Focus on where you're going. Not on getting there.

You don't drive a fuel-powered or electric Mercedes-Benz Van by chance, but because you've opted for outstanding quality. No matter what, what counts is that you keep moving. Mercedes-Benz ServiceCARE products help you to do just that. Whether it's maintenance, a wear and tear repair, or an unforeseen repair cost covered under warranty, Mercedes-Benz ServiceCARE products offer you an individual solution for every need – to keep you moving on every journey.

Peace of mind right from the start.

For Your New eSprinter

The service package included with the eSprinter covers the costs of maintenance work in accordance with the service booklet and manufacturer's specifications for the first 4 services within the first 4 years, or up to a maximum of 100,000 miles. Thanks to a regular and professional inspection of the high-voltage components and other vehicle parts and functions, you can be sure that your electric van is always ready for use and retains its value – today and in the future.

The battery certificate, which is also integrated, includes a warranty on the high-voltage battery for a period of 8 years, or up to a maximum of 100,000 miles. The buyer is also guaranteed that the maximum charging capacity of the high-voltage battery will not be less than 70 percent of the starting capacity.

With an optional battery certificate extension, the battery certificate can be increased to a maximum of 8 years, or up to a maximum of 185,000 miles.

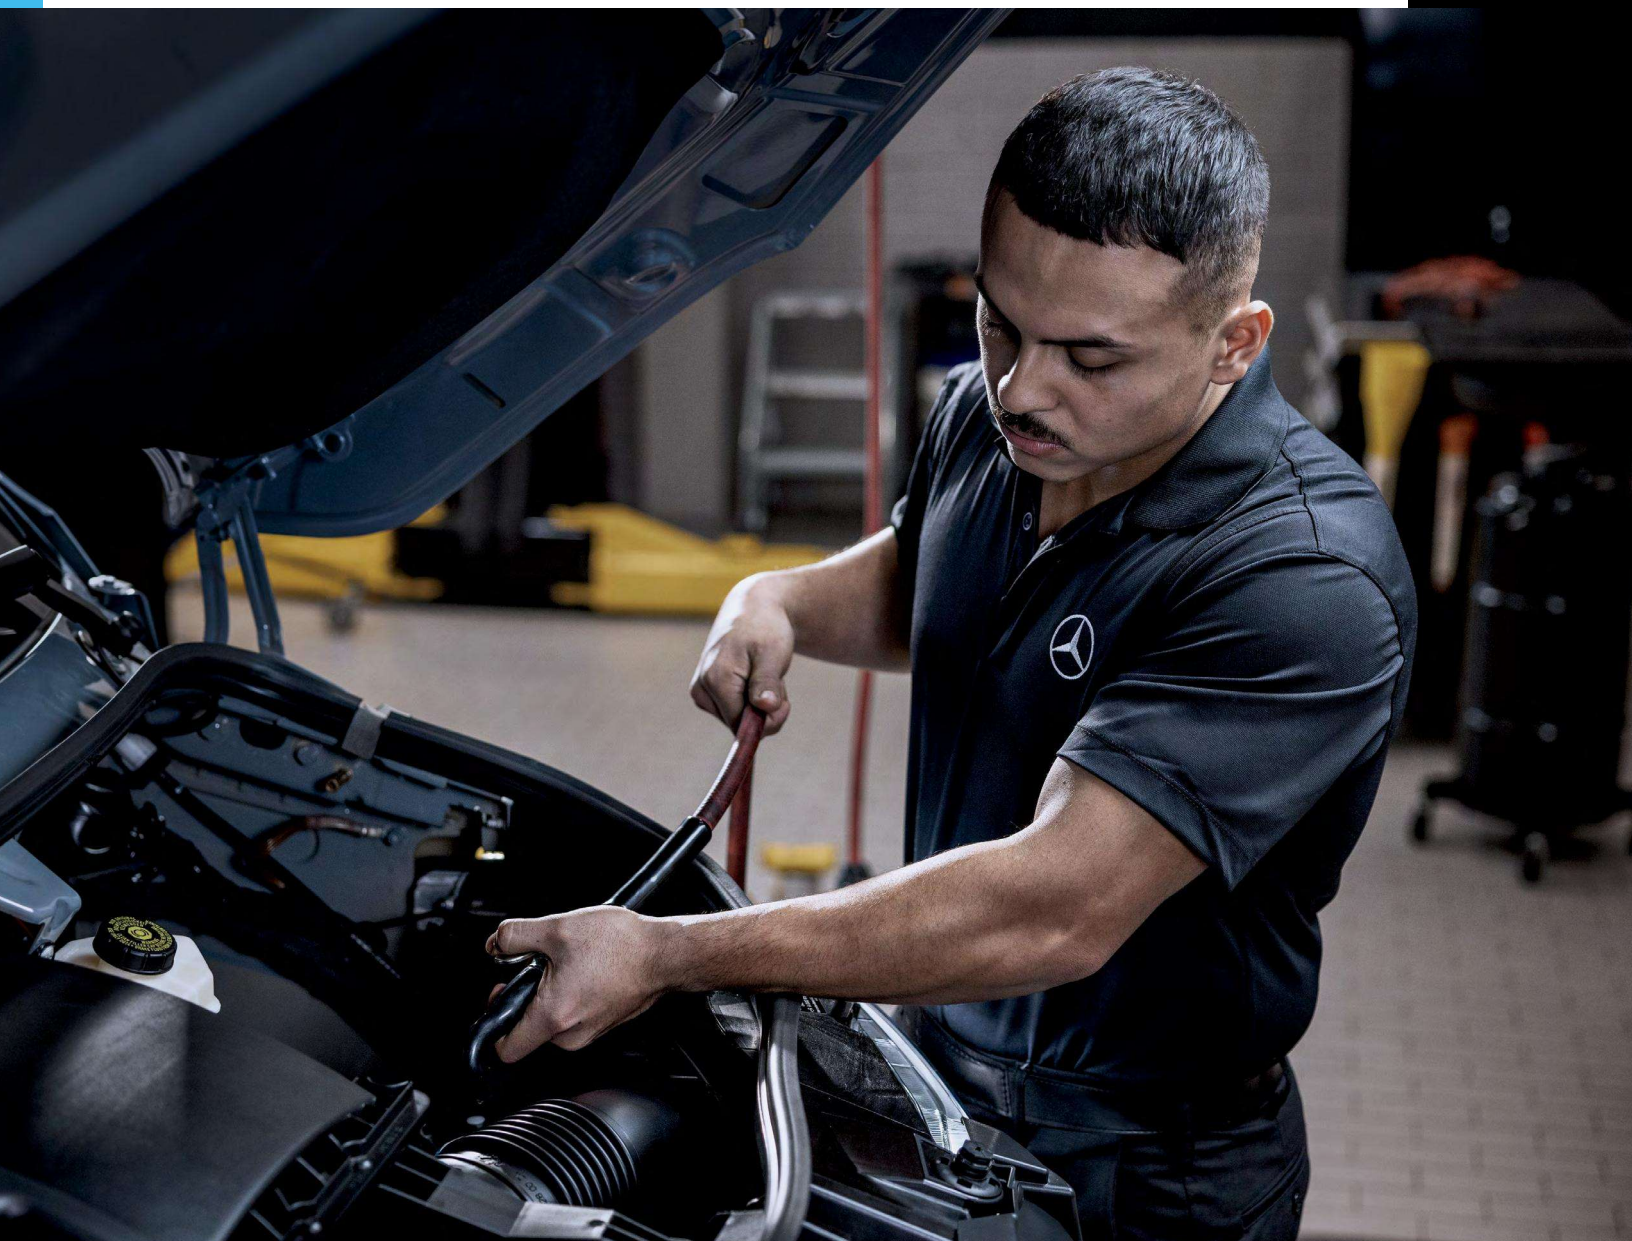

Extended Warranty/eWarranty

More warranty. More certainty.

The Extended Warranty/eWarranty package offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs and, without any deductibles, you get the benefit of predictable and attractive conditions.

The Extended Warranty/eWarranty gives you peace of mind knowing that you won't be sidelined by unexpected expensive repairs over the years. If, at any time, you decide to sell or trade in your vehicle, an Extended Warranty/eWarranty can help retain, or even increase, the value of your van.

Maintenance/eMaintenance

Keeping your van in top shape.

ServiceCARE Maintenance/eMaintenance includes all maintenance work with Genuine Mercedes-Benz Parts, and is recommended for customers who want basic protection or wish to protect a used vehicle.

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance/eMaintenance prevents unnecessary repair costs and keeps downtime minimal and predictable. Our Maintenance/eMaintenance package helps protect your vehicle's value and boost its resale value.

Complete/eComplete

The all-inclusive service package.

