

Ken Garff Nissan

2013
cube[®]

4 DOORS. NEVER SQUARE.

THE FEELING OF INNOVATION.

In cube,[®] a way to get there becomes a way to be: open-minded and in the moment, with easy-going practicality. Curvy replaces straight, and asymmetry changes your outlook. Of course, cube serves up sensible with its one-of-a-kind spirit. There's plenty of loungey room inside a car that doesn't take up much space. Creature comforts and high technology are on board too, and it's all surprisingly easy on the wallet. **Nissan. Innovation that excites.[™]**

Nissan cube SL shown in Sapphire Black.

MEET THE SHAPE OF THINGS TO COME.

It's time to see things in a new light. Where artful inspiration and useful design meld together. Where surprises lay around every corner, like a unique look inspired by man's best friend – wearing sunglasses no less. Woof!

Nissan cube SL shown in Brilliant Silver with optional equipment.

MAKE SOME WAVES.

Ripples on the headliner, over the audio speakers – even at the bottom of the cup holders. It's an unusual interior with inviting curves. So take a look around, there's lots of artful inspiration to be found.

LINGER LONGER.

This is a zone where loitering is encouraged. Grab four friends and go. Or stay. Wrapped in funky fabric, every seat features sofa-like comfort, inviting everyone to hang out. The rear seats slide, recline, and are raised up slightly higher like in a theater, giving passengers back there a better view.¹ Not to mention a better connection with those up front. With cube,[®] it's easy to stay in touch with your entire social network.

Nissan cube SL shown in Gray Cloth with optional equipment.

¹Seats should always be in an upright position when vehicle is in motion.

THE FEELING OF BEING TOTALLY WELL-ROUNDED.

You might think that a car named cube is nothing but angles. But inside, you'll find a surprise. A dash that's all about curves and contours. Oval-shaped vents turned side-ways and positioned for optimal air circulation. An available circular Automatic Temperature Control (ATC) interface catches the eye and is easy to use. See? Art can be handy.

MIX IT UP. MAKE IT YOURS.

Personalize cube® with tons of Genuine Nissan Accessories,¹ from a shag rug on the dash to colorful interior accent lighting. Change things up all you want – outcomes are nearly limitless.

brilliant silver

gray

Interior Accent Lighting. Add splashes of light to the footwells and cup holders. LEDs cycle through 20 colors, or adjust with a knob.

¹Every Genuine Nissan Accessory is custom-fit, custom-designed and durability-tested. Each one is backed by Nissan's 3-year/36,000-mile limited warranty and can be financed when installed by dealer at time of purchase. See your Nissan dealer for more information on cube® accessories, or log on to parts.NissanUSA.com

One of the many Genuine Nissan Accessories available for cube,[®] a rear cargo organizer levels the playing field, offering a flat surface flush with the folded rear seatbacks and two storage bins, including one that's lockable.^{1,2}

The available accessory utility pouch hangs from one of the ripple hooks and stashes your sunglasses, iPod[®] – whatever you can't live without – close at hand.

Strap your stuff up. The available accessory front door bungees create clever spots to hold and display small things that would otherwise float around the cabin.

HOLD IT RIGHT THERE.

cube[®] is loaded with inspiration. It's loaded with personalization. Now it's time to load it up with everything else. The unique back door is hinged at the side like a fridge, making it easy to handle in any situation. In a tight spot? Grabbing a small item? Open it just a little. Got all the room in the world? Swing it wide. With a firm hold on versatility, cube makes life that much easier.

58.1^{2,3}

CU. FT.

The ultimate in convenience, 60/40 split fold-down rear seatbacks open up over 58 cubic feet of practicality.

¹Every Genuine Nissan Accessory is custom-fit, custom-designed and durability-tested. Each one is backed by Nissan's 3-year/36,000-mile limited warranty and can be financed when installed by dealer at time of purchase. ²Cargo and load capacity limited by weight and distribution. Always secure all cargo. ³Cargo volume with rear seats folded down. [®]iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included.

TECHNOCUBICALLY ADVANCED.

cube® has the stuff you won't want to live without. Like a smarter way to get inside, hands-free calling, an awesome stereo, even gauges that bring the cosmos to you. Everything revolves around you now.

iPod® Display

3-D Perspective Mapping¹

Points of Interest²,⁷

Real-time NavTraffic²

Incoming Phone Calls³

RearView Monitor⁴

5-inch touch-screen display opens up a whole new world of available features. Chart your course on the available Nissan Navigation System, with real-time traffic advisories via NavTraffic keeping you on the move.^{1,2} See your incoming Bluetooth® calls.³ And with the available USB port, connect your iPod® or USB flash drive and scroll your playlists.^{4,5} You can even get a better look at what's right behind you, thanks to the available RearView Monitor.⁶ One screen. So many possibilities.

