MERCEDES-BENZ NAVIGATION MAP UPDATE

More than a Map™

01 Navigation Map Update

The Mercedes-Benz COMAND Navigation System is a fully integrated system that combines Global Positioning System (GPS) technology with electronic mapping software to help you plan trips, navigate detours and avoid getting lost. GPS satellites continuously track your vehicle's location and the system relies on mapping information in order to give you the most accurate and efficient routes. Notice however, how quickly the surroundings change: roads are added or diverted, restaurants open and close, hotels and hospitals are built, ATMs move. In fact, as much as 20 percent of the navigation data the system relies on changes every year.

That is why Mercedes-Benz offers reliable, and updated navigation data to help get you where you need to go effortlessly. The Navigation Map Updates are available for purchase from your authorized Mercedes-Benz dealer. The system can route you through more than 6.1 million miles of navigable roads in the United States and Canada. Just enter the address on the intelligent destination input screen, and the system takes over, guiding you audibly and with a clear and detailed 7" LCD map display. Do you need an idea of where to go? The Navigation System also offers 1.7 million Points of Interest in 40 categories including ATMs, restaurants, hotels, airports, museums and more.

02

02 SD Memory Card

The COMAND system in your SL-Class features a slot for SD Memory Cards. Use the SD Memory Card as a convenient way to play music, view pictures and more. Can also be used in other compatible devices such as digital cameras.

Card capacity: 2 GB | Read speed: 12.5 MB/s |
Write speed: 5.5 MB/s

Navigation system data includes the United States, Canada, Puerto Rico, Hawaii and Virgin Islands. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. See your authorized Mercedes-Benz dealer for availability and details.
