In just about twenty seconds, the Roadster's fully automatic power convertible top peels away and stores beneath its hard tonneau cover.

The integrated rear wind deflector with etched Z<sup>®</sup> logo not only looks great, it helps to reduce wind turbulence in the cabin.

The available heated and cooled seats use air directed through perforations in the seatbacks and bottom cushions to help keep you toasty warm or cool and dry.

The new double-insulated roof helps keep the interior warmer on cool days and lets in less road noise.