The all-inclusive service package for your customers who don't like leaving things to chance, and who rely on maximum transparency and predictability.

If you require comprehensive additional protection for your van, look no further than our Complete/eComplete package. This package covers all workshop work, including wear and tear repairs. Your vehicle is ready for action when you need it, and you can keep costs safely under control.

The Complete/eComplete package combines the advantages of the Extended Warranty/eWarranty and Maintenance/eMaintenance packages, and, additionally, covers the wear and tear of components. Only tires are excluded.

Roadside Assistance

Here for when your customers need it most, our Roadside Assistance Program* can help with:

- Replacing a flat tire with a spare**
- Delivering a jump-start in the event of a dead battery
- Providing 3-5 gallons of fuel, if the customer runs out
- Arranging a tow in the event of a mechanical issue or accident

*This is a summary of coverage. For additional details, please refer to the Complete and Extended Warranty Terms and Conditions.

**Changing a flat tire will require a heavy-duty portable jack capable of lifting 3,000-15,000 lbs, depending on vehicle style, modifications, and/or load. Dealers are responsible for ensuring that technicians are properly equipped to provide these services.

ServiceCARE Plans Overview

Extended Warranty/eWarranty

☐ Service ☒ Repair ☐ Wear & Tear

More warranty. More certainty.

The Extended Warranty/eWarranty packages offer you greater coverage for mechanical, electrical, and electronic components. They protect you against unforeseen repair costs and, without any deductibles, you get the benefit of predictable and attractive conditions.

SPRINTER Diesel

*With the included battery certificate, Mercedes-Benz AG, following the statutory liability for material defects and the Mercedes-Benz New Vehicle Warranty, guarantees that the maximum remaining capacity of the high-voltage batteries in the battery network will not be less than 70% of the starting capacity for a total of 8 years from delivery or initial registration or up to 100,000 miles. The Battery Extension extends the already-included battery certificate (8 years/100,000 miles) by an additional 85,000 miles for a total of 8 years/185,000 miles. eMaintenance with Battery Certificate Extension can be purchased any time prior to expiration of the OEM Manufacturer's Warranty (3 year/36,000 miles). The prerequisite is compliant with the maintenance, charging, and storage specifications for the high-voltage batteries in the battery network.
