Rediscover the thrill of driving with the Volvo S60, the powerful, athletic and dramatic sedan designed to make every journey enjoyable – from the briefest of commutes to the most epic of road trips.

To Volvo Cars, building a car that's great to drive means balancing dynamism with comfort. It has to feel responsive, and yet it must maintain its poise at all times. And that's exactly what we have achieved with the S60.

What's more, it does so with a focus on refinement throughout. The cabin is fashioned to smooth away the miles. Scandinavian design and Swedish craftsmanship combine to create a cabin focused on putting you in control, made from beautiful materials. Technology that's so intuitive it makes every journey easier. And an exterior that will turn heads.

Confident and elegant, the S60 is built to inspire every journey. Feel the connection.

WHEN WE INNOVATE, THE CAR IS NOT TOP OF MIND.

We admit it. You fascinate us. We think and talk about you all day. Everything about your life – its ups and downs, joys and disappointments, needs, demands, frustrations and hopes – captivates us.

So when we innovate, every detail – from service design right down to the smallest screw – has to justify itself to you. Does it add anything? Is it useful?

We know you always want to feel in control. Our IntelliSafe technologies not only help to save lives, but also give you more enjoyment behind the wheel.

We know you want to stay connected to the world around you. Our Sensus solutions ensure you are.

We also know you care about the future of the planet. That's why our Drive-E technologies allow you to drive sustainably – without compromising on performance.

And we know you're interested in self-driving cars. Each day we take pioneering steps in our quest to deliver a safe and relaxing autonomous driving experience. The same goes for fully electrified powertrains. And even smarter services.

We happily walk the extra mile to give you what you want.

At Volvo, everything we do is designed around you.

You are why we innovate.

SCANDINAVIAN DESIGN

Confident, athletic and elegant, the S60 is the essence of good Scandinavian design. A dynamic sedan, one that projects confidence without shouting.

Crisp, sharp details enhance and complement the car's inherent strength and its sleek silhouette is an invitation to get in and drive. It's a drive that will inspire and excite you, one where effortless performance, an advanced chassis and intuitive technology combine to create a car that celebrates the joy of the road through the quality of its design.

From inside to out, the S60 is a sedan that will be a delight to the senses, whatever the driving situation.

The deeply-sculpted flanks make the S60 instantly recognizable and define the car's athletic character. At night, the distinctive LED taillights emphasize the strong shoulder line.

19" 5-Triple Spoke Matte Black Diamond Cut Alloy Wheels help to make the S60 R-Design look even more dynamic and purposeful.

Discover a cabin full of beautiful details and technology that lets the driver enjoy every journey by allowing them to focus on driving. In R-Design trim, Contour seats provide exceptional side support while a sport steering wheel connects you to the car. Decor inlays made from aluminum provide a sleek, modern finishing touch.

T6 AWD | R-Design
Charcoal in Charcoal Interior | Metal Mesh Inlay

DESIGNED FOR YOU

Sit in the driver's seat of the S60 and you are in a place that has been designed for driving pleasure. The clean and uncluttered layout combines form and function. Details, such as the diamond pattern on the control knobs and the tailored dashboard, create a sense of purpose and of refinement.

The front seats are shaped to complement the human form, so they are exceptionally supportive and have a wide range of adjustment. In the rear, generous legroom and the same levels of seat support mean everyone will be comfortable.

The standard Panoramic Moonroof floods the cabin with light. It's tinted to reduce glare and has a powered sunshade. With 4-zone Electronic Climate Control, both front and outer rear seat occupants can select their ideal temperature, while our CleanZone technology filters incoming air to help remove dust, pollen, particulates and odors.

The distinctive air vents have controls with a metal finish and a diamond pattern on the knob. Metal Mesh Aluminum Inlays on the dashboard create a technical, contemporary look that complements the driver-focused cabin.

A tailored dashboard with contrasting stitching creates a luxurious, sophisticated look.

Swedish craftsmanship and fine materials in the S60 are an important part of your experience. The elegant Orrefors® crystal gear selector in the T8 Twin-Engine Inscription blends traditional techniques with advanced design and technology.

The Metal Mesh Aluminum decor is a modern and luxurious design touch, perfectly complementing the stainless steel speaker panels of the Bowers & Wilkins® audio system.

ADVANCED PERFORMANCE

The S60 is a car that will inspire you to drive. A car with a dynamic character. One that will heighten your senses and bring enjoyment to your driving. Fluent and perfectly balanced, it's capable of delivering both refined, long-distance comfort and an exciting drive.

The chassis in the S60 combines double wishbone front suspension and a unique integrally linked rear axle. It means that every input you make is matched with a precise and sharp reaction, while still ensuring a comfortable ride. On the R-Design trim, a standard sport chassis increases stability and quickens responses even further by lowering the ride height and adding stiffer springs and dampers.

Active chassis technology allows you to customize the way the S60 rides and handles, and the three adaptive drive modes let you tailor your driving experience further by altering the engine, transmission, accelerator and steering responses. Or you can create your own bespoke setup with Individual mode. However you configure it, the S60 is the perfect partner, whatever the journey.

The advanced engineering in the S60 delivers pure, dynamic driving pleasure. With double-wishbone front suspension similar to that found in sports cars, the S60 provides you with more precision and control more of the time.

PERFORMANCE WITHOUT COMPROMISE

Our range-topping plug-in hybrid, the T8 e-AWD Plug-In Hybrid, is the epitome of real driving satisfaction. Powering the front wheels is a 313-hp, turbocharged and supercharged gas engine. Power to the rear wheels comes from an 87 hp electric motor. This means you get all the benefits of electrification with the performance of a powerful internal combustion engine.

And for those who enjoy taking the long way home, the S60 T8 Polestar Engineered adds lightweight forged wheels, high-performance Brembo brakes and a stiffer, lowered chassis with Öhlins dampers. All fine-tuned by the performance experts

at Polestar, they create an inspired, dynamic and intuitive driving experience.

