an interior design enhancement featuring a Bright finish. Manufactured from polished and etched stainless steel and features hidden fixings for a clean finish.

**Maximum payload equals the load capacity of the roof mounted accessory
*Please note: These accessories are not suitable for caravans, trailers or lighting boards fitted with rear mounted LED light kits.

OUTDOOR

Luggage Partition – Full Height
VPLGS0162

Designed to prevent luggage from entering the passenger compartment. Easily removed. Complies with ECE-17 regulation.

Loadspace Liner Tray
VPLGS0263

Semi-rigid waterproof loadspace liner tray with a raised lip on three sides to protect loadspace floor and side wall carpets from dirt or wet equipment. Features Range Rover Bright ingot branding.

Loadspace Mat – Rubber
VPLGS0260

Range Rover branded waterproof rubber mat protects the loadspace carpet from general dirt in the rear loadspace. Features Bright work accents to increase visual quality and match floor mats.

Rubber Footwell Mats
VPLGS0150 – SWB
VPLGS0254 – LWB

Rubber footwell mats for front and second row occupants help provide protection from general dirt. Branded and with Bright accent Range Rover ingot and durable metal corner piece to the external edge.

Front Waterproof Seat Covers
VPLGS0154PVJ – Ebony
VPLGS0154SVA – Almond

Highly durable tailored waterproof seat covers provide protection for the seat upholstery. Simple to fit and machine washable.

Mudflaps
VPLGP0109 – Front
VPLGP0111 – Front (for Deployable Side Steps)
VPLGP0110 – Rear

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Designed to complement vehicle exterior design.

A WORLD OF LAND ROVER

LAND ROVER EXPERIENCE

Ever since its inception, Land Rover has been ready for anything. Its legendary capability has seen it tackle the most demanding of terrains, in the most difficult conditions. Its versatile interior has become synonymous with comfort and greater loadspace. And its 'can do' attitude has made it the most welcome of vehicles across the globe.

You can be part of the Land Rover story at one of our Land Rover Experience Centers. You can see how each and every one of these iconic vehicles is built. You can take one out onto off-road tracks where your driving skills will be put to the test. Or you can go even further on one of our Adventure Travel holidays to such countries as Tanzania, Iceland or Morocco.

Adventure awaits.

For more information, visit landroverusa.com

LAND ROVER ONELIFE

Onelife, the award-winning Land Rover magazine, is published twice a year and reaches customers in 40 countries. Each issue is filled with the latest Land Rover news and vehicles, insights into the technology and design that shape each vehicle, inspirational journeys and opinions from international experts.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your nearest Land Rover Retailer to find out more.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service.

Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

LAND ROVER COLLECTION

The vehicle is just the beginning. The latest Land Rover Collection is now available for you to discover.

A meticulous attention to detail doesn't stop with our vehicles. You'll find the same level of craftsmanship in all of our clothing, travel items and premium gift ideas. So whether you're shopping for yourself or a loved one, you know the quality is assured.

The Land Rover collection includes ladies and gents clothing, an extensive range of small leather goods such as wallets, portfolios, iPad and iPhone cases along with briefcases and weekender bags. A range of cufflinks and ladies silk scarves add a luxury feel to the collection. There's gear for the kids too, with colorful fun clothing, caps and replica model vehicles for them to enjoy.

Visit shop.landroverusa.com to browse the latest Land Rover Collection.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Roadside Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.

For further details please contact your nearest Land Rover Retailer or visit landroverusa.com

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Retailer within one month or 1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. Some of the accessories featured are not available on all models. Please consult your nearest Land Rover Retailer for more information.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Retailer who will be pleased to advise you on current specifications and any query you may have.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

Castrol EDGE Professional recommended by Land Rover.

Vehicle shown on front and back cover is Autobiography in Aruba with optional features fitted (market dependent).
