

GX

2011 LEXUS

 **LEXUS**
THE PURSUIT OF PERFECTION.

the 2011 GX

THE PURSUIT OF PERFECTION.

It is a philosophy that extends well beyond the confines of meticulously assembled sheet metal. An approach to the automobile not as a machine, but rather, an art form. Every curve, deliberate. Every detail, inspired. And where every aspect of the ownership experience is intended to be as rewarding and accommodating as the vehicles themselves. Because while there are certainly easier ways to build an automobile, pursuing perfection is the only way to create a Lexus.

With outstanding craftsmanship and innovation in every 2011 GX, you can experience the comfort of owning a true luxury vehicle and enjoy all of life's perfect moments.

Vehicle shown with available equipment.

it's more than
a vehicle,
it's a solution.

The search for a seven-passenger utility vehicle is often laden with questions: Should it be powerful or efficient? Capable or luxurious?

Designed for on-road or off-road use? Allow us to offer the definitive answer: the 2011 GX. It features a 301-horsepower⁹ engine with the best fuel economy ratings in its V8 class. As well as a uniquely designed suspension that enhances performance off-road and on. Most importantly, it's a Lexus. Which means you'll find all the luxury and advanced safety features you've come to expect. Along with a variety of innovations to help you handle the extreme as deftly as the routine. Which doesn't just make the decision easy. It makes it unquestionably so.

take your great room with you.

Remarkably spacious, with a host of accommodations, you'll be hard-pressed to find a finer home away from home. Take the front seats. Trimmed in double-stitched premium or available semi-aniline leather, they come standard with heating and ventilation—a first for a V8 in its class. Making the cabin even more comfortable: an available heated steering wheel, available exquisite auburn bubinga wood accents, and an available smog-sensing three-zone climate-control system that automatically recirculates the interior air if certain pollutants are detected outside.

imagine, a utility
vehicle that's designed
to be utilized.

STEP-IN SECOND-ROW ENTRANCE

How practical is a third row if it's inconvenient to get to? The GX was designed with right-side second-row seating that tilts and slides forward in a single motion, so passengers can step into the third row with ease.

FOLD-FLAT POWER THIRD-ROW

The GX features third-row seats that can instantly fold flat by pressing a button located in the cargo area or near the right-side second-row seat. And with 40/20/40 split-second-row seats that can easily fold forward, accommodating cargo of all shapes and sizes is every bit as effortless as it should be.

DUAL REAR-SEAT ENTERTAINMENT SYSTEM

At last, something both siblings can agree on. This available system enables two video sources to be viewed at the same time. Using a single remote control, one can be used as a DVD player, for instance, and the other as a game console or audio player (via A/V inputs). Wireless headphones⁷ are also included.

It's a trade-off that most off-road enthusiasts have come to accept: A suspension that's ideal for handling boulders is the worst for rounding curves. Fortunately, Lexus engineers weren't so willing to compromise. The ingenious Kinetic Dynamic Suspension System (KDSS) on the GX was designed to change with the terrain. By automatically tightening the front and rear stabilizer bars when on-road, the system helps to minimize body sway while cornering. And an available Adaptive Variable Suspension enhances on-road performance even further by offering three settings, enabling the driver to tune the suspension to their desired level of road feel.

shouldn't
an off-road vehicle
only handle like
an off-road vehicle
when it's off-road?

Capability doesn't need to be complicated. In addition to full-time 4WD, the GX offers an available Crawl Control system that, with the push of a button, takes the guesswork out of accelerating and braking, further enhancing your traction and leaving you with a considerably less daunting task: steering.

to instantly become
an off-roading expert,
press button and steer.

AVAILABLE CRAWL CONTROL

Think of it as the off-road equivalent of cruise control. The available Crawl Control system carefully manages the engine and brakes to help you maintain a slow, consistent speed up, down and over rugged terrain. All without your feet ever touching the pedals. And, for added control, you can alternate between three speeds using a toggle switch.

whether building a GX or driving one, nothing should be overlooked.

Our obsession with visibility goes far beyond the innovative camera- and radar-based systems available on the GX. It begins in the factory, where impeccable vision isn't just valued, it's required. Hundreds of inspectors check thousands of points on every GX in search of flaws. And specially designed computers take and analyze thousands of images to ensure blemishes that would be virtually invisible to the human eye are corrected. Excessive? This is Lexus—there's no such thing.

4-CAMERA AROUND VIEW MONITOR

The GX offers an available 4-Camera Around View Monitor. When the available Multi-Terrain Select is engaged and the vehicle is driving at low speeds, the 4-camera around view monitor displays the surrounding terrain.

PRE-COLLISION SYSTEM¹⁸ WITH DRIVER ATTENTION MONITOR

By monitoring everything from the direction of your face to the speed of a potential frontal collision, this available system is designed to help warn the driver of objects ahead and to help reduce impact speed and collision damage should an accident occur.