Because it was designed to use a hybrid powertrain, the T8 e-AWD Plug-In Hybrid has the same space and capacity as other S60 models, so it's just as practical. Charging is quick and easy – you simply plug it into the grid supply.

Four drive modes allow you to change the car's character to suit the road ahead and even your mood. Pure provides electric-only power that will be enough to cover the average daily commute of many people. Switch to Power mode and the

turbocharged, supercharged gas engine and powerful electric motor work together to give you an instant response when you accelerate. An AWD mode sends power to all four wheels to help create extra traction in slippery conditions. And in default Hybrid mode, the T8 e-AWD Plug-In Hybrid chooses between the gas engine, electric motor or a combination of the two, to keep you moving as smoothly and efficiently as possible.

The S60 has been designed from the ground up with plug-in hybrid power in mind, so the batteries and electric motor are set lower in the chassis. This means more responsive, intuitive handling due to a lower center of gravity and more even weight distribution.

RESPONSIVE POWERTRAINS

Wherever you're headed, our powerful and refined gas powertrains make the driving experience a real pleasure. The T5 FWD balances responsiveness with efficiency, while the high-performance T6 AWD engine is both supercharged and turbocharged. Compact and light, these engines reduce weight over the front wheels, helping to improve agility and the way the car responds to your driving inputs. And because smaller engines lose less energy through friction, you'll find them more efficient – every drop of fuel works harder and helps minimize emissions and consumption.

With the T6 AWD gas powertrain, a combination of a supercharger and turbocharger ensures the engine's power is always available when you need it, from low-speed maneuvers to high-speed cruising. The T6 AWD also benefits from all-wheel drive, which can increase traction and grip when accelerating – helping in slippery conditions or when towing, for example.

All of our powertrains can be complemented by adaptive drive modes, allowing you to alter the way the S60 drives to suit the road ahead. Eco mode, for example, recalibrates the powertrain for the lowest possible fuel consumption and emissions, while Dynamic sharpens response times, reacting faster to your commands. And as the S60 comes with our 8-speed Geartronic™ automatic transmission, you will experience smooth, responsive gear changes. Opt for the R-Design trim and you can add unique paddle shifters, for easy and exact gear shifting.

T6 AWD | Inscription
Pebble Grey Metallic

PILOT ASSIST

Your journey made easier

Our advanced technology helps make your life easier, allowing you to relax and enjoy the drive while still being in control. Pilot Assist helps to reduce some of the effort required at higher speeds (up to 80 mph) or in stop-and-go traffic, so journeys are more enjoyable. It keeps the S60 at a set speed and distance from the vehicle in front, and uses steering inputs to help keep you in the center of your lane. This means that even in the most monotonous driving situations, such as on long highway journeys, your car helps take some of the strain and keeps you focused on the drive.

It does this using a combination of information from both a camera and a radar unit integrated into the S60's windshield, which the car uses to monitor its position relative to visible lane markings and the vehicle in front of you (if there is one).

Pilot Assist is connected to the drive modes of the S60, so in Eco mode there is the possibility of improved fuel efficiency, while if you opt for Dynamic, it will quicken the response to the speed of the vehicle in front.

This is our approach to technology – designed to make every journey you take safer and more relaxing.

Please note: The driver is always responsible for how the car is controlled, these are only supportive functions.

CITY SAFETY TECHNOLOGY

Your proactive partner on the road

Our advanced proactive safety technology helps you feel confident and in control. At the heart of this technology is City Safety. By helping you to keep a lookout and brake or steer away for you if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help avoid a collision or reduce impact. Our advanced Oncoming Mitigation by Braking technology – a Volvo Cars safety world first – can detect if there's

another vehicle driving towards you and brakes automatically to mitigate the impact.

Your Volvo can also support if you're forced into a rapid evasive action at speeds between 31 and 62 mph. As you begin to steer away, City Safety can help you do it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect copilot: proactive when it's needed, and staying discreet in the background the rest of the time.

Oncoming Mitigation by Braking

A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically in order to help reduce the effect of a collision.

Oncoming Lane Mitigation

If you drift across the lane markings and into the path of an oncoming vehicle, your car can alert you and gently help steer you back onto the correct path. This system does this using automatic steering assistance, helping you to avoid collisions with oncoming vehicles.

Lane Keeping Aid

The Lane Keeping Aid can gently help steer your car back into its lane if it senses you are about to inadvertently cross into a different lane. If this is not enough or if you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

Run-off Road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-off Road Mitigation detects you're about to leave the road unintentionally, it can provide steering input and, if necessary, brake support to help guide you back on track.

BLIS™

BLIS™ uses radar sensors at the rear of the car to monitor your surroundings, and can detect if vehicles have entered your blind spot or are approaching fast from behind. If you pull out into the path of an approaching vehicle it can also help alert you.

Driver Alert Control

If you are getting drowsy or inattentive at the wheel, Driver Alert Control can alert you and suggest a break. With Sensus Navigation, it can even guide you to a nearby and convenient location for a rest-stop.

Please note: The driver is always responsible for how the car is controlled, these are only supportive functions.

INTELLISAFE SURROUND

Perfect parking, every time

Every journey you will ever make begins and ends with the parking experience, which is why Volvo Cars has invested a lot of thought into developing solutions that make parking easier and help save you time. Your S60 can help find you a parking space, and even park itself.

If you want to take control of parking yourself, then the 360° camera and Park Assist sensors help you to park safely and easily. The 360° SurroundView Camera is there to help you with its bird's-eye view of your surroundings, shown on the center display.

And for even simpler, safer parking, Park Assist Pilot is like having someone park your car for you. It will tell you if a space is big enough and then takes over the steering for the parking maneuver. It can park in a space just 1.2 times the length of your Volvo – all you need to do is accelerate and brake according to the prompts on the driver display.

