

BARRETT

Model 82A1 .50 BMG Rifle System Package

The Model 82A1 is unlike other semi-automatic .50 BMG rifles. For more than two decades, this short-recoil, semi-automatic series rifle has been carefully honed, studied and refined again. The result is a feat of engineering so impossibly precise, it's hard to believe it's man-made.

Its chamber is chrome-plated and dimensioned for both civilian and military ammunition. The extractor and ejector are proven to work under any condition, and close tolerances on every part allow it to function in all environments.
