

Nissan Titan King Cab PRO-4X shown in Red Alert.

2011 NISSAN TITAN®

HANDLE IT WITH THE TITAN OF TRUCKS. Nissan's full-size truck is powered by a standard 5.6-liter V8 churning out 317 hp and 385 lb-ft of torque, giving you the brute strength to pull up to 9,500 lbs.¹ of just about anything. But there's more to Titan than power. A lot more. Its available Utili-track™ Bed Channel System includes tie-down cleats you can position where you need them most. Its rugged, fully boxed all-steel frame delivers greater load-bearing ability and improved ride quality. Not to mention its Active Brake Limited Slip (ABLS) and available switch-on-demand electronic locking rear differential for more confident traction. Titan is available as a King Cab, with revolutionary Wide Open rear doors that open a full 168°, or Crew Cab, with the longest crew cab bed in its class.² See for yourself why size matters. < A standard 317-horsepower 5.6-liter V8 churns out 385 lb-ft of torque to pull up to 9,500 lbs. of just about anything.³

> Configure even the most complex, cumbersome loads. The bed has more usable cargo space and load-carrying versatility than the average half-ton, thanks to five C-channel rails running the length of the bed's floor and walls.

< The 5-speed automatic transmission features gear ratios that can take full advantage of its massive low-end torque and optimize fuel economy in higher gears.