Then, when you leave a parking space, Cross Traffic Alert helps you to avoid a collision when you reverse out. It warns you of vehicles, pedestrians and cyclists approaching from either side and can even brake for you if it detects an imminent collision.

360° SurroundView Camera

Our 360° SurroundView Camera provides you with a helpful bird's-eye view of your car and its surroundings on the 9" Sensus Touchscreen display in the cabin, so you'll be able to park simply and safely, with 100 percent visibility of what's around you.

PROTECTING WHAT'S MOST IMPORTANT

Protecting you and your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you in a collision. Everything, from the design of the seats to the surrounding safety cage and the seat belts and airbags, works together to help minimize the strain on all occupants and maximize protection.

The front seats not only provide world-class comfort, they are also designed to protect you in the event of an impact. Our unique whiplash injury protection helps

protect your back and neck if your car is hit from behind. And in a run-off road scenario, the energy-absorbing front seat structure will help protect your spine in a hard landing, should the car become airborne.

Your Volvo can even sense and prepare for impact. The prepared front seat belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur. And, in the event of an accident, your Volvo can automatically contact emergency services and communicate the car's location so that you can get help as quickly as possible.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your passengers in a controlled fashion.

SENSUS

The human touch

We set out to make living with your Volvo easier and more enjoyable. To do that, we understood that Sensus – Volvo Car’s name for the advanced technology that connects you to your car and the world around you – should have a natural, human feel.

Our 9" Sensus Touchscreen allows you to intuitively control the functions of your Volvo and stay connected. The touchscreen surface is so responsive that you can operate it wearing gloves. It also has an anti-reflective coating to help reduce glare, so it’s always easy to see what’s on the screen.

One of Volvo Car’s guiding principles is to make it easy for you to interact with your Volvo without being distracted. As a result, we put essential information right in front of the driver by using a 12.3" Digital Driver Display in the instrument panel. This high-resolution screen showcases key information for the driver and can vary the size and shape of the readouts it shows, depending on how you are using your car. For example, if you are using the navigation system, the display for that becomes enlarged, so you can focus on your directions more easily. The driver display also adapts its brightness according to exterior light sources such as bright sunshine or the lower light conditions of tunnels.

An optional Graphical Head-Up Display also projects information on to the windshield so it’s closer to your eyeline – another way of reducing any potential for distraction.

And with Voice Control, you can access many functions of the S60, while keeping your hands on the steering wheel and your eyes on the road at all times. As it uses natural speech patterns, you don’t need to learn specific commands – you can just talk to your Volvo as if you were talking to another person.

The 9" Sensus Touchscreen is the control center for Sensus. You can use it to operate the navigation, entertainment, climate control and your smartphone. Sleek and responsive, it looks beautiful and works beautifully – just how all technology should be.

T6 AWD | Inscription
Pebble Grey Metallic

Your well-connected guide

Intuitive technology in the S60 helps get you where you need to go quickly and easily. The clear graphics of Sensus Navigation are easy to read, while the portrait format of the center display means maps scroll less and are able to show more of the road that you are travelling on.

Our innovations also save you time by helping you to find what you're looking for, with built-in apps such as Google Search and Yelp. Find a gas station, a restaurant or a hotel and then use Sensus Navigation to take you there.

The S60 keeps you connected with your digital world with an onboard Wi-Fi hotspot and 4G connectivity. And connecting your phone to the car is as easy as plugging it in – Apple CarPlay® or Android Auto® will do the rest, turning the center display into an extension of your phone's screen.

Voice Control

Volvo Cars' latest voice recognition technology understands natural speech, so you can simply talk naturally to your car – there's no need to memorize specific phrases to operate climate control, navigation, media or telephone features.

Sensus Navigation

With its clear mapping, seamless connectivity and ease of use, Sensus Navigation is your companion on every drive, taking care of the journey and leaving you to enjoy every moment.

Smartphone Integration

Apple CarPlay® and Android Auto® allow you to simply and easily connect your smartphone to your car. All you need to do is plug it in and the center display will show you the same type of interface that you'll recognize from your phone's home screen.

PREMIUM SOUND

Hear the difference

Immerse yourself in the clarity and detail of your favorite music in the S60. By working with some of the world's finest audio makers, we've created an in-car experience that takes you closer to the music you love.

The S60 was designed with exceptional audio performance in mind. Audio systems from Bowers & Wilkins® and Harman/Kardon® ensure superb reproduction, every time. The advanced technology of the range-topping Bowers & Wilkins® package uses 15 speakers to deliver peerless 1100-watt performance, highlighted by the unique "open air" subwoofer, with its rich, resonant bass notes. This system also uses unique technology developed together with the Swedish audio software specialists Dirac Research that can change the in-car acoustics to resemble a performance space – one of

which is the Gothenburg Concert Hall – for a more lifelike sound.

Harman/Kardon® Premium Sound is our other high-level sound experience. It uses 14 speakers to surround you with music and delivers 600-watt of sound via a 12-channel amplifier. The Dirac Unison tuning software also automatically adjusts the intensity of the sound so that, when you are listening to different recordings or sources, you don't have to turn up the volume yourself.

And with seamless smartphone integration, enjoying music on your device is as easy as making a call, thanks to Apple CarPlay® and Android Auto®, while the Spotify® app grants you immediate in-car access to all the music you'll ever want.

We developed Harman/Kardon® Premium Sound together with the hi-fi specialists at Harman/Kardon®. Powered by a 600-watt digital amplifier, the 14 speakers are tailored to the acoustics inside your Volvo and deliver a powerful, high-fidelity surround sound. A unique sound processing software by audio specialists Dirac Research optimizes the response of each individual speaker as

well as the speakers all together to ensure they perform in perfect harmony. So wherever you're seated in the front or rear seats, you can enjoy a seamless first-class listening experience in all conditions and – not least – an extremely unified and tight bass sound.

Apple CarPlay® is a trademark of Apple Inc.
Android is a trademark of Google Inc.
Bowers & Wilkins® is a trademark of B&W Group, Ltd.

