

STANDARD SECURITY PLUS

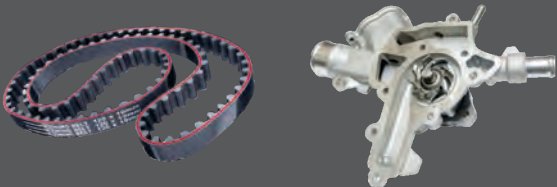

1. Axle assembly components (front, four-wheel, and all-wheel drive): All internally lubricated components within the drive axle housing includes: Bearings, carrier assembly, gears, thrust washers, shafts, and spacers. Drive axle housing, but only if damaged as a result of a breakdown of a covered drive axle assembly component. In addition, the following external drive axle parts: Axle shafts, center support bearing and mount, constant velocity joints and boots, drive shaft, locking hubs, universal joints and flex discs, viscous coupling.

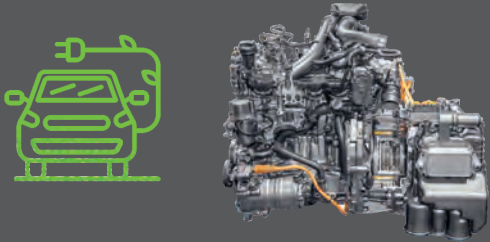

2. Engine components: All internally lubricated components including: Camshaft, camshaft bearings, connecting rods, connecting rod bearings, crankshaft, crankshaft bearings, freeze plugs, lifters, mechanical fuel pump, oil pump, oil pump gears, oil pump shaft, pistons, piston rings, push rods, rocker arms, rocker arm shafts, rocker arm pivots, timing chain, timing gears, timing chain guides, valves, valve lash adjusters, valve seats, valve guides, variable valve timing parts, and wrist pins. Rotary engine components including apex seal, bearings, eccentric shaft, and rotor. Cylinder head, engine block, or rotor housing, but only if damaged as a direct result of a breakdown of a covered engine component.

External Engine Parts: Cam/valve covers, crankshaft pulley, engine mounts, engine oil reservoir, engine oil reservoir pump, equipment drive shaft, exhaust manifolds, flex plate, flywheel, harmonic balancer, intake manifold, intercooler, oil pan, pulleys, ring gear, timing cover, (only if damaged by a Covered component), timing belt, timing belt tensioner, timing gears, thermostat, and water pump.

3. Hybrid/EV Components: Actuator assembly shift control; electric motor/generator(s) and all internal components; hybrid vehicle transaxle assembly; power split device and all internal components; reduction/reducer box and all internal components; transmission Input damper assembly.

Transmission (automatic) components: All internally lubricated components including: Bands, bearings, carrier, drums, gears, governor, hubs, pump, pump housing, servos, shafts and valve body. Transmission case, only if damaged as a direct result of a Breakdown of a Covered transmission component. In addition, the following external transmission parts: Torque converter, transmission mounts, vacuum modulator.

Transmission (manual) and transfer case components: All internally lubricated components including: Bearings, gears, hubs, shafts, shift rails, shift forks, synchronizers. Transmission and transfer case, but only if damaged as a direct result of a Breakdown of a Covered transmission or transfer case component. In addition, the following external transmission and transfer case parts: Transmission mounts.

Note: This document provides an overview of coverage available under an Assured Vehicle Protection vehicle service contract. Actual contract coverages, limitations and exclusions may vary. See your vehicle service contract for full details.

(877) 428-7252

Administrator:
Assured Vehicle Protection, Inc., 6300 Glenwood St., Ste 200, Mission, KS 66202 (877) 428-7252. In the State of California, administration is provided by Auto Knight Motor Club Inc., 10151 Deerwood Park Blvd., Bldg. 100, Ste. 500, Jacksonville, FL 32256, Tel: (877) 428-7252. In the States of Maine, Texas, Utah and Wisconsin, administration is provided by, United Service Contract Administrative Company, P. O. Box 9320, Mission, KS 66201-2020, 877-428-7252. In the state of Florida, LOTSOLUTIONS, INC. an Administrator is providing administration on behalf of Lyndon Southern Insurance Company.

Insurance Company:
OUR obligations under this Vehicle Service Contract are insured under an insurance policy issued by an "A" rated insurance company.

Note: This document provides an overview of coverage available under an Assured Vehicle Protection Vehicle Service Contract. Actual contract coverages, limitations and exclusions may vary. Please ask the dealer for a copy of the vehicle service contract for full details.

PARAMOUNT SECURITY PLUS

A REPAIR BILL IS THE
LAST THING YOU NEED

ELIMINATE YOUR WORRIES
ABOUT MAJOR REPAIR COSTS

PARAMOUNT SECURITY PLUS

1. Air Conditioning/Heating Components:

Compressor, compressor clutch assembly, condenser, condenser fan and motor, evaporator, expansion valve, heater control valve, heater core, orifice, pressure regulator assembly, receiver dryer/accumulator, temperature control programmer and module.

