

2015 HYUNDAI
TUCSON

TUCSON LIMITED Tech Package in Winter White

YOUR WANTS JUST MET YOUR NEEDS. AND THEY'RE GETTING ALONG PERFECTLY.

At Hyundai, we know the way you live – always on the go. And to help get you where you're going, the 2015 Tucson offers you a choice of engines. Whether you select your Tucson with a 2.0-liter or 2.4-liter powerplant, you'll experience performance that's refined. Responsive. And efficient. One reason? Gasoline Direct Injection, a technology that helps our engines make the very most out of every drop of fuel.

And who says a crossover can't ride like a luxury car? Not Tucson. Its SACHS® Amplitude Selective Damping (ASD) suspension technology is also found on our Genesis and Equus luxury sedans. Bluetooth® voice-command controls and wireless audio streaming await you inside. Also standard: Refinements like two-stage reclining rear seats, steering wheel audio, phone and cruise controls, and illuminated front cupholders.

Tucson Limited is available with Hyundai Blue Link®, our innovative suite of vehicle communication technologies that bring infotainment, service and safety together in one highly intelligent system.¹ Access Blue Link through your smartphone, web application or in-car system to find new places, check vehicle diagnostics, call for help and more. The press of a button or the sound of your voice is all it takes to put Blue Link's power to use.

¹ Only use Blue Link and corresponding devices when it is safe to do so. Blue Link is available on most 2014-2015 Hyundai vehicles. Blue Link subscription service agreement required. Features vary by subscription plan. Blue Link service works using CDMA-based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage, particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For additional details and system limitations, visit HyundaiBlueLink.com.

PREMIUM AUDIO An available 360-Watt, 7-speaker premium audio system lets you enjoy your music from a variety of sources. There's SiriusXM® Satellite Radio or Pandora® streaming from your compatible device.¹ Available 4.3" or 7" color touchscreens give you added convenience and command on Tucson's center console.

HYUNDAI BLUE LINK Our innovative telematics let you search for points of interest using voice commands and download them to the navigation system. If your Hyundai is stolen, Blue Link can immobilize it. A mobile app even lets you lock, unlock and start your car remotely.² For a full list of features, visit HyundaiBlueLink.com.

TUCSON LIMITED Tech Package in Beige Leather

Modern Design

THE MEASURE OF GREATNESS.

We'll save you from breaking out the yardstick: Tucson has up to 55.8 cubic feet of rear cargo space, and more passenger volume than the 2014 Ford Escape. Two-stage reclining 60/40 split rear seats add even more passenger comfort and storage versatility.

An available navigation system with NavTraffic® adds convenience to your comfort with a large 7" touchscreen display that's easy to read at a glance.¹ The center console display is also your portal to Hyundai Blue Link – a suite of infotainment, safety and service features that brings some of the best things about living in this digital age along for the ride.

For 2015, a new Popular Equipment Package on Tucson GLS bundles leatherette-trimmed seats, a power driver's seat with power lumbar, automatic headlight control and a 4.3" color audio display that also serves as a monitor for the rearview camera.

Available features also include a power panoramic sunroof and heated front seats. The Tucson's dual-zone automatic temperature control features a CleanAir Ionizer. Even the front windshield wipers aspire to greatness, thanks to a built-in de-icer.

COMFORT AND TECHNOLOGY HIGHLIGHTS

(See specifications section for availability by model)

- PROXIMITY KEY ENTRY WITH PUSH-BUTTON START
- 7" LCD TOUCHSCREEN WITH REARVIEW CAMERA
- 360-WATT PREMIUM AUDIO SYSTEM WITH 7 SPEAKERS
- BLUETOOTH® WITH VOICE COMMANDS AND WIRELESS STREAMING AUDIO
- PANORAMIC SUNROOF
- 6-WAY ADJUSTABLE DRIVER SEAT
- 60/40 SPLIT FOLD-DOWN REAR SEATBACK

MULTIMEDIA TOUCHSCREEN

7-inch LCD

¹ All SiriusXM services require a subscription, sold separately by SiriusXM after a free 3-month trial period. Fees and taxes apply. All fees and programming are subject to change. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. ² Remote Vehicle Start is available for push-button start equipped vehicles with an automatic transmission. Not available on all models.

ALL WHEEL GRIP To help optimize traction when the going gets tricky, Tucson's available All Wheel Drive continuously varies the torque transfer between front and rear wheels automatically. Drivers can also select the 50/50 torque-split setting to balance power between front and rear wheels in snow or sand conditions.

HILLS UNDER CONTROL Tucson is the only vehicle in its segment with standard Downhill Brake Control, which helps maintain speed when easing down steep descents. Also standard is Hillstart Assist Control, which helps minimize backward rolling as you release your foot from the brake on uphill slopes.

TUCSON LIMITED Tech Package in Winter White

Distinctive Engineering

GIVE YOUR RIDE AN INTELLIGENCE TEST.

When you're out for a test drive, be sure to do a U-turn in the vehicle you're evaluating. How well it does is a sign of intelligent engineering. Spoiler alert: Tucson's turning radius is more than 2 feet tighter than the 2014 Honda CR-V. That's sure to make parallel parking in tight spaces a whole lot easier. Making you look a whole lot smarter.

Tucson is clever enough to outmaneuver gas stations, too. An advanced technology called Gasoline Direct Injection makes our engines some of the most powerful in their class – while still achieving remarkable fuel economy. The standard 2.0L engine delivers 164 HP with an EPA-estimated 29 MPG highway rating. The available 2.4L powerplant, 182 HP with an EPA-estimated 28 MPG highway rating.¹

Advanced Electronic Stability Control is also onboard, along with a highly responsive rear multi-link suspension and state-of-the-art SACHS ASD shock absorbers that seamlessly optimize handling control and ride comfort. Another innovation, Active ECO System, modifies engine and transmission control for improved fuel economy when engaged. Power is transferred to the pavement with a 6-speed SHIFTRONIC[®] automatic transmission that lets you choose whether you want to shift actively, or sit back...and relax.

¹ Fuel economy with front-wheel drive estimated by EPA for comparison only. Your actual mileage may vary with options, driving conditions, driving habits and the vehicle's condition. ² Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. The Traction Control System is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

PERFORMANCE AND SAFETY HIGHLIGHTS

(See specifications section for availability by model)

- GASOLINE DIRECT INJECTION
- REAR MULTI-LINK SUSPENSION
- SACHS[®] ASD SHOCK ABSORBERS
- VEHICLE STABILITY MANAGEMENT
- ELECTRONIC STABILITY AND TRACTION CONTROL SYSTEMS²
- 17" OR 18" ALLOY WHEELS
- 6-SPEED SHIFTRONIC[®] AUTOMATIC TRANSMISSION
- PROJECTOR HEADLIGHTS WITH LED ACCENTS
- ADVANCED ELECTRONIC ALL WHEEL DRIVE