Bowers & Wilkins audio®. Experience class-leading audio with the Bowers & Wilkins® system. Seamless integration with the cabin architecture of the S60 delivers realistic, immersive sound, highlighted by its unique tweeter-on-top center speaker that minimizes acoustic reflection from the windshield.

VOLVO ON CALL

Your personal assistant

The Volvo On Call app connects your car with the rest of your world, helping make life less complicated. It's there when you need it, so your car becomes more than just a means of travel – it's your personal assistant.

You can use it to make your car ready for the drive to the office, or the drive home, by using remote start to heat or cool the cabin. It can even accept packages on your behalf. You can sync your Volvo On Call app with your calendar, so if you've got appointments it will tell your car where they are and how to get there. And it keeps you safe, automatically contacting emergency services if you're involved in an accident and telling them where you are.

YOUR DAY MADE EASIER WITH VOLVO ON CALL

From saving you time in the morning to helping you relax on the way home, Volvo On Call becomes an indispensable part of your daily routine.

THE PERFECT START
When you get into the car in the morning it's warm and defrosted, thanks to the Volvo On Call app's remote start function.

7:30 am

WHERE TO NEXT?
A calendar card shows your next meeting. You push a button in the app, sending the address to the car's navigation system.

11:00 am

FIND YOUR CAR
You've forgotten where you parked, so you use the car locator map to find the street and then use the flash lights function to pinpoint the car.

12:00 pm

DELIVERIES TO YOUR CAR
The shoes you ordered yesterday using In-car Delivery are delivered to the trunk of your Volvo.

You get a notification that your order has been delivered to your car.

1:00 pm

REMOTE CONTROL COMFORT
You set the remote start function to automatically warm the car interior so it's ready for when you leave the office.

5:15 pm

WI-FI ON THE GO
You head for home. Using the Wi-Fi hotspot, you can stream music via your phone to the car's audio system.

5:45 pm

READY FOR A NEW DAY
A notification reminds you that you've got a meeting in the morning. You send the location to the Sensus Navigation system so you are ready to go in the morning.

10:20 pm

T6 AWD | R-Design
Fusion Red Metallic

YOUR JOURNEY BEGINS HERE

We created the S60 with one single purpose: to provide you with a car that perfectly fits you and your active lifestyle. It's a sporty estate that meets your expectations of a dynamic drive with exceptional comfort and distinctive Scandinavian design – built with care for people and the world we share. And designed to be intuitive to use and to make life easier, the S60 is a pleasure to live with every day.

At the heart of your S60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you responsive power. Fuel consumption and CO₂ emissions are kept low, and our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced and gas and Plug-in Hybrid engines mated to our smooth eight-speed Geartronic™ automatic transmission available with responsive AWD all-wheel drive technology or front wheel drive.

And for the ultimate combination of performance and efficiency, there's the smooth and powerful T8 e-AWD Plug-In Hybrid powertrain.

Make your choice, and enjoy the journey wherever it takes you.

T8 e-AWD Plug-In Hybrid Polestar Engineered

The S60 T8 Polestar Engineered is a performance sedan with a powerful plug-in hybrid 400 hp/495 lb-ft powertrain, for a pure, dynamic experience. Polestar optimization for the S60 includes upgraded suspension and braking components for a thrilling drive.

T8 e-AWD Plug-In Hybrid

Our T8 e-AWD Plug-In Hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance gas engine and an electric motor, this 400 hp/472 lb-ft powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed.

T6 AWD

This high-performance 316-hp/295 lb-ft gas powertrain provides excellent driving dynamics without compromising on efficiency. Combined supercharger/turbo technology, responsive all-wheel drive and our smooth 8-speed Geartronic™ put you in control of your drive.

T5 FWD

The 250 hp/258 lb-ft T5 gas powertrain is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth 8-speed Geartronic™ automatic transmission.

CREATE THE CAR OF YOUR CHOICE

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that matches your style and fits perfectly into your life.

To ensure you get your new Volvo as personal as you want it, you have several different design expressions to choose from – each with a distinctive style and character: the sporty R-Design, the luxurious Inscription and the premium S60

Momentum. Or for truly advanced performance: with the power of electrification the astonishing S60 T8 Polestar Engineered.

Whatever you prefer, you can rest assure there's a Volvo S60 for you. Read on, and see what your new car will look like.

Volvo S60 Momentum
 Dynamic contemporary style with a premium appearance.

Volvo S60 Inscription
 Contemporary luxury, with beautiful materials and expert craftsmanship.

Volvo S60 R-Design
 Sporty styling and precise control, for a sedan designed to perform.

Volvo S60 T8 Polestar Engineered
 Optimized for pure performance with advanced driving dynamics.

MOMENTUM PROGRESSIVE PREMIUM STYLE

The Volvo S60 Momentum is a confident expression of contemporary style and inspiring performance, where progressive design and intuitive technology create a premium experience. Designed to be your premium Swedish dynamic sedan, the S60 Momentum will meet your demands on style, comfort, performance and design.

The exterior of the S60 Momentum is twisted towards a

distinctive, contemporary approach. Our signature design LED headlights and black exterior details, such as the grille and the side window trim, contribute to the progressive appearance of the S60 Momentum.

On the inside, you can relax in ergonomically designed seats. Many interior combinations make it easy to tailor your own, personal S60 Momentum experience.

S60 MOMENTUM

Includes:

Exterior:

18" wheels | LED headlights | Charcoal front grille with chrome frame | Standard decor side windows | Double tailpipes with sleeves

Interior:

Leatherette Upholstery | Power Front Seats | Iron Ore décor inlay | Mech adjustable driver and passengers seat | Leather-wrapped Steering Wheel | 2-way lumbar support | gearlevel leather knob | Mid-Level Interior Lighting

Sensus:

12.3" Digital Driver Display | 9" Sensus Touchscreen | Smartphone Integration with Apple CarPlay® and Android Auto® | High Performance audio system

T6 AWD | Momentum
726 Birch Light Metallic | 19" 5-V Spoke
Tinted Silver Diamond Cut Alloy Wheels

1

The Volvo S60 Momentum embodies the essence of contemporary Scandinavian design.

