

The Power to Surprise

2017
FORTE5

MADE FOR [FUN IN FUNCTIONAL]

//////////

Forte5 has earned a place in Canadian hearts and minds because it combines the utility of a hatchback with the dynamic style and feel that's all Kia. Now for 2017, the newly redesigned Forte5 takes to the road with an even bolder front design and a sportier personality, highlighted by available 18-inch alloy wheels. The technology on board will keep you at the forefront, with available innovations like blind spot detection¹ and Android Auto^{®4,6} smartphone integration. All in a car that's just the right fit for your lifestyle. That's your 2017 Kia Forte.

BIGGER. STRONGER. MORE EFFICIENT

Designing an engine usually requires a trade-off between power and fuel efficiency. Kia's engineers have hit the sweet spot with the available 201-horsepower, 1.6-litre turbocharged engine and a sport-tuned suspension. It's mated to a new 7-speed dual-clutch, Sportmatic automatic transmission.

ANDROID AUTO^{®4,6}

Google and Forte5 are made for each other, with a Google-themed environment in the Android Auto[®] smartphone integration system. That's on top of other Google favourites like access to Google Play Music, Google Maps and Google Hangouts messaging. Want more? Visit the Google Play Store to download other great apps and tools to use with your Forte5.

LANE-KEEP ASSIST SYSTEM¹

Drift outside your lane without signalling and the available lane-keep assist system will provide you with visual and audible alerts. If there's no correction, it will automatically steer you back into your lane.
