Mercedes-Benz floor mats undergo rigorous testing to help assure their durability, fade-resistant color and neutral odor, even after three winters of use. Mats are precision-tailored to your vehicle using its original design data, and can be clip-fastened to the floor carpeting to help prevent slippage during use. Always remove existing carpeted floor mats before installing all-season floor mats, and vice-versa.

02 FLOOR MAT TRAYS

Custom-designed black plastic tray-type floor liners help keep your car's carpeting in top condition. Deep sidewalls and channels help trap water, mud and melting snow. Easy to clean, they come in a 3-piece set: one for each front footwell, plus a full mat for the second row that also covers the center position.

03 VELOUR FLOOR MATS

Wherever your journey takes you, a set of four velour floor mats stylishly helps to protect your vehicle's original carpeting from dirt, dampness and wear. The richly carpeted floor mats are made from high-quality pure-polyamide velour and meet high standards for dirt-repellency, antistatic protection and flame-resistance. All mats feature an antislip backing, while a snap-on anchor point helps to keep the driver's mat in place.

01 GARMIN® MAP PILOT

A full-featured navigation option teams Garmin's famed user-friendly guidance and accurate map data with the standard radio, touchpad and 7" screen. Voice control and touchpad handwriting recognition make it even easier. Garmin's clear color maps offer realistic 3D views depicting streets, buildings and intersections. Lane guidance and supplemental instructions are also provided in the instrument cluster.

Not available with Premium Package or on models with COMAND® navigation standard.

MEDIA INTERFACE CABLE

Connect your iPod®, iPhone® or other device with a micro-USB connection to a universal interface in the console. Using the standard steering-wheel and audio controls, the interface lets you display the song, artist, album or playlist on the color screens atop the dash and in the instrument cluster. Your device's battery can also be charged while it's plugged in.
