The power to move forward.

05 MODEL GRADE

Stop and smell the optimism. The road ahead looks clear with the 2005 Toyota Prius with Hybrid Synergy Drive.® What's Hybrid Synergy Drive, you ask? It's simply the genius that combines an efficient gas engine with an emissions-free electric motor to produce an ideal combination of fuel efficiency, environmental sensitivity and performance. Need proof? Prius has a combined city/highway mpg rating estimate of 55.¹ As for emissions, the mid-size hybrid is designed to exceed the standards for a Super Ultra Low Emission Vehicle (SULEV) and achieve an Advanced Technology Partial Zero Emission Vehicle (AT-PZEV) rating.² All this with the performance of a conventional vehicle. And did we mention you never have to plug it in? The hybrid features an ingenious regenerative braking system that converts otherwise wasted kinetic energy into electricity, automatically recharging Prius' battery. Pretty amazing, isn't it? But it really shouldn't be a surprise since Toyota is a leader in hybrid technology with over 100,000 hybrids sold in America. In fact, you'll soon see Hybrid Synergy Drive® available in other Toyotas including the Highlander Hybrid. Which means even greener forests, cleaner air and less dependence on fossil fuels on the horizon. Hybrid Synergy Drive. The power to move forward.

1. 2005 EPA-estimated 60 city/51 highway/55 combined mpg. Actual mileage may vary.

2. AT-PZEV-rated by the California Air Resources Board. Meets Tier 2-Bin 3 Federal emissions standard. For more information please visit www.arb.ca.gov.

05 INTERIOR

So advanced it makes the future seem obsolete. Prius is so far ahead of its time you can practically see tomorrow in its rearview mirror. After all, with cutting-edge features like Push Button Start, steering wheel-mounted controls and a multi-information screen displaying the Hybrid Synergy Drive® system in action, it's obvious that Prius is miles beyond the future. The gas/electric hybrid is also equipped with by-wire electronically controlled throttle and shifting. Commonly used in jet airplanes, these technologies replace traditional mechanical connections with electronic impulses to improve performance. Add an available Smart Key System, which enables you to unlock the doors and start Prius without using a key, and an available voice-activated DVD navigation system² with Bluetooth™ technology for hands-free cell phone use, and you've got a vehicle that would make a science-fiction writer shake his head in amazement. But the forward thinking doesn't stop there. Prius also offers standard driver and front passenger dual-stage airbags³ and available front seat-mounted side airbags and front and rear side curtain airbags.³ Other advanced safety features include Traction Control (TRAC), an Anti-lock Brake System (ABS) with Brake Assist⁴ and available Vehicle Stability Control (VSC).⁵ Prius. Part gas. Part electric. Part time machine.

05 CARGO

Comes with everything but a catch. OK, by now you're saying to yourself, "Cutting-edge technology, super low emissions, exceptional fuel economy... but what do I have to sacrifice? Space? Practicality?" Try nothing. With seating for five, 60/40 split fold-down rear seats, an easy-access rear liftback and Complimentary Roadside Assistance,² the mid-size Prius is proof you can indeed have it all. No strings — or cords — attached.

1. Controls included based on vehicle equipment.

2. HomeLink[®] is a registered trademark of Johnson Controls, Inc.

3. The Toyota DVD navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Changes in street names, road closures, traffic flow or other road system changes may affect the accuracy of the mapping software. Rely upon your common sense to decide whether or not to follow a specified route. Detailed coverage not available in every city. Optional periodic geographical updates available at an additional cost. See your *Navigation System Owner's Manual* and your Toyota dealer for further details.

4. Bluetooth[™] is a registered trademark of Bluetooth SIG, Inc.

5. The Toyota driver, front passenger, front seat-mounted side airbags and side curtain airbags are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceed the design threshold level. The side airbags and side curtain airbags are designed to inflate in certain types of

severe side-impact collisions. In all other accidents, the airbags will not inflate. To decrease the risk of injury from a deploying airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door. Do not put objects in front of an airbag or around the seat-back. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying SRS airbag may cause serious injury or death. Please see your *Owner's Manual* for further instructions.

6. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

7. See your Toyota dealer for more details.

8. Toyota Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Hybrid-Related Component Coverage: Hybrid-related components, including the HV battery, battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. The HV battery may have longer coverage under emissions warranty. Refer to applicable *Owner's Warranty Information* booklet for details.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Owner's Warranty Information* booklet for details.

Accessories: For accessories purchased at the time of the new vehicle purchase, the Toyota

Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty. For accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details. For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Owner's Warranty Information* booklet or see your Toyota dealer.

Hybrid customers are covered by roadside assistance and road hazard insurance for 36 months/36,000 miles from the vehicle's in-service date. Examples of this service include flat tire, vehicle lockout and jumpstart. See your Toyota dealer for details.
