METRIS GIVES YOUR BUSINESS ENDLESS POSSIBILITIES

Introducing Metris. As the first mid-size commercial van from Mercedes-Benz, the Metris will change the way you do business. Gone are the days of settling for vehicles that are too small for your cargo or too bulky for your garage. Metris is sized just right to fit anything and anywhere.

MBK 522

RIGHTSIZE

Metris fits virtually any business. From HVAC to carpentry, courier to general contracting, and taxi to luxury limousine, Metris has you covered. It's small when it needs to be and big where it counts.

BIGABILITY

CARGO VAN

186 cu. ft. of cargo volume

111.5" of cargo length

2,502-lb max. payload

37.8" side door opening width

4,960-lb towing capability

PASSENGER VAN

Seating for 7 (optional for 8)

Over 40" of headroom

Generous leg and shoulder room

Standard sliding doors on both sides

SMALLABILITY

74.4" height (Passenger), 75.2" height (Cargo)

Fits in suburban garages

Fits through low parking structures

38.7' turning radius

Remarkable car-like handling

CARGO VAN

The **Metris Cargo Van** was purposefully built for the long haul. It has the payload, durability, and versatile cargo space you'd expect from a larger model, yet parks conveniently in your garage at the end of the day. With a combined 23 miles per gallon,¹⁹ it's not just efficient when it comes to gasoline—it's built to work for long periods without service or maintenance, giving you one of the lowest costs of ownership in its class.

Sliding Doors

Side doors open up to 37.8", for even easier access to your cargo.

186 Cubic Feet of Cargo Volume

Metris is spacious enough to stow over 75 sheets of 4'x8' plywood.

Rear Door Options

Choose between standard 270° and 180° opening rear doors or a single flip-up tailgate.

Factory Partition with Extended Loading Feature

QUICK FACTS

Maximum payload: 2,502 lbs

Cargo volume: 186 cu. ft.

Towing capacity: 4,960 lbs

Engine: 208-horsepower, 2.0-liter, 4-cylinder, direct-injection, turbocharged gasoline engine

Transmission: 7G-TRONIC Automatic Transmission

87 octane minimum (91 octane recommended), combined 23 mpg¹⁹

Turning radius: 38.7'

PASSENGERVAN

Metris is the first choice when it comes to moving passengers safely and efficiently, providing a suite of standard safety technologies such as curtain airbags¹ all around, Load-Adaptive Electronic Stability Program (ESP[®])¹⁸ with Crosswind Assist,³ and ATTENTION ASSIST.^{®2} Although it has space enough for up to eight passengers, it offers fuel consumption comparable to that of a much smaller van, with a combined 22 mpg.¹⁹ Add optional comfort features like electric sliding doors and Automatic Climate Control, as well as additional safety features such as Active Parking Assist, Blind Spot Assist,⁵ COLLISION PREVENTION ASSIST,⁴ and Lane Keeping Assist,⁶ and you have the perfect van for your shuttle, chauffeur, or taxi business in the garageable size you want.

Seating for 7

Optional Seating for 8

Airbags¹

With driver and passenger front airbags, driver and front passenger side thorax airbags, and window curtain airbags throughout, every occupant is protected.

Roomy Interior

With over 40" of headroom and plenty of legroom, your passengers don't just get there—they get there comfortably.

Seating Capacity

With two available seating configurations, you can carry up to eight people.

Optional Electric Sliding Doors

Open or close the sliding door with the push of a button, for extra convenience.

Passenger Van

QUICK FACTS

Seating for 7 (optional for 8)

Dual sliding doors (electric optional)

Towing capacity: 4,960 lbs

Engine: 208-horsepower, 2.0-liter, 4-cylinder, direct-injection, turbocharged gasoline engine

Transmission: 7G-TRONIC Automatic Transmission

87 octane minimum (91 octane recommended), combined 22 mpg¹⁹

Turning radius: 38.7'

Driver and Passenger Airbags¹

Crosswind Assist³

ATTENTION ASSIST^{®2}

ADVANCED SAFETY

Whether you choose a spacious Cargo Van or a comfortable Passenger Van, you'll feel safe knowing your Metris is packed with Mercedes-Benz driver assistance systems.

STANDARD EQUIPMENT

Driver and Passenger Airbags¹

The driver and passenger front, thorax, and window airbags help protect you and your passengers in the event of a collision. Passenger Vans are also equipped with rear curtain airbags.

