#### PROXIMITY KEY ENTRY SYSTEM WITH PUSHBUTTON START

When your hands are full, the available proximity key entry system with pushbutton start is handy. The doors unlock automatically and the engine fires up with the push of a button.

## Full of style. And whatever else you want to bring.

Looks like sporty just got sportier. The 2018 Fit has new sportier styling, while upholding its unmatched versatility and fun-to-drive attitude. Add in Honda-tuned handling and this is a ride you'll want to share. Plus, with impressive fuel consumption ratings and driver-assistive technologies, the Fit has a good head on its shoulders. The Honda Sensing™ suite of safety and driver assist features, now standard on all CVT trims, include Adaptive Cruise Control (ACC)<sup>1</sup>, Collision Mitigation Brake Braking System™ (CMBS®)<sup>1</sup>, Lane Keeping Assist System (LKAS)<sup>1</sup> and more. With a sportier look and new advanced tech features, the 2018 Fit continues to impress.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.

**REAR BUMPER WITH EXHAUST TIP**

The rear bumper with exhaust tip on the Sport trim is designed to give your Fit an even sportier look.

## The Fit has been working out.

The 2018 Fit features a sportier new look that will have eyes on you. Up front, the Fit has a sophisticated new face thanks to the high-quality piano-black garnish and bold new front grille. The aggressive headlights and available fog lights are smoothly integrated into the body with available mirror-integrated LED turn indicators on both sides. Around back, the low and wide sporty styling continues, with a redesigned rear complemented by sharper looking LED brake lights. Additionally, the new Sport trim features an even more aggressive look thanks to the aero form features at the front, sides and rear, including a front lower spoiler highlighted with an orange pinstripe. An exclusive black finish on the 16-inch alloy wheels further adds to the aggressive look, as does the exhaust finisher and rear diffuser with an orange pinstripe around back. To complete the look, the Sport badge tells the world what you're all about.

**Key Features**

- LED brake lights
- Available 16" alloy wheels
- Available integrated fog lights
- Available one-touch power moonroof with tilt feature
- Available mirror-integrated LED turn indicators

**Expand your  
comfort zone.**

 AVAILABLE STEERING WHEEL-MOUNTED PADDLE SHIFTERS

You know that it's what's inside that counts just as much as what's on the outside. That's why the 2018 Fit is designed to surround you in sophistication and convenience. The available proximity key entry system with pushbutton start makes it even easier to get in and get going. Style and comfort are a priority throughout, with the available heated front seats, available leather-trimmed seating surfaces and available leather-wrapped steering wheel giving the interior a premium feel. For a more luxurious touch, black fabric sport seats are available on the Fit Sport trim. Add in a driver-focused design highlighted by the height-adjustable driver's seat and available leather-wrapped shift knob, and you have an interior that punches well above its class. Because you care about the details. And so do we.

**Key Features**

- 60/40 Split 2nd-Row Magic Seat\*
- Available proximity key entry system with pushbutton start
- Available heated front seats
- Available leather-trimmed seating surfaces
- Available leather-wrapped steering wheel
- Available leather-wrapped shift knob
- Available black fabric sport seats

**HONDA LANEWATCH™  
BLIND SPOT DISPLAY**

See better with the available Honda LaneWatch™ blind spot display<sup>1</sup>. When you signal right, this feature gives you a live feed of the road from a camera under your right mirror. It's shown on your Display Audio System and reveals nearly four times more of the road than the side mirror alone.

**Put the fun  
in functional.**

TALL MODE

REFRESH MODE

UTILITY MODE

LONG MODE

The Fit was designed with space in mind. The 60/40 Split 2nd-Row Magic Seat<sup>®</sup> and its four seating modes have the answer for virtually any situation, and the wide-open rear doors and low cargo floor make it a breeze to load.

**TALL MODE**

Don't sweat the tall stuff. Fold up the 60/40 Split 2nd-Row Magic Seat<sup>®</sup> for cargo that needs to stand upright.

