MARCH 2015

BMW X5 M.

ALL-ROAD PERFORMANCE AT M SPEED.

The BMW X5 M was born to rule. Its new TwinPower Turbo V8 is the most powerful BMW engine ever developed for an all-wheel drive vehicle. To transfer all this power to the 21-inch M light alloy wheels, BMW has designed a new 8-speed M Steptronic transmission with three Drivelogic modes. The interior combines elements of an M automobile and an X model perfectly to create a generous sensation of space. Comfort is guaranteed - with adrenaline in abundance.

BMW X6 M.

CLAIM YOUR TERRITORY.

Accelerating from 0-100 km/h in just 4.2 seconds, the BMW X6 M is a Sports Activity Coupé destined for adventure. BMW's intelligent all-wheel drive and Dynamic Performance Control distribute power between the front and rear axles to ensure optimal traction whatever the driving conditions. A new Electric power steering system, which can be configured in three distinct modes (COMFORT, SPORT and SPORT+), modulates the degree of assistance based on the speed. Behind the wheel and on the road, the X6M delivers an adrenaline rush.