Unique black exterior design cues together with the 18" Alloy Wheels add to the car's dynamic road presence, while the dual stainless steel tailpipes add a stylish finish.

On the inside, aluminum tread plates welcome you every time you enter the cabin of your S60 Momentum. You can enjoy the control provided by our 12.3" Digital Driver Display and Sensus Connect with enhanced connectivity – such as the intuitive operation of our 9" Sensus Touchscreen and voice control. Volvo On Call connects your car with your smartphone and gives you access to a wide range of smart services, while everybody on board will appreciate the clear sound reproduction of our High Performance audio system including Bluetooth® music streaming. And for a truly high-level

sound experience, there's the option of Harman/Kardon® Premium Sound with 14 hi-fi speakers including an air-ventilated subwoofer.

Our two-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. As driver you will enjoy the feel of a leather-clad steering wheel with Silk Metal inlays, a leather-clad gear lever and ergonomic front seats with power adjustable 2-way lumbar support for your long-distance comfort.

The seats are upholstered in sporty Leatherette. Textile floor mats and Iron Ore aluminum decor further complement the interior ambience. And when it's dark, the interior illumination enhances the premium feeling inside your Volvo S60 Momentum.

1-2. The Volvo S60 Momentum with signature design LED illumination headlights, high gloss black grille, 18" Alloy Wheels (optional) and black side window trim.

3. Park Assist supports you when reversing and the chrome dual tailpipes give your S60 Momentum a more dynamic look. **4.** Inside the S60 Momentum, you can enjoy the contemporary spirit of our City Weave textile/T-Tec upholstery and Iron Ore aluminum decor. **5.** The Iron Ore aluminum decor in the dashboard perfectly complements the contemporary character of your S60 Momentum. The large 9" center display with touchscreen keeps you connected and in control, while our High Performance audio system provides excellent sound. **6.** The standard 12.3" Digital Driver Display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions.

R-DESIGN INSPIRED BY SPORT

If you love to drive, the Volvo S60 R-Design is for you. With athletic styling and precise control, R-Design captures the thrill of a sporty driving experience. A wealth of distinctive design details raises the sporty soul of your Volvo and gives it an even more powerful road presence. It's an expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the S60 R-Design will deliver. Surrounded by

meticulously crafted and expressive interior design details, you can feel it right from the moment you take your position in the sculpted R-Design driver seat. Everything – from the R-Design steering wheel with gearshift paddles to the Charcoal headliner – is there to inspire and support your driving. And for an even more energetic, road-hugging drive, the S60 R-Design benefits from an optional lowered sport chassis.

S60 R-DESIGN

Includes S60 Momentum features plus:

Exterior:

18" Alloy Wheels | Integrated double tailpipes | High gloss black décor side windows | Charcoal headlining | High gloss black mirror foot | Door mirror caps in glossy black | Unique R-Design Front Fascia with High Gloss Black Grille | Unique R-Design rear diffuser

Interior:

R-Design Nappa Leather Sports Seats with Open Grid Textile Upholstery | Charcoal Headliner | R-Design Perforated Leather Steering Wheel with Gear Shift Paddles | R-Design Sport Pedals and Leather Gear Shift Knob | Harman/Kardon® Premium Sound

Sensus:

T6 AWD | R-Design

Fusion Red Metallic | 19" 5-Triple Spoke,
Matte Black Diamond Cut Alloy Wheel

1

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly sporty expression with athletic exterior design cues, such as its own distinctive grille in glossy black with Silk Metal frame and glossy black design details such as the lower grille, window trim and door mirror caps – perfectly complementing the unique Matte Black R-Design 18" Alloy Wheels in striking Diamond Cut design. Our signature headlights with LED illumination provide excellent vision and a distinctive attitude on the road. And at the rear, prominent dual tailpipes and a glossy black rear lower insert provide a powerful finish.

On the inside, the R-Design tread plates in Silk Metal finish greet you on-board. The contemporary sporty theme continues with Metal Mesh aluminum decor, aluminum sport pedals, R-Design textile mats, Charcoal headlining and sculpted R-Design Contour seats with a unique Fine Nappa Leather/Open Grid Textile upholstery. Together, these features give the cabin a technical, cockpit-like feel. R-Design logotypes in the headrests, contrast stitching in the seats and the gear shifter and the R-Design

Leather steering wheel all reinforce the sporty yet elegant ambience. The adjustable front seat cushion extensions further enhance your thigh support for improved comfort during long drives.

And when it's dark, our mid-level interior illumination enhances the ambience inside your S60 R-Design. Further adding to your sense of being in control, the R-Design also provides you with our 12.3" Digital Driver Display and the steering-wheel mounted gearshift paddles that enhance your control by allowing quicker manual shifts. Conveniently positioned in the tunnel console between the front seats, there's also a drive mode control that allows you to shift between four driving modes – Comfort, Dynamic, Eco and Individual mode.

Behind the R-Design sport steering wheel in Leather, you can enjoy the dynamic response and feedback from a finely tuned sport chassis. Lower and firmer, this chassis features stiffer springs and shock absorbers for sportier handling and less roll when cornering.

INSCRIPTION CONTEMPORARY LUXURY

We created the luxurious Volvo S60 Inscription to meet your expectations on contemporary Swedish luxury. It's a highly personal expression that evokes a strong sense of dynamic refinement. Each detail is carefully selected to give you and your passengers a stylish and invigorating experience.

Sophisticated exterior design cues enhance the luxurious look and feel of the S60 Inscription. Its distinctive chrome-finish grille, bright deco side window trim and 18" 10-multi spoke Black Diamond Cut Alloy Wheels correspond with the car's dynamic and elegant Scandinavian design.

