# Why Buy Genuine Land Rover KIT?

**KIT: The Land Rover Retailer-fitted vehicle accessory range engineered specifically for Land Rovers**

Just as all Land Rover vehicles deliver outstanding on- and off-road performance, so do the extensive range of Land Rover engineering-approved accessories. As a complement to the Land Rover owner's lifestyle, these accessories are engineered to ensure seamless integration with Land Rover vehicles.

KIT has no equal — ranking above any aftermarket counterpart — when it comes to proper performance with Land Rovers. Here's why:

## **PREDICTIVE ANALYSIS**

Using the latest predictive stress analysis methods validates the safety and durability of Land Rover KIT.

## **VIRTUAL ENGINEERING**

Computer-Aided Design helps ensure that accessories are conceived to complement the vehicle's lines and stylish looks. This ensures the high quality of fit and finish one expects from Land Rover.

## **ENVIRONMENTAL**

Different climates provide different challenges for these accessories. Land Rover KIT is tested under a range of climate conditions to ensure quality performance.

## **DURABILITY**

All accessories undergo the same test plan as the vehicles themselves — rigorously analyzed far beyond the extremes of normal customer use.

## **RIG TESTING**

Heavily integrated parts, such as roof bars, are developed and tested very early on during vehicle development to ensure seamless compatibility.

## **WARRANTY**

Every accessory includes a warranty that begins on the date of purchase of the accessory and is covered for 12 months unlimited mileage or the balance of the new vehicle/emissions warranty, whichever is greater. See your Retailer for details.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. Although Land Rover takes the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted. These products vary from market to market. Please consult your Land Rover Retailer, who will be pleased to advise you on current specifications.