LANE DEPARTURE ALERT

Using a small front-mounted camera that monitors the lane markings on certain types of roads, this available feature is designed to help detect if the GX is beginning to drift out of its lane. If so, it alerts you with a visual warning and a series of beeps.

THE DEALERSHIP EXPERIENCE

When you visit one of our dealerships, make yourself at home by helping yourself to a beverage and internet access.† When picking up your new Lexus, our associates will make the transition seamless. We can help you with everything from setting your favourite radio stations to connecting and transferring your compatible cell phone's contacts to the available *Bluetooth*® system on your vehicle. Rest assured your car will experience the finest treatment as well, with a complimentary car wash with every service.

CLUB LEXUS

A complimentary Club Lexus membership is offered to all new, pre-owned or leased Lexus owners. Club Lexus provides an exceptional compilation of services, offers, special events, and pertinent information that's of interest to Lexus drivers. You can also view your service history, the status of your factory warranty or Extra Care Protection (ECP) coverage, and the current status of your Lexus Financial Services (LFS) loan or lease. Sign up today and start taking advantage of all of the features at www.clublexus.ca.

Lexus LIFESTYLE COLLECTION

Enhance your ownership experience even further with the "The Lexus Lifestyle Collection" Catalogue. Every year, Lexus assembles a wide range of brand name products that exemplify the finest design and craftsmanship in the world, which include designer luggage, Lexus apparel, stunning watches, Royal Doulton Glassware and much more. An exceptional item can be found for every driver.

To learn more about the various exclusive services that Lexus offers, please visit www.lexus.ca.

SERVICE COMMITMENT

On top of enjoying the highest quality product, Lexus also delivers through a professional Dealer network, a unique and uncompromising level of after-sales service: First Class Service Concept. The highest level of professionalism and vehicle support ensure that the Lexus ownership experience is as luxurious as the vehicles.

MAINTENANCE

We offer the first two scheduled maintenance services at no charge to you. The first service at 1,600 km will include a thorough vehicle inspection and a road test. The second inspection at 8,000 km will include a change of engine oil and oil filter.

EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

WARRANTY

Our Lexus Warranty Comprehensive Coverage includes:

- 48 months/80,000 km (includes tires).
- Powertrain: 72 months/110,000 km.
- Corrosion Perforation: 72 months/unlimited kilometres.
- Major Emission Control Components: 96 months/130,000 km.

Please see your Lexus Dealer for details.

Lexus will even provide five days of alternate transportation if your vehicle is required to stay at the dealership for an extended period of time due to a warrantable condition.

ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle, you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year, we will be there to help.

THE BEST WAY TO FINANCE YOUR NEW GX - EASILY, QUICKLY, AFFORDABLY.

Lexus Financial Services does nothing but finance or lease Lexus vehicles; thus, we know financing and we know Lexus. • Our interest rates are fully competitive and our terms flexible (up to 72 months). • Since we offer Web services, you can: A: check out our rate; B: save time by getting credit approved on-line - before checking out the vehicle(s) of your interest. • Finally, one-stop shopping (at all Lexus Dealerships) saves you time. We invite you to visit us at lexus.ca or call us at 1-800-26-LEXUS.

LEXUS CANADA. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Your Lexus Dealer is the best source for up-to-date information.

Lexus invites you to join us in Club Lexus, a very exceptional compilation of services, offers, special events and pertinent information available only to Lexus owners. To register for Club Lexus, please visit lexus.ca or call 1-800-26-LEXUS.

Lexus is always looking for new ways to be respectful of the environment. As part of this effort, this paper contains post-consumer recycled material and has earned the Mixed Sources label as designated by the Forest Stewardship Council.

1. The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System *Owner's Manual* for further details. Navigational systems in some vehicles are available with bilingual capability. XM NavTraffic® requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. NavTraffic will only be available in Montreal, Vancouver and Toronto. Both Montreal and Vancouver will only have incident data and Toronto will have both incident and flow data. 2. The backup camera, available only with the Navigation System, does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. 3. Mark Levinson is a registered trademark of Madrigal Audio Labs, Inc. a division of Harman International. 4. Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. 5. iPod is a registered trademark of Apple Inc. 6. Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual capability. 7. Headphones are for passenger use only. Do not use while operating vehicle. 8. Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 9. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. 10. Continuous average power, all channels driven, at less than 0.1% THD; 20-20,000 Hz. 11. FUEL CONSUMPTION RATING. These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of the vehicle may vary. Refer to the Government of Canada publication *EnerGuide Fuel Consumption Guide*. 12. Vehicle Stability Control (VSC) and if applicable Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 13. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 14. DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 15. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. 16. The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. 17. All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your *Owner's Manual* for further information/warnings. 18. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 19. HomeLink is a registered trademark of Johnson Controls. 20. TORSEN® is a registered trademark of Zexel Torsen, Inc. 21. Roof rack capacity is 130 lb. Crossbars are not recommended for luggage. Please see your *Owner's Manual* for details. 22. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. 23. Dynamic Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important cautions and instructions.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package.

Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached.

Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely.