The Inscription experience continues on the inside, where a meticulously crafted interior with leather seats, genuine Driftwood decor and a tailored dashboard gives you ample room for a relaxed driving experience.

The Volvo S60 Inscription epitomizes our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the S60 Inscription is in a class of its own – just like you.

S60 INSCRIPTION

Includes S60 Momentum features plus:

Exterior:

18" wheels | Inscription front grille | Lower outer grille in Charcoal with chrome frame | Integrated double tailpipes | Bright deco side windows | High gloss black mirror foot

Interior:

Tailored Dashboard | Power Cushion Extension | Driftwood Decor Inlay | Leather Upholstery | Harman/Kardon® Premium Sound

T6 AWD | Inscription

Pebble Grey Metallic | 19" 10-Spoke Turbine
Black Diamond Cut Alloy Wheels

1

The sophisticated Volvo S60 Inscription expresses the essence of dynamic contemporary luxury. Just like beautifully crafted pieces of jewelry design, the 18" 10-multi spoke Alloy Wheels in distinctive Black Diamond Cut design harmonize perfectly with the chrome finish grille and the bright decor side window trim. Together with the elegant dual integrated tailpipes, the wheels also contribute to the car's confident stance. Our signature LED illumination contributes to both a strong visual identity and excellent vision in the dark.

On the inside, the luxurious theme goes on with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You can lean back in a sculpted power-operated Comfort seat upholstered in smooth leather. Power-operated 4-way lumbar support and adjustable cushion extensions contribute to enhanced long-distance comfort.

Unique Driftwood decor, our most advanced interior ambience illumination and the tailored dashboard add to the exclusive Inscription experience. For you as driver, the large 12.3" Digital Driver Display and convenient drive mode settings in the console between the front seats add to your feeling of being in command. And to enhance your driving experience, our optional active chassis optimizes comfort and handling – select between four different chassis settings with the drive mode control.

For an even higher level of comfort, you can upgrade to our Fine Nappa Leather seats with ventilation and massage function. And turning your Volvo S60 Inscription into a concert hall, our optional high-end audio system Bowers & Wilkins® brings exceptional clarity and realism to your music, wherever you're seated.

1. The chrome finish front grille and bright side window trim add up to the luxurious appearance of the Volvo S60 Inscription. Here shown with dynamic yet elegant 19" 5-Multi Spoke Alloy Wheels (optional) in distinctive Black Diamond Cut design. 2. Dual integrated tailpipes and bright decor trim enhance the elegant and powerful impression from the rear. 3. The rear seat passengers can enjoy the comfort and convenience from a center armrest with integrated cup holders and storage. 4. The sculpted Comfort seats with Fine Nappa Leather upholstery and adjustable seat cushion extensions, the Driftwood decor and the standard tailored dashboard provide a sensory experience of contemporary luxury. In the tunnel console, there's a scroll wheel in diamond patterned metal finish that allows you to select your preferred drive mode and steering characteristics (European specification shown). 5. The exclusive Driftwood decor in the dashboard and tunnel console resembles the look and feel of wood shaped by the natural force of water, wind and waves. 6. The intuitive 12.3" Digital Driver Display and 9" Sensus Touchscreen keep you connected and in control.

POLESTAR ENGINEERED PURE PERFORMANCE

We created the Volvo S60 T8 Polestar Engineered with one single-minded ambition – to give you the most precise and involving driving experience, period.

To achieve this, we joined forces with the engineers at Polestar – our exclusive electric performance car brand. Refinement, human centric innovation and world-class safety combined with Polestar’s applied performance expertise enable what we call advanced driving dynamics.

This means we’ve fine-tuned and engineered each

component to act as one for your driving enjoyment. Everything, from the even further enhanced powerful T8 e-AWD Plug-In Hybrid plug-in hybrid powertrain to the exclusive Polestar Engineered Öhlins chassis and the high-performance Polestar Engineered Brembo brakes, work together to optimize performance, handling and control. Combined with lightweight, Polestar Engineered Alloy Wheels and distinctive styling, this will provide you with a high-precision driving experience that’s simply electrifying.

S60 POLESTAR ENGINEERED

Includes S60 R-Design trim level plus the following:

Polestar Engineered 19" 5-Y Spoke Forged Wheels | Polestar chassis with Öhlins dampers | Polestar Engineered front strut bar | Rear brake calipers in gold color | Heated steering wheel | Painted high gloss black grille insert with horizontal mesh pattern | Sport steering wheel | Integrated double tailpipes in

black chrome with Polestar Engineered emblem | Polestar Engineered front Brembo brakes with calipers in gold color | Gear Shift paddles | Crystal gear shifter | Sill moulding Volvo metal | Polestar Engineered emblem, front and rear

T8 | Polestar Engineered
Black Stone |
19" Polestar Engineered Alloy Wheels

The Volvo S60 T8 Polestar Engineered takes the driving precision and performance of the S60 to a higher level. The Polestar optimized 415 hp combined T8 e-AWD Plug-in Hybrid powertrain gives you uncompromised power and efficiency. Together with the engineers at Polestar, we have upgraded the highly capable S60 chassis with adjustable springs by Polestar and high-end suspension technology by Öhlins – the renowned

Swedish manufacturer of shock absorbers for performance and racing cars and motorcycles. This gives you precise and consistent handling characteristics together with maximum road contact in all road conditions, while still providing supple ride comfort. And the Polestar Engineered Brembo brakes maximizes braking performance in all conditions.

We created the Polestar Engineered Öhlins Chassis to give you the perfect balance of agility, control and comfort. The advanced Öhlins shock absorbers work together with the Polestar Engineered front and rear springs that stiffen up the chassis and lower the ride height. This gives a somewhat firmer and more composed ride with less roll and more grip when cornering. And for stable and predictable handling, the technical layout of the T8 e-AWD Plug-in Hybrid powertrain adds to even weight distribution and a low center of gravity.