Moon and Earth, together forever. The multicolor gauges light up in gray for the tachometer and blue for the speedometer. A bit of celestial inspiration that's both unique and great for visibility.

The available Nissan Intelligent Key® makes traditional locks and keys practically obsolete. By signaling cube that you're nearby, doors unlock right from the door handle and the engine starts with just the press of a button on the dash. All while the key camps out in your pocket or purse.

cube's available premium audio system features six upgraded speakers, including two tweeters, plus a Rockford Fosgate subwoofer and amplifier. MP3/WMA CD playback and available SiriusXM Satellite Radio² serve up hours of uninterrupted music. Or choose an AM/FM/CD audio system. Either way, you can always hook up your MP3 player to the auxiliary audio input jack,⁴ or use the standard Interface System for iPod®.⁵

¹Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ²Required SiriusXM Satellite Radio, NavTraffic and NavWeather subscriptions sold separately after trial period. Installation costs, one-time activation fee, other fees and taxes will apply. NavTraffic available in select markets. Services available only to those 18 or older in the 48 contiguous states and D.C. Fees and programming subject to change. Subscriptions governed by Customer Agreement available at siriusxm.com. ©2012 Sirius XM Radio Inc. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. ³Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. ⁴Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. ⁵Always give your full attention to driving. Avoid operating your iPod® in such a way that you can be distracted during vehicle operation. See dealer for details. iPod is a registered trademark of Apple, Inc. All rights reserved. iPod not included. ⁶Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁷Certain remote functions require compatible phone, not included with vehicle. Cellular network provided by independent cellular companies not within Nissan's control. Cellular network not available in all areas. Certain connected vehicle services, including but not limited to Points of Interest and Send-to-Car, may require subscription and owner consent to activate. Should service provider terminate/restrict service, service may be suspended or terminated without notice or liability to Nissan and/or its agents. Nissan not responsible for any equipment replacement or upgrades, or associated costs, that may be required for continued operation due to service changes. Standard text rates, voice minutes, roaming charges and/or data usage may apply.

Nissan cube SL shown in Gray Cloth with optional equipment.

THE FEELING OF MAKING FRIENDS WITH THE PLANET.

The 2013 cube® wears the PUREDRIVE™ badge, meaning it meets or exceeds the industry-average US Federal CAFE standards for model-year 2016. The PUREDRIVE™ initiative is just one aspect of Nissan's commitment to developing greener, more environmentally friendly transportation for everyone – and that's something we can all smile about.¹

27/31²
MPG/CITY MPG/HWY

Small in Size, Big on Smarts. Turn your road trip into an extended adventure. cube® gets up to 27 MPG just tooling around the city and a whopping 31 MPG on the highway.² It's got plenty of get-up-and-go too, thanks to a quick-responding 1.8-liter 4-cylinder engine delivering 122 hp and 127 lb-ft of torque.³ Fun and fashionable can be practical, too.

Light on Maintenance. cube is ready for the long haul right out of the box. It wears a maintenance-free metal timing chain that doesn't need to be replaced like a rubber timing belt. It also comes with iridium-tipped spark plugs that last 105,000 miles.⁴

Unconventionally driven. The available intelligent CVT (Continuously Variable Transmission) is virtually gearless, making every trip seem smooth and effortless. It's always operating in the sweet spot, so when you accelerate CVT maintains engine rpm, letting you ride a seamless wave of power. But if shifting is your thing, choose the 6-speed manual for more control.

¹Adoption criteria based upon US Federal CAFE standards as of July 2011 for MY 2016. Federal standards subject to change by US Government. ²2013 EPA fuel economy estimate. 27 city/31 highway with CVT transmission. Actual mileage may vary with driving conditions – use for comparison only. ³CA emissions (SULEV) equipment causes nominal reductions in horsepower (from 122 hp to 118 hp) and torque (from 127 lb-ft to 122 lb-ft). ⁴Under normal driving conditions with routine fluid/filter changes. See Owner's Manual for details.

SEE AND BE SEEN.