**REFRESH MODE**

A subcompact you can lounge in? Believe it. Just pop off the front seat head restraints and fold back the front seats to create a comfy relaxation space.

**UTILITY MODE**

In utility mode, cargo space is in high supply. Simply fold down the 60/40 Split 2nd-Row Magic Seat<sup>®</sup> and you'll free up the Fit's top-class<sup>2</sup> 1,492 litres of cargo space.

**LONG MODE**

Headed to the cottage? You'll love the cabin space of the Fit. You can fold down just the right side of the rear seat and fold back the front passenger's seat and comfortably fit longer items.

 EARTH DREAMS™ TECHNOLOGY

## A thirst for fun, not fuel.

Wherever you're going, the 2018 Fit is designed with fuel efficiency in mind and is a downright joy to drive. Take 128 hp<sup>1</sup> and bump up the fun factor with the available continuously variable transmission (CVT), paired with the steering wheel-mounted paddle shifters available on Sport and above trims. If stick is your thing, go for the 6-speed manual transmission and 130 hp<sup>1</sup>. Either way, the 1.5-litre, 16-valve, Direct Injection, i-VTEC® Earth Dreams™ engine has been designed to increase fuel economy without sacrificing performance. And with enhanced handling performance and ride comfort, the 2018 Fit makes for a sporty and nimble ride with stability, responsiveness and quiet comfort. Add in the Eco Assist™ system and the available ECON mode button, and it's no wonder the Fit earns fuel consumption ratings of as low as 7.0/5.9/6.5 L/100 km<sup>2</sup> (City/Highway/Combined; LX CVT trim). How's that for good fun?

### Key Features

1.5-litre, 16-valve, Direct Injection, DOHC, i-VTEC® 4-cylinder engine

Available CVT with available paddle shifters

Up to 130 horsepower<sup>1</sup>

Earth Dreams™ technology

Eco Assist™ system

<sup>1</sup> Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

<sup>2</sup> Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>

## New Fit. New toys.

Wherever you're headed, in the 2018 Fit you'll have the right features to satisfy all of your tech-needs. With available Apple CarPlay™<sup>1,2</sup> and Android Auto™<sup>1,2</sup>, you'll be able to seamlessly connect your compatible smartphone to let you use some of your apps. The 2018 Fit also features an available new 7" Display Audio System with HondaLink™<sup>1,2</sup> Next Generation. These new features make staying in touch with family and friends more convenient and your drive more entertaining. The 2018 Fit is designed with your driving experience in mind with features like the available Honda LaneWatch™ blind spot display<sup>1</sup>, the available Honda Satellite-Linked Navigation System™<sup>2,3</sup> and the multi-angle rearview camera<sup>1</sup> with available dynamic guidelines. From outside to in, the 2018 Fit has all the toys to keep you and your passengers happy.

### Key Features

HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface<sup>1,2</sup>

Available 7" Display Audio System<sup>1</sup>

Available 180-watt AM/FM audio system with MP3/Windows Media® Audio playback capability and 6 speakers

Available SiriusXM™<sup>4</sup>

Available text message function<sup>1,2</sup>

Available Wi-Fi tethering<sup>2</sup>

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. connection to vehicle's built-in Wi-Fi hotspot, or 2. GPS satellite signal reception and available cellular data and/or voice connection; associated charges (incl. data plans, roaming charges and/or other amounts charged by your wireless carrier) may apply.

3. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

4. Only available in certain areas. Includes a no-charge trial of three months.

# Has a sixth sense for safety.

## BRAKE

### FORWARD COLLISION WARNING (FCW) SYSTEM

The available FCW system<sup>1</sup> is integrated with CMBS<sup>®</sup> and designed to detect the presence of vehicles in front of you, issuing alerts if you're approaching with too much speed. If you fail to respond to the alerts, CMBS<sup>®</sup> is triggered into operation.

### COLLISION MITIGATION BRAKING SYSTEM™ (CMBS<sup>®</sup>)

To help reduce the likelihood or severity of a frontal impact, the available CMBS<sup>®</sup> is engineered to apply brake pressure if you don't slow down when it detects you're at risk of a collision. If it still senses an imminent collision, CMBS<sup>®</sup> is designed to brake firmly.