The advanced, hand-made Öhlins shock absorbers deliver the perfect mix of agility and comfort. The unique Dual Flow Valve technology means the shock absorber can react more quickly, allowing the wheel and tire to regain road contact instantly after passing a bump or a pot hole without losing traction. You can enjoy sporty handling and great control without compromising comfort.

The front suspension is further stabilized by a Polestar Engineered strut bar. This contributes to even more precise, responsive steering characteristics at all speeds and more controlled handling through the curves.

Reducing the unsprung weight by up to 15%, the Polestar Engineered 19" 5-Y Spoke Forged Wheels contribute to responsive driving characteristics and excellent road holding. Milled out of a solid block of aluminum, these wheels are of an exclusive design normally found on high-end performance cars and race cars.

The Polestar Engineered Brembo brakes feature 6-piston brake calipers and 14.6" ventilated and slotted floating discs at the front. They're designed to maximize your control and braking performance with a minimum of fading, even during hard driving.

1

The exterior of the Volvo S60 T8 Polestar Engineered subtly reveals the soul of a finely tuned, high-precision performance car.

Distinctive glossy black design details such as the grille with gloss black frame, side window trim and door mirror caps highlight the dynamic capacity of the S60 T8 Polestar Engineered. Unique Polestar Engineered 19" 5-Y Spoke Forged Wheels and visible, gold colored Brembo brake calipers add an engineered, high-tech touch. And from the rear, the Polestar Engineered Exhaust pipes in black chrome connect visually with the wheels and glossy black design details for a distinct road presence.

Inside the Charcoal interior of the Volvo S60 T8 Polestar Engineered, you can focus on driving surrounded by fine materials and excellent craftsmanship. You're in control of every aspect of the drive, and can enjoy the car's perfectly balanced performance. The deeply sculpted Contour seats in Fine Nappa Leather/Open Grid Textile with adjustable seat cushion extensions keeps you firmly in place and provides excellent long-distance comfort. Behind the Leather steering wheel, you can enjoy a steering that connects you with the road while the steering wheel mounted gearshift paddles allow intuitive manual gearshifts.

1. The Volvo S60 T8 Polestar Engineered in Black Stone with Polestar Engineered 19" 5-Y Spoke Forged Wheels and Polestar Engineered Exhaust pipes in stainless steel with black chrome finish. 2. The Polestar Engineered Exhaust pipes in stainless steel with black chrome finish give a powerful look from the rear. 3. Seat belts colored in gold, a subtle nudge to the unique chassis details of your Volvo S60 T8 Polestar Engineered. 4. Adding to the car's excellent handling as well as its distinctive look, the Polestar Engineered 19" 5-Y Spoke Forged Wheels are in a unique light-weight design. 5. The dynamic Charcoal interior of the S60 T8 Polestar Engineered with Contour seats in Fine Nappa Leather/Open Grid textile with adjustable seat cushion extensions. 6. The sculpted Contour seats in Charcoal are upholstered in a sporty combination of Fine Nappa Leather and Open Grid Textile, with a unique stitching and piping. 7. Our 12.3" Digital Driver Display and a leather sport steering wheel with optional gear shift paddles put you in control of the experience. The Metal Mesh aluminum decor harmonizes perfectly with the interior's dynamic look and feel.

ACCESSORIES YOUR VOLVO S60, THE WAY YOU WANT IT

The Volvo S60 is designed to connect you with the joy of driving, perfectly balancing dynamism with comfort for an engaging yet refined experience – whatever the journey. And adding Volvo Cars accessories designed around you and your car, you can realize your perfect Swedish dynamic sedan.

With our specially designed exterior styling accessories, you can create a truly individual look. For example, our

exterior styling kit will enhance the car's sporty and athletic character and give it an even more powerful look, especially in combination with our large 19" 10-Spoke Alloy Wheels. Our range of smart load accessories make life easier, and for people who share your ride, we have created accessories that add extra comfort and safety.

So go on and explore the Volvo S60 accessories and create your own dynamic Volvo sedan.

MAKE IT YOURS

The Volvo styling accessories are created by our own team of designers to perfectly complement the lines of the S60 and enhance its dynamic, contemporary character. And to make your car an even stronger and more personal statement, you can add our exterior styling package. Body colored front and rear side deflectors and sculpted side mouldings accentuate the car's low stance, while the integrated dual split tailpipes create an even more powerful look. And for the S60 Momentum, a black rear diffuser adds an extra touch of dynamic luxury.

This is your opportunity to express yourself and come up with a look that is all yours.

1. S60 exterior styling package. **2.** Integrated dual split tailpipes in stainless steel.
3. Front side deflectors.

GET READY

Your Volvo S60 also takes care of your more practical needs. And to make your S60 work even harder for you, just add our load accessories. Designed to look good and work flawlessly, they will make life less complicated

and help you bring the stuff you need. And with our user-friendly and stylish wall box, you'll charge your S60 T8 Twin Engine easily and safely when you're at home.

DESIGNED FOR YOUR LIFE

The S60 is about making every drive as enjoyable as possible. To enhance the experience for anyone who shares your ride, we've created specially designed accessories that cater to your passengers' comfort and safety. For children up to 10 years, our booster seats combine

comfort with state-of-the-art safety and are designed to fit perfectly into your Volvo. We apply the same stringent standards to accessories as we do to building our cars, so you know your children and pets are well protected.

Service By Volvo

Taking care of you and your Volvo is our top priority. With a unique approach to service that's personal, professional and efficient, we get you everything you need in the simplest way possible. To make your life less complicated.

Knowing your vehicle is always up to our highest standards for as long as you own it – that's the driving force behind Service by Volvo. To help you get the most out of your Volvo, we'll ensure each service or maintenance provides peak conditioning through our expertly trained technicians, field-tested repair methods, and precision-engineered genuine parts. That's because we focus on our promises to service your car and simplify your life.

