(1) Active Drive Assist is a hands-free highway driving feature. The Active Drive Assist Prep Kit contains the hardware required for this feature. Software for the feature will be available for purchase at a later date. Active Drive Assist functionality expected in the 3rd quarter of 2021. Separate payment for feature software required to activate full functionality at that time.

## 2021 F-150 > Availability by Model

### F-150 Tremor

Introducing the F-150 Tremor, the newest series in the 2021 F-150 lineup. Available only as a SuperCrew, 5.5-ft. box 4x4 configuration, F-150 Tremor joins the Ranger with Tremor Off-Road Package and Super Duty with Tremor Off-Road Package in the showroom. It's important to note the F-150 Tremor, unlike Ranger and Super Duty, is a series that will be available in Standard, Mid and High equipment groups. F-150 Tremor is a step up from the very capable FX4 Off-Road package in trail and off-road performance with a 1-inch wider stance, increased ground clearance and off-road tuned suspension to help keep the 33" all-terrain tires planted on the trail. And while the F-150 Tremor is equipped with trail-ready features, customers can expect outstanding payload and towing capability. Exterior highlights include Tremor-specific grille, hood, running boards and wheels. Interior styling cues include Sport Cloth or leather-trimmed seating with Active Orange contrast stitching. Available SYNC 4 with Enhanced Voice Recognition will keep customers connected while the Ford Co-Pilot360 Technology will help keep the commute and trail adventure confident.

Preproduction Tremor vehicles shown throughout. Available summer 2021.