### LANE DEPARTURE WARNING (LDW) SYSTEM

The available LDW system<sup>1</sup> is designed to monitor vehicle lane position and alert you if your vehicle drifts into a new lane when you haven't signaled.

### LANE KEEPING ASSIST SYSTEM (LKAS)

The available LKAS<sup>1</sup> is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

### ROAD DEPARTURE MITIGATION (RDM) SYSTEM

The available RDM system<sup>1</sup> is designed to help steer and even apply the brakes to help keep the vehicle from leaving the road.

### ADAPTIVE CRUISE CONTROL (ACC)

The available ACC system<sup>1</sup> is designed to keep a set speed and set following interval behind the vehicle detected ahead of yours.

The Honda Sensing™ technologies are designed to help improve the driver's situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity. Whether you're driving or sitting in the passenger seat, feel more confident with the added safety of driver assistive innovation from Honda.

The Honda Sensing™ suite of safety and driver assist features are only available on continuously variable transmission (CVT) vehicles.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.

**Solid on safety.**

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

## Active safety

### Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System<sup>1</sup> (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brakeforce Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

### Hill Start Assist<sup>1</sup>

If you take your foot off the brake when stopped on an incline, this feature is engineered to temporarily maintain brake pressure to help prevent your Fit from starting to roll backwards.

### Vehicle Stability Assist (VSA<sup>®</sup>) with Traction Control

Vehicle Stability Assist<sup>1</sup> with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

## Passive safety

### Seat belt safety

The Fit helps prepare you for the unexpected with 3-point height-adjustable front seat belts with automatic tensioning system and 3-point rear seat belts.

### Child safety

The Fit features childproof rear door locks, as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system.

### Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

### Advanced Compatibility Engineering<sup>™</sup> (ACE<sup>™</sup>) body structure

The highly innovative, next-generation Advanced Compatibility Engineering<sup>™</sup> (ACE<sup>™</sup>) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in a severe collision to help prevent intrusion into the passenger cabin.

### Six standard airbags

The cabin of the Fit contains six standard airbags. It features an i-SRS front airbag system, as well side curtain airbags designed to deploy in the event of a rollover. Plus, it has SmartVent<sup>™</sup> side airbags, which are designed to deploy in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

### HondaLink<sup>™</sup> Assist Automatic Emergency Response System

The available HondaLink Assist Automatic Emergency Response System<sup>1,2,3</sup> helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System<sup>1</sup> is designed to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth<sup>®</sup>-paired phone as long as it has reception, does not require a subscription and gives you added peace of mind while you're on the road.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

3. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

## The Power of Dreams, in all their forms.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology; the race-inspired performance of our motorcycles and automobiles; the world's most advanced humanoid robot, ASIMO; HondaJet, the fastest, highest flying and most fuel-efficient aircraft in its class; and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to help preserve our planet. This belief is why we make significant efforts to help ensure preservation of the environment in virtually all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 140,000 trees in Canada over the last 11 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power of Dreams.

**We're Here.** At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit [honda.ca](http://honda.ca). It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

**We're Ready to Help.** When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

**Honda Plus Extended Warranty.** Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

**Honda Financial Services.** Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

**New Honda Vehicle Warranty.** The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor's Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

**Genuine Honda Accessories** give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

**Genuine Honda Replacement Parts** are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

**Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Properly secure all items stored in cargo areas. Always read the vehicle owner's manual for detailed vehicle operation and feature information.**

Honda reserves the right to terminate or change any of the services and/or features listed in this brochure at any time, for any reason. Some features require registration. Certain features may transmit to Honda and/or other service providers a vehicle's location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to track a vehicle. - Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.
- Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. connection to vehicle's built-in Wi-Fi hotspot, or 2. GPS satellite signal reception and available cellular data and/or voice connection; associated charges (incl. data plans, roaming charges and/or other amounts charged by your wireless carrier) may apply.
- Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
- Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
- Coverage varies by market.
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>