OUR SERVICE BY VOLVO PROMISES

When you have your car serviced at an authorized Volvo dealer, we promise to provide you with a premium ownership experience for the life of your vehicle. Enjoy our Lifetime Parts and Labor Warranty,* so you pay only once, knowing your car is always up to our highest standards. Technical software updates** and more. No sign-up required.

* Excludes consumable parts due to normal wear. See dealer for details. Non-transferable.

** New software required as part of a repair or accessory installation is not included.

The most carefree way to own a car

LEASING OPTIONS

FLEXIBLE TERMS

Leasing is available for terms as short as 24 months or up to 48 months. You can drive a new Volvo car every few years while within the manufacturer warranty and maintenance plans, and without the burden of negotiating trade-in values.

CHOICE OF MILEAGE PLANS

The standard mileage option allows up to 15,000 miles per year; however, several other mileage plans are available to tailor to your commuting needs. Under the low mileage plan options are available as low as 7,500 miles per year, and we also offer a high mileage plan with options as high as 30,000 miles per year.

SINGLE PAYMENT LEASE

A single payment lease provides convenience and savings. You make only one payment, one time, freeing you from monthly payments. It permits you to prepay all monthly payments in a single payment at lease signing. This single total lease payment is less than the amount you would pay over the term of a conventional lease.

MULTIPLE SECURITY DEPOSIT LEASE*

A multiple security deposit lease allows you to place a lump sum refundable security deposit at lease inception, which reduces your monthly rent charge, resulting in substantial savings over the term of the lease. The additional security deposits are refunded to you at the end of the lease term.

* Multiple Security Deposit Lease is not available in NY.

BUSINESS LEASE

Under our business lease option, owners have the flexibility to lease the vehicle as the business.

GUARANTEED AUTO PROTECTION (GAP) WAIVER

Our GAP Waiver is included in your lease agreement at no additional cost to you. It is provided to give you peace of mind. If your leased Volvo car is declared a total loss due to theft, accident, or natural disaster, we will cover the difference between the insurance proceeds and the balance owed to Volvo Car Financial Services less any deductible.

EXCESS WEAR AND USE PROTECTION PLAN **

As a part of everyday driving, normal wear and use can be expected. However, when turning in your leased vehicle, you may be responsible for any excess wear and use damage; therefore, Volvo Car Financial Services offers an optional plan to protect you and your car from unexpected occurrences that happen from nature and chance.

** Excess Wear and Use Protection Plan is optional and not available in AK, NM, NY, TX, UT and VT.

SPECIAL PROGRAMS

COLLEGE GRADUATE PROGRAM

You've worked hard to earn your degree. Now the Volvo Graduate Program can make it easy for you to drive a Volvo car. With flexible and competitive financing options available for graduates, Volvo Car Financial Services can help you to step into the luxury of driving a Volvo car with only a 5 percent down payment upon credit approval.

INTERNATIONAL STUDENT PROGRAM

The International Student Program is the easiest way to acquire a vehicle while studying in the US, only from Volvo. Instead of purchasing a car outright, make one easy, upfront payment and drive a brand new Volvo during your school term. After graduation, drop the car off at your local Volvo retailer. No hassles. You'll only pay for the portion of the car you use. It's as simple as that. Visit www.volvocarsforstudents.com for program details.

VOLVO MOBILITY PROGRAM

The goal of the Volvo Mobility Program is to assist persons with physical disabilities or hearing impairment. For those with exceptional transportation needs, this can be facilitated within the extraordinary comfort and safety of a specially adapted Volvo car. For additional information on this program, please contact **Mobility by Volvo Customer Care at 1-800-550-5658.**

PERSONAL SHOPPER

The Volvo Personal Shopper is dedicated to providing you with a whole new level of shopping convenience. Whether you'd like help identifying the Volvo model that best fits your lifestyle, detailed information on any Volvo model, or a comparison against the competition, Volvo is there to help. We can arrange a Guest Drive for you at your nearest Volvo Retailer.

So make the most of your shopping time and call the **Volvo Personal Shopper at 1-800-550-5658.**

SERVICE AND WARRANTY

VOLVO ROADSIDE ASSISTANCE

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your Volvo Roadside Assistance card and dial **1-800-63-VOLVO** at any time. Your complimentary four-year membership activates the moment you become a Volvo owner. A connection to Volvo Roadside Assistance/US is available through your App Store.

VOLVO NEW CAR WARRANTY

Your new-car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, hybrid components, emission systems, genuine Volvo car replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo car, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

COMPLIMENTARY FACTORY SCHEDULED MAINTENANCE

Volvo Cars is committed to a premium ownership experience for its customers. To further enhance your ownership experience, all 2018 model year Volvo Cars sold in the United States will include Complimentary Factory Scheduled Maintenance. This program provides scheduled maintenance coverage for the first three years or 36,000 miles, whichever occurs first, and is designed to complement your Volvo warranty, helping ensure trouble-free operation of your Volvo. Coverage includes factory-recommended maintenance including oil and filter changes, checks and adjustments as listed in your Warranty and Maintenance Records Information booklet, for the first three maintenance services at intervals of 10,000, 20,000 and 30,000 miles.

Each service must be performed within 1,500 miles before or after each scheduled interval. Coverage is limited to scheduled maintenance items listed in the 2018 model year Warranty and Maintenance Records Information booklet. An authorized retailer must perform maintenance. Offer is transferable. Optional Prepaid Maintenance Plan upgrades are also available that will allow you to customize coverage to meet your driving needs. See your Volvo retailer for details.

FINANCE OPTIONS

Volvo Car Financial Services (VCFS) offers affordable and competitive financing on new and Volvo Certified Pre-Owned cars. Our low rates and flexible terms can get you behind the wheel of the Volvo you want to drive with finance terms up to 75 months. Volvo Car Financial Services also offers financing on vehicles purchased under the Overseas Delivery Program.
