

2018 F-150 APPEARANCE GUIDE

//// The Different Faces of Tough

Every new 2018 F-150 has a striking appearance. And while the family resemblance isn't hard to spot, each carries distinct traits that help them stand out from one another and every other truck on the road.

When ordering your 2018 F-150 trucks, this Appearance Guide offers details to help you understand the differences when it comes to available appearance packages, with a visual focus on trim and exterior color choices.

Preproduction vehicles shown throughout. Available Fall 2017.

This Appearance Guide is intended as a general overview of differences between standard and optional appearance packages and is a supplement to the Order Guide. Not all exterior or interior options are shown here.