2. Axle Assembly Components (front, rear, four-wheel and all-wheel drive):

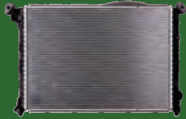

All internally lubricated components within the drive axle housing including: Bearings, carrier assembly, gears, thrust washers, shafts, and spacers. Drive axle housing, but only if damaged as a direct result of a Breakdown of a Covered drive axle assembly component. In addition, the following external drive axle parts: Axle shafts, center support bearing and mount, constant velocity joints and boots, drive shaft, locking hubs, universal joints and flex discs, viscous coupling.

3. Brake Components: Brake booster, compensating valve, disc brake calipers, hydraulic lines and fittings, hydro boost and accumulator, proportioning valve, master cylinder, wheel cylinders.

4. Cooling System Components: Engine fan, engine fan clutch, radiator.

5. Electrical Components: Alternator, alternator voltage regulator, automatic temperature control module, blower fan and motor, convertible top motor, cruise control actuator/servo, cruise control vacuum motor, distributor, electric fuel pump, engine cooling fan motor; engine cooling fan temperature sensor or switch, horn, ignition coils, manually operated switches, power antenna motor, power door lock actuator, power mirror motor, power seat motors, power window motor, retractable headlamp motor, starter drive, starter motor, starter relay, starter solenoid, sunroof motor, windshield washer pump, wiper motor.

6. Electronic components: Cruise control computer, electronic ignition module and pick-up, electronically controlled transmission/transfer case computer and sensors, electronically modulated suspension computer, compressor and sensors, engine control computer and sensors.

7. Engine Components: All internally lubricated components including: camshaft, camshaft bearings, connecting rods, connecting rod bearings, crankshaft, crankshaft bearings, freeze plugs, lifters, mechanical fuel pump, oil pump, oil pump gears, oil pump shaft, pistons, piston rings, push rods, rocker arms, rocker arm shafts, rocker arm pivots, timing chain, timing gears, timing chain guides, valves, valve lash adjusters, valve seats, valve springs, valve guides, variable valve timing parts, and wrist pins. Rotary engine components including apex seal, bearings, eccentric shaft, and rotor. Cylinder head, engine block, or rotor housing, but only if damaged as a direct result of a breakdown of a covered engine component.

In addition, the following External Engine

Parts: Cam/valve covers, crankshaft pulley, engine mounts, engine oil reservoir, engine oil reservoir pump, equipment drive shaft, exhaust manifolds, flex plate, flywheel, harmonic balancer, intake manifold, intercooler, oil pan, pulleys, ring gear, supercharger, timing cover, timing belt, timing belt tensioner, timing gears, thermostat, turbocharger, turbo flexplate, turbo wastegate, vacuum pump, water pump.

8. Fuel System Components: Diesel fuel injection pump, fuel injectors, fuel pressure regulator.

9. Hybrid/EV Components: Actuator assembly shift control; electric alternating current AC compressor; electric motor/generator(s) and all internal components; hybrid battery junction block; hybrid battery main cable; inverter/converter/transformer units and all internal components; hybrid vehicle transaxle assembly; power steering electronic control unit assembly; power split device and all internal components; reduction/reducer box and all internal components; transmission Input damper assembly.

10. Steering Components: All internally lubricated components within the steering gear box, rack and pinion, and pump including: valves, gears, and bearings. Steering gear box, rack and pinion, and pump housing, but only if damaged as a direct result of a breakdown of a covered steering component. In addition, the following external steering parts: Center link, idler arm, pit man arm, steering knuckles, tie rod ends, tie rod adjustment sleeves.

11. Suspension Components (front and rear):

Bushings, control arm shafts, king pins, links, lower ball joints, radius arms, spindle, spindle support, springs, stabilizer bars, steering knuckle, torsion bars, upper ball joints, upper and lower control arms and wheel bearings.

12. Transmission (Automatic) Components:

All internally lubricated components including: Bands, bearings, carrier, drums, gears, governor, hubs, pump, pump housing, servos, shafts, valve body, seals, and gaskets. Transmission case, only if damaged as a direct result of a breakdown of a covered transmission component.

13. Transmission (Manual) and Transfer

Case Components: All internally lubricated components including: Bearings, gears, hubs, shafts, shift rails, shift forks, synchronizers. Transmission and transfer case, but only if damaged as a direct result of a breakdown of a covered transmission or transfer case component. In addition, the following external transmission and transfer case parts: Transmission mounts.

14. Seals and gaskets: are covered when required for a covered repair.

Protect Yourself From The Unexpected

- Water Pump Replacement - \$455
- Timing Chain - \$1,250
- Engine Overhaul - \$3,545
- CVT Transmission Overhaul - \$3,950
- Motor Mounts - \$490
- Constant Velocity Joint - \$305

Estimated repair costs for typical repairs. The cost to repair your vehicle may be different.