Talk about minimal effort, maximum ease. With a huge window that wraps around the right rear corner, cube gives the driver excellent visibility by design. It's agile too, with a super-snug turning radius that makes tight maneuvers a cinch. Then an available RearView Monitor helps you see objects directly behind you.¹ Fun to drive, easy to love – that's cube.

Nissan cube SL shown in Cayenne Red with optional equipment.

¹Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.

A detailed illustration of a car's interior from the driver's perspective, showing the front and rear seats. Several air bags are deployed: a large front passenger air bag on the left, a driver's knee air bag in the center, two side-impact air bags on the outer edges of the front seats, and two rear head-curtain air bags along the back of the front seats. The seats are a light beige color with a textured pattern. The background is a soft, warm gradient of yellow and orange.

IT'S AN ALL-INCLUSIVE WORLD, SO SAFETY RIDES SHOTGUN.

Six standard air bags¹

Standard front-seat Active Head Restraints

Standard Vehicle Dynamic Control (VDC)²

Standard Traction Control System (TCS)

Three standard advanced braking technologies

Six standard air bags. In frontal crashes, the Nissan Advanced Air Bag System has the smarts to know which dual-stage supplemental front air bags to deploy and how quickly they should inflate. A variety of sensors determines the severity of the collision, front-row seat belt usage and whether there's a front-seat passenger, helping tailor the response to the situation as much as possible. Front-seat-mounted side-impact supplemental air bags are also built into the seats, so they move with you as you adjust your seat. And standard roof-mounted curtain side-impact supplemental air bags provide additional head protection to front and rear outboard seat occupants.¹

Standard front-seat Active Head Restraints. cube® also features the protection of front-seat Active Head Restraints. During a rear-end impact, they move up and forward toward your head to meet it part of the way, helping close the gap and helping reduce the chances of getting a whiplash-type injury.

Standard Vehicle Dynamic Control (VDC). Life may throw you some curves, and cube helps you handle them more confidently. The standard VDC constantly monitors your steering and braking inputs and compares them to your actual path. If cube begins to oversteer (fishtail) or understeer (plow forward), VDC senses this and can reduce engine power and/or apply appropriate brake pressure to specific wheels, helping keep you on your steered path.²

Standard Traction Control System (TCS). Sometimes you need a little extra help getting a grip. So when TCS senses a front wheel starting to slip, it reduces engine power and/or applies the front brakes to help maintain traction.

Three standard advanced braking technologies. Nobody can say what might suddenly pop up in the road, but cube can help you avoid it with its standard Anti-lock Braking System (ABS). Pumping the brakes faster than humanly possible during panic braking helps prevent the wheels from locking, so you can maintain steering control. Brake Assist helps even more by automatically applying maximum brake pressure when it senses emergency braking. And Electronic Brake force Distribution (EBD) sends extra force to the rear brakes when the back seat is full or you've just filled up the gas tank.

Brake Override Technology. Like every Nissan since 2005, cube comes standard with Brake Override Technology. It's designed to help slow down your vehicle and bring it to a safe stop in an emergency by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

Zone Body construction. A strong body structure with crossmembers and rigid reinforcements, front and rear crumple zones, and high-strength steel side-door guard beams all help protect you and your passengers in the event of an impact.

snug-kids® Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: An industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at **NissanUSA.com/SnugKids**.

¹Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment. ²VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

Buying and owning a Nissan is like driving one: quick, convenient, confidence-inspiring.

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile basic coverage and 5-year/60,000-mile powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus.® For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus.® This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan's philosophy toward the environment, "Seeking a symbiosis of people, vehicles and nature," describes our ideal for a sustainable mobile society, now and in the future. We launched the Nissan Green Program with specific objectives to realize this goal, and we are pursuing it energetically. For more information, log on to NissanUSA.com/green

Nissan. Innovation that excites.™

NISSAN cube®

Shouldn't you drive something you love? Absolutely. And that's what inspires our innovation. We look at every part of your drive and ask how can we make this better, smarter and more fun. So when you get in your new cube®, you'll feel how exciting the answers can be:

Curvy cues. From the asymmetrical rear glass and not-shy rear bumper to the rounded windows that frame you like a picture, cube loves to throw you a curve.

Loungey Interior. Flowing contours and sofa-like seating are specifically designed to create a social space. A wavy ripple motif adds to the friendly ambience.

Your own canvas. cube is made for self-expression, with accessories like colorful trim appliqués, LED accent lighting and a shag – yes, shag – dash topper.

Endless tunes. With the standard iPod® interface, you've got your playlists on board, and you can control your iPod® right through cube's audio system.¹
