

CERTIFIED PRE-OWNED VEHICLES

THE BEST NEW CARS MAKE THE BEST USED CARS.

Style. Performance.
Personality.
Whatever you're
looking for, there's
a Scion just for you.

Each Scion is built to reflect your unique personality and to meet the demands of your lifestyle.

Scion's passionate commitment to quality, durability and innovation is the foundation upon which the Scion Certified Pre-Owned (SCPO) program was launched in 2003.

Driven to offer you a high-quality, low-mileage Scion at a great price, Scion requires each car to meet an exhaustive list of rigorous standards. The result: Only the best vehicles qualify to become certified.

SCION CERTIFIED PRE-OWNED VEHICLES.

Like you, Scion demands the best. That's why before a pre-owned Scion vehicle is even considered for our certification process, it must have less than 85,000 miles on its odometer and must be less than six years old.

Quality Assurance Inspection

If the vehicle meets these requirements, it must pass a rigorous 160-point Quality Assurance Inspection, which addresses everything from the transmission to windshield wipers and battery system to cup holders. We even road-test each vehicle to ensure high quality performance, and our trained technicians complete any necessary repairs and reconditioning before we call the vehicle "certified."

CARFAX Vehicle History Report¹

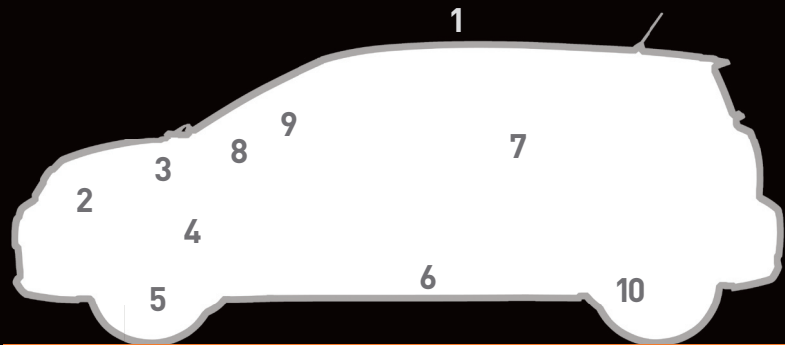

The CARFAX Vehicle History Report (VHR) provides a glimpse into a vehicle's past and can identify red flags, such as possible

odometer rollback or previously reported structural damage. If a vehicle's VHR doesn't meet our standards, we won't continue the quality inspection. Why bother? It'll never be Scion Certified.

160
