

KUV Body Options

Convenience Options

- **Power Locks** enhance security and increase efficiency with one push of a button to lock or unlock all compartments
- Integration with the chassis keyless entry system (if equipped) allows for both body and cab to be operated with the chassis key fob
- Audible signals inform user when compartments lock, unlock, or if a compartment door is open and unsecured while attempting to lock

- **LED Compartment Lighting** increases your productivity while working in low light conditions
- Light strips are made of rigid plastic in order to withstand jobsite abuse
- Door activated switches automatically turn the compartment LED lighting on when the door is open and off when the door is closed

Cargo Options

- **Ladder Rack** options include a Power Ladder Rack, Manual Ladder Rack, or a 3 Bow Ladder Rack
- Power Ladder Racks electronically load the ladder to the top of the KUV body from the side with a push of a button located inside the cargo area eliminating the risk of injury
- Manual Ladder Racks are operated by a handle that brings the ladder to the load or unload position on the side of the KUV, with ladder being stored on top of the vehicle
- 3 Bow Ladder Rack stores the ladders on the top of the KUV body to maximize cargo area space

- **SpitzLifts** are available in both DC electric or Manual versions with the choice of a 3' or 4' boom length
- Booms are constructed of lightweight structural aluminum; with a weight of approximately 35lbs.
- Boom can be removed from base and easily disassembled for storing in KUV side compartments
- Allows single operator to safely lift loads up to 900lbs.
- Can be easily transferred and utilized from vehicle to vehicle

Organization Options

Before

After

- **Sortimo** results in increased efficiency and productivity on the jobsite
- A strong, yet lightweight design, provides easy mobility and an overall tough storage solution
- A properly organized truck results in less inventory, and more available payload storage
- All boxes snap into tracks and slide easily in and out of side compartments like drawers
- Sortimo has a variety of available storage boxes and compartment layouts to meet a wide array of vocational needs

S-Boxx

M-Boxx

L-Boxx

T-Boxx