Crosswind Assist³

Windy day? No problem. Crosswind Assist senses wind velocity and gently brakes individual wheels to keep you in your lane.

ATTENTION ASSIST^{®2}

Long day? ATTENTION ASSIST[®] helps prevent drowsy driving by monitoring your driving patterns and provides an early warning in case tiredness is detected.

Load-Adaptive Electronic Stability Program (ESP)^{®18}

This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

Enhanced features include **Brake Assist System (BAS)^{®9}**, which senses emergency braking via the speed at which the driver presses the brake pedal and instantly applies maximum available power boost to reduce stopping distances. **Trailer Stability Assist (TSA)**, for vehicles with a trailer coupling (available as an option), provides added safety when towing and uses sensors to detect the swinging motion of the trailer and selective wheel braking applications to help stabilize the vehicle and trailer.

OPTIONAL EQUIPMENT

Blind Spot Assist⁵

Using radar sensors to monitor approaching vehicles on multilane highways, this system will detect vehicles in your blind spot and alert you visually and audibly.

COLLISION PREVENTION ASSIST⁴

COLLISION PREVENTION ASSIST can help prevent rear-end collisions. If the vehicle traveling ahead of you comes within a potentially dangerous distance, this system will provide you with visual and audible warnings. In an emergency situation, it'll even boost braking-pressure levels via ESP[®]'s Brake Assist System (BAS[®]).⁹

Lane Keeping Assist⁶

The Metris will warn you if you unintentionally cross visible lane markings or change lanes without using your turn signal, thus helping to prevent accidents.

Rear View Camera⁷

Parking made easier. This visual parking aid is activated when the Reverse gear is selected, giving you a perfect view of what's going on behind you as well as providing overlays with which to guide you.

Active Parking Assist and PARKTRONIC

When engaged, Active Parking Assist detects a suitable parking space and helps maneuver your Metris into it by autonomously steering and providing brake assistance. PARKTRONIC uses sensors in the front and rear bumpers to detect nearby obstacles.

Blind Spot Assist⁵

COLLISION PREVENTION ASSIST⁴

Rear View Camera⁷

Active Parking Assist

AFFORDABILITY

Metris keeps your total cost of ownership low and your productivity high. When you spend less time and money on maintenance, your whole company runs more smoothly. Metris fits your business—and your bottom line.

Efficient Gasoline Engine

A 208-horsepower, 2.0-liter, 4-cylinder, direct-injection, turbocharged gasoline engine has plenty of get-up-and-go, while keeping emissions and fuel consumption low. At a combined 23 mpg for Cargo and 22 mpg for Passenger,¹⁹ Metris offers all the space and power you need with fuel consumption comparable to that of a small-size van.

7G-TRONIC Automatic Transmission

Refined for maximum efficiency and unmatched comfort, a quick-shifting 7-speed automatic transmission delivers better fuel economy, reduced noise, and longer service life.

Optional ECO Start/Stop

This function reduces fuel consumption and emissions by shutting off the engine when the vehicle is at a standstill, helping you lower the total cost of ownership—especially in the city and in stop-and-go traffic.

Up to 15,000-Mile Service Interval¹²

Because tune-ups and repairs can feel like bumps in the road, Metris boasts an impressive service interval of up to 15,000 miles.¹² Your van will spend less time in the shop and more time on the job.

COMFORTABILITY

It may stow and tow like a large commercial vehicle, but it doesn't have to feel like one. Metris drives with a Best-In-Class turning radius and easy car-like handling. Electromechanical steering with standard gearshift paddles responds to wheel turning quickly, returns to the straight-line position swiftly, and maneuvers easily at high and low speeds.

A 5.8" high-resolution display screen puts you in touch with an optional Becker® MAP PILOT Navigation System,¹⁵ for peace of mind on the road. An optional multifunction steering wheel gives you control over music, phone calls, navigation, and more, right where you need it. With

everything at your fingertips, you can feel comfortable knowing you're always on the right track.

Thanks to an available Automatic Climate Control System and heated front seats, both driver and passengers can enjoy the perfect temperature, mile after mile. With seating that feels more like that of a sedan, standard cruise control, two large cup holders (with two additional cup holders standard for front passengers), and plenty of cockpit storage options, you just might forget you're driving a commercial van.

