MERCEDES-BENZ NAVIGATION MAP UPDATE

More than a Map.™

Navigation Map Update

The Mercedes-Benz Navigation System⁶ is a fully integrated system that combines Global Positioning System (GPS) technology with electronic mapping software to help you to plan trips, navigate detours and avoid getting lost. The Global Positioning System (GPS) satellites continuously track your vehicle's location, and rely on accessing the most up-to-date mapping information in order to give you the most accurate and efficient routes.

Notice however, how quickly the surroundings change: roads are added or diverted, restaurants open and close, hotels and hospitals are built, ATMs move. In fact, as much as 20 percent of the navigation data the GPS satellites rely on changes every year. That is why Mercedes-Benz offers reliable, and updated navigation data to help get you where you need to go, effortlessly. The Navigation Map Updates are available for purchase from your authorized Mercedes-Benz dealer.

The system can route you through more than 6.1 million miles of navigable roads in the United States and Canada. Just enter the address on the intelligent destination input screen, and the system takes over, guiding you audibly and with a clear and detailed 7" LCD map display. Do you need an idea where to go? The Navigation System also offers 1.7 million Points of Interest in 40 categories including ATMs, restaurants, hotels, airports, museums and more.

⁵ Control of devices connected via the AUX input (non iPod/USB) is limited to volume control

⁶ Navigation system data includes the United States (excluding Alaska) and Canada. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. See your authorized Mercedes-Benz dealer for availability and details.

MERCEDES-BENZ TELE AID

Connections that drive you.

Engineered to keep you connected to your way of life.

Mercedes-Benz Tele Aid is a rich suite of technologically advanced services—built right into your vehicle—that helps you stay in touch on the road so you can make the connections that matter to you. Tele Aid brings you the peace of mind to be able to get the most from your Mercedes-Benz experience, each and every day. Your M-Class is Tele Aid-ready and only requires a few moments to subscribe for and activate service. Your Mercedes-Benz dealer can get you started through this simple process so Tele Aid is there for you whenever you need it.

Best of all, your first year's service is included with subscription.⁸

Making the connection in your vehicle.

Mercedes-Benz Tele Aid makes connecting easy with three buttons in your vehicle—the SOS, Wrench, and i-Buttons. Simply push the button you need and you will be put in contact with the appropriate Mercedes-Benz Response Personnel or service. The Mercedes-Benz Tele Aid system automatically transmits information about the vehicle and its location.

1 | SOS Button

Push the SOS Button to have us contact emergency services if you need help or see someone that does. Additionally, when an airbag or seatbelt Emergency Tensioning Device is deployed, the vehicle automatically notifies the Tele Aid Response Center.⁹ If voice contact cannot be established with you or if you request assistance, emergency services will be notified.

2 | i-Button

Push the i-Button to get information — about your vehicle's systems, for directions, or to access a range of traffic and destination services. With the Mercedes-Benz Concierge¹⁰ package, the i-Button also connects you to the Mercedes-Benz Concierge, who can assist you by recommending hotels, making reservations, even ordering gifts.

3 | Wrench Button

Push the Wrench Button for roadside assistance. If you get a flat tire, run out of gas, see a warning light on your dash or for help with other mechanical issues, service personnel can be dispatched to assist.¹¹

SEARCH & SEND

Internet convenience meets engineering excellence.

Mercedes-Benz Search & Send⁷ is a new and convenient way to plan your trip destinations ahead of time. Using familiar Yahoo!® Local Maps and Google™ Maps web sites, you can search for a destination online, then send it right to your Mercedes-Benz.

Once you are in your vehicle, simply push the i-Button and your destination will be downloaded directly to the vehicle's navigation system. You will be prompted to either start route guidance immediately, or save the information for later use in your navigation memory. Instead of spending time inputting data into your navigation system, your destinations will be available whenever you need them.

⁷ Mercedes-Benz USA, LLC makes no representations or warranties as to the completeness or accuracy of the points of information provided by Google and Yahoo! Maps via the Send to Car Service and assumes no responsibility for any loss or delay incurred by a user of the service.

⁸ First year's Mercedes-Benz Tele Aid Package provided at no additional cost. Mercedes-Benz Concierge is available at additional cost. Subscription Agreement required for system to be active. Service operates only when cellular and Global Positioning System coverage is available.

⁹ Service operates only where cellular and Global Positioning Satellite system coverage are available.

¹⁰ Concierge service available only in Mercedes-Benz Concierge Package. Route Assistance use included as part of Mercedes-Benz Concierge Package. Additional per use charge applies when used with Tele Aid Package. See your dealer for details.

¹¹ Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided from an outside service, courtesy of Mercedes-Benz Roadside Assistance. Every attempt will be made to assist a customer, however, circumstances such as restricted roadways, acts of nature, and vehicle accessibility may limit our ability to provide services to you. For full details of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.

BabySmart/OCS Safety Information: Most Mercedes-Benz vehicles from MY 1998 through 2003, select models from 2004 through 2006, and current G-Class vehicles are equipped with BabySmart™. Mercedes-Benz vehicles equipped with BabySmart™ have a device that recognizes the presence of BabySmart™-equipped child seat when properly installed in the front passenger seat and deactivates the passenger front air bag (check your vehicle's Operator's Manual or labels located on the sides of your dashboard to verify).

All current Mercedes-Benz models are equipped with the Occupant Classification System (OCS) (with exception of the G-Class) which is designed to turn off the front passenger's front airbag when the system senses the weight of a typical child 12 months old or less plus the weight of a standard child restraint. See vehicle's operators manual for important additional information on this system and further information regarding the transportation of children heavier than a typical 12 month old.

All Mercedes-Benz child safety seats meet or exceed U.S. Department of Transportation standards. They are also suitable for use in older vehicles that do not have integrated LATCH (Lower Anchors and Tethers for Children) attachment points.
