## LAND ROVER LR2 VEHICLE KIT

Add style or add practicality. You can add both with LR2's exceptional range of specialized accessories. This is the perfect opportunity to tailor the vehicle to your personal activities and tastes while adding distinguished styling cues.

The truly comprehensive range features carrying and towing options as well as exterior and interior styling additions. Importantly, all LR2 accessories are available individually, at any stage in the vehicle's life — not just when it's new. Seasonal or year-round, for extreme sports or touring activities, the great outdoors or the demands of urban life — we've got everything you need to get geared up. In fact, LR2 is as versatile as you need it to be.

## Why Buy Genuine Land Rover KIT?

**KIT: The Land Rover Retailer-fitted vehicle accessory range engineered specifically for Land Rovers**

Just as all Land Rover vehicles deliver outstanding on- and off-road performance, so does the extensive range of Land Rover engineering-approved accessories. As a complement to the Land Rover owner's lifestyle, these accessories are engineered to ensure seamless integration with Land Rover vehicles.

KIT has no equal — ranking above any aftermarket counterpart — when it comes to proper performance with Land Rovers. Here's why:

### PREDICTIVE ANALYSIS

Using the latest predictive stress analysis methods validates the safety and durability of Land Rover KIT.

### VIRTUAL ENGINEERING

Computer-Aided Design helps ensure that accessories are conceived to complement the vehicle's lines and stylish looks. This ensures the high quality of fit and finish one expects from Land Rover.

### ENVIRONMENTAL

Different climates provide different challenges for these accessories. Land Rover KIT is tested under a range of climate conditions to ensure quality performance.

### DURABILITY

All accessories undergo the same test plan as the vehicles themselves — rigorously analyzed far beyond the extremes of normal customer use.

### RIG TESTING

Heavily integrated parts, such as roof bars, are developed and tested very early on during vehicle development to ensure seamless compatibility.

### WARRANTY

The genuine Land Rover vehicle accessory warranty commences on the date of purchase of the accessory and is covered for 12 months unlimited mileage or the balance of the new vehicle/emissions warranty, whichever is greater.

# landrover.com/ourplanet

Our commitment is to a sustainable future. In everything from the design of our vehicles and the way we build them to how and where we use them and — at the end of their life — how they can be safely disposed of, Land Rover is committed to a sustainable future. We're committed to reducing our impact on the environment and are working in four key areas.

## e\_TERRAIN TECHNOLOGIES

In 2007, we announced a joint investment into new technologies to improve the environmental performance of our vehicles. This joint investment now stands at \$1.3 billion. In 2008, we revealed our new concept vehicle, the LRX: a Land Rover in body and spirit but conceived as a hybrid 2.0-liter diesel with potential CO<sub>2</sub> emissions of 120g/km.

## SUSTAINABLE MANUFACTURING

World-class manufacturing facilities. Certified to ISO 14001 since 1998. Our manufacturing facilities at Solihull and Halewood have reduced emissions by around 4 percent year on year, over the past 5 years. Total energy used in manufacturing each vehicle has been reduced by 19 percent since 2002 while water use per vehicle has been cut by 14 percent over the same period. We're also offsetting all CO<sub>2</sub> emissions by the manufacturing assembly of Land Rover vehicles at both plants. Partnered with specialist organization Climate Care, our projects include a wind farm in China and hydroelectric generators in Tajikistan. In addition, Land Rover vehicles are now designed to be 85 percent recyclable, with all current models meeting the European End of Life Vehicles Directive. Sustainable and recyclable materials play an important role too: LR2 contains 10 percent recycled and 10 percent renewable materials.

## CO<sub>2</sub> OFFSETTING

In 2006, in the UK, we launched a pioneering program for customers, independently administered by Climate Care, to offset CO<sub>2</sub> emissions for the first 45,000 miles of all new Land Rovers. This program is being rolled out progressively to other countries around the world. We're also the first automotive company to offset 100 percent of our manufacturing assembly CO<sub>2</sub> emissions.

## GLOBAL CONSERVATION AND HUMANITARIAN PROJECTS

Land Rover vehicles are used by conservation and humanitarian organizations worldwide and are often the first choice for difficult tasks. Organizations include the Born Free Foundation, Biosphere Expeditions, Royal Geographical Society (with IBG), China Exploration and Research Society, and Earthwatch Institute. Our projects are diverse, ranging from an initiative to help with the protection of rare wolves in Ethiopia, to a project funded by our CO<sub>2</sub> offset program that provides efficient cooking stoves to rural parts of Uganda.

## OUR PLANET

We take our responsibility to our planet very seriously. Our vehicles are designed for purpose. As part of our Fragile Earth policy, Land Rover has actively promoted responsible off-road driving since 1990. Our Experience Centers teach drivers to understand the full potential and unique breadth of the capability of their vehicles while reducing their impact on nature and the environment in a wide range of activities.

The genuine Land Rover vehicle accessory warranty commences on the date of purchase of the accessory and is covered for 12 months unlimited mileage or the balance of the new vehicle/emissions warranty, whichever is greater. All Land Rover-approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and, importantly, continue to comply with current legislation.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. Although Land Rover takes the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted. These products vary from market to market. Please consult your Land Rover Retailer who will be pleased to advise you on current specifications. Distributors and Retailers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.

## **Genuine Land Rover KIT assures confidence**

Land Rover would like to remind you that accessories which are non-genuine Land Rover are not warranted by Land Rover North America and may not be serviceable at other Land Rover Retailer Centers. If your Land Rover Center or sales guide offers you non-genuine Land Rover parts or accessories, we recommend finding out whether they have a warranty, where they can be serviced, and what company provides these warranties and service.