ABOVE LEFT: ELECTROMECHANICAL STEERING AND GEARSHIFT PADDLES

ABOVE CENTER: TWO LARGE CUP HOLDERS AND TWO ADDITIONAL CUP HOLDERS STANDARD FOR FRONT PASSENGERS

ABOVE RIGHT: HIGH-RESOLUTION DISPLAY SCREEN

CUSTOMIZEABILITY

Whether for business or for pleasure, the Metris Van is designed with your future in mind and can be easily transformed by a MasterUpfitter.

Mercedes-Benz allows qualified upfitters to become part of the MasterUpfitter network. These experts in their respective fields work to the highest standards and uphold the Upfitting Guidelines, giving you confidence during your next purchase.

Join thousands of companies that put more into their Metris Van—and get more out of their business. So, how will you customize your Metris?

FINANCEABILITY

Through Mercedes-Benz Financial Services, we offer a variety of financing products and solutions with flexible benefits tailored specifically to meet the needs of your business.⁸

Retail Loan

These simple-interest, fixed-payment packages can include van, upfit equipment, and aftermarket products in one contract.

FMV Lease

A closed-end lease agreement (also known as a “walkaway lease”) that stipulates that the lessee simply turn in the vehicle and walk away at lease maturity and after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.

TRAC Lease¹⁰

A Terminal Rental Adjustment Clause (TRAC) Lease doesn’t require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income.

Owners are responsible for the residual value of the vehicle.

ZERO-TRAC Lease¹¹

Offers many of the same benefits as a TRAC, but is a fully amortized lease that offers ownership of the vehicle at lease end with little or no cash outlay.

SERVICE AND MAINTENANCE

Extended Limited Warranty (ELW)¹⁴

We understand how vehicle downtime can impact your business. Protect one of your most valuable investments with the no-hassle convenience of a Mercedes-Benz Metris Extended Limited Warranty.

The Mercedes-Benz Metris ELW offers several attractive features:

- Repairs by factory-trained technicians utilizing high-tech diagnostic equipment.
- Repairs completed with Genuine Mercedes-Benz Parts.
- No risk to you; may be cancelled at any time prior to the New Vehicle Limited Warranty expiration for a full refund.
- Honored by all authorized Mercedes-Benz Vans dealerships.
- No deductibles or cumbersome claims processing.
- No approvals required prior to repairs.

Choose the plan that fits your Metris and your business:

- 1-year/up to 75,000 miles
- 2-year/up to 90,000 miles
- 3-year/up to 105,000 miles
- 4-year/up to 120,000 miles

Roadside Assistance

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program¹⁶ and expert advice 24/7 through the Mercedes-Benz Customer Assistance Center. Several additional products help keep you out of the service center and working hard.

Prepaid Maintenance

Save time and money by prepaying for routine services. Simply pay for your Metris' maintenance in advance and reduce the risk of unexpected cost increases for service down the road.

Prepaid Maintenance helps you and your business in many ways:

- Save money—up to 30%¹⁷—on routine maintenance costs, including parts, labor, and taxes.
- Lock in costs for required services and protect against cost increases for parts and service.
- Service is performed according to factory standards and specifications by factory-trained technicians at any authorized Mercedes-Benz Vans dealer using Genuine Mercedes-Benz Parts.

- Select the plan that meets your driving needs.
- Plan is transferable to subsequent Metris owner.
- Purchase your plan at any time up to the first service or 15,000 miles,¹² whichever comes first.

Choose the plan that's best for you:

- Two services or 30,000 miles
- Four services or 60,000 miles
- Six services or 90,000 miles
- Eight services or 120,000 miles

ENDNOTES

1. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
2. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.
3. Crosswind Assist engages automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
4. COLLISION PREVENTION ASSIST may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
5. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.
6. Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
7. Rear view camera is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
8. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon the creditworthiness of the customer.
9. Braking effectiveness also depends on proper brake system maintenance, and tire and road conditions.
10. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.
11. In some states, this is a taxable transaction at lease end. Sales taxes on the purchase will be due in some states. Check with your tax advisor for details.

12. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
13. Unsecured cargo can become hazardous in a collision. Always secure cargo.
14. Extended Limited Warranty (ELW) is not available in all states. Contact your local Mercedes-Benz Vans dealer to verify availability.
15. Pre-wiring code EV6 required.
16. The Metris Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
17. Versus paying for services as you go. Potential savings vary by dealer.
18. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
19. Preliminary figures. 2016 EPA estimated fuel economy figures unavailable at time of publication. Please see your dealer. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions, and trip length. Your actual combined mileage will probably be less than the combined estimate.
