

MAZDA CX-3

We do not simply exist to make cars. We strive to achieve something more. To inspire you every day through exhilarating experiences that help you feel more focused, more connected. And more alive.

This is what drives us to push boundaries and defy convention, every day. It's why we refined the rotary engine in 1967, resurrected the roadster in 1989 and reimagined how an automobile is developed, piece by piece, in 2006. Instead of simply redesigning a car, we started from a blank sheet of paper and built the ideal vehicle around how it would make you feel.

Today, we stand more focused than ever. Creating breathtaking designs and revolutionary technologies like Skyactiv® Technology and i-Activ AWD®. Built to forge an even deeper connection between you and your Mazda. An emotional bond, formed at first glance and reinforced every time you get behind the wheel. To us, this bond is everything. And it inspires us to design better, innovate more and make each Mazda smarter and safer than what came before. All to make everything about driving even better. Including you.

Since 1920, Hiroshima, Japan has been our source of intense courage, commitment and perseverance. We have consistently found inspiration through this community; a shared spirit that pushes us to rise above any challenge. Together, we have achieved more than anyone could have imagined. We have built a global company from the ground up. We have developed innovations that others deemed impossible—from the rotary engine to Skyactiv® Technology and beyond. Most of all, we have never strayed from our commitment to humanity. We give all of ourselves, use our hands to craft and make things that matter, that have soul and heighten your state of being.

MAZDA CX-3

Beautiful design and thoughtful engineering heighten your senses through a unique connection between driver and machine. Everything must work seamlessly to create balance and precision. The 2019 Mazda CX-3 embodies this approach—with stunning lines and a bold stance, making it look just as good standing still as it does in motion. Throughout the cabin, clean insightful design helps eliminate distraction. On the road, the intuitive handling of the CX-3 leaves you feeling invigorated and ready to engage with the world around you.

「魂動」 KODO Soul of Motion

Our design philosophy is simple, yet highly challenging to accomplish. Everything we create must capture motion, even at a standstill. In the same instance, it should evoke emotion. This process requires a human touch, hands on clay, shaping the form. Eliminating all that is unnecessary, leaving only what is beautiful. Lines should effortlessly draw your eye to every angle and curve. This sense of movement inspires an urge to get behind the wheel. We call this Kodo: "Soul of Motion" design. It's what makes a Mazda feel like a Mazda.

THE ART OF SIMPLICITY

The Japanese art of flower arrangement, Ikebana, expresses a philosophy of essentialism. Ikebana uses color combinations, graceful lines and a sense of harmony among the materials, the vase and the setting. Its beauty comes from refining a composition to its simplest form. Similarly, Mazda's design philosophy is based on extracting beauty by showcasing what is essential and eliminating the unnecessary. A philosophy eloquently expressed in the new interior design of the Mazda CX-3.

EMBRACING WHAT IS MOST ESSENTIAL

As you enter the Mazda CX-3, you'll appreciate Japanese essentialism firsthand. All extraneous details have been stripped away to accentuate motion, space and clarity. Colors work in harmony. Available materials like the Lux Suede® trim and leather upholstery are pleasing to the touch and the eye. Natural light emphasizes a continuous clean line that wraps around the entire cabin, creating a more open and calming space for you and your passengers.

「人馬一体」 ONENESS

Connecting car and driver

Every Mazda aspires to the same single goal—oneness between the vehicle and its driver. When you experience this seamless connection, you engage in the moment and leave all distractions behind. Your senses become heightened. You feel empowered. Restored. And leave the car feeling better than when you first got in. From the meticulous consideration of our design to how our cars effortlessly respond to even the slightest direction from the driver, each detail in every Mazda brings you a more pure driving experience.

DESIGN WITH A SINGLE FOCUS: YOU.

The 2019 Mazda CX-3 is artfully crafted around you—the driver. With each carefully engineered detail, from the steering wheel centered to your body to the ergonomic floor-mounted gas pedal, the car becomes seamlessly connected to you. Every dial, button and knob throughout the cockpit is positioned for optimal interaction. Available Apple CarPlay™ integration¹ allows effortless access to your iPhone's maps, playlists, contacts and compatible apps with your voice through Siri. For Android users, Android Auto™ integration¹ is also available. Everything you need is a tap or voice command away—enhancing the bond between you and your drive.

Available Apple CarPlay™ integration shown. ¹ Available dealer-installed feature. Requires compatible phone and standard text and data rates apply. Third-party interface providers are solely responsible for their product functionality and third-party terms and privacy statements apply. Don't drive while distracted or while using a hand-held device. Android and Android Auto are trademarks of Google LLC. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc.

A NATURAL EXTENSION OF THE DRIVER

Keeping you connected to your music, entertainment, friends or colleagues, all while keeping your eyes focused on the road, Mazda Connect™¹ is as intuitive as it is interactive. Optimally positioned just beyond the center console armrest, the multifunction Commander control lets you navigate the system's features without distraction. All information is shown on the 7-inch full-color center display. It's technology designed to minimize mental and physical dissonance—keeping you in close touch no matter how far you travel.

¹ Don't drive while distracted. Even with voice commands, only use Mazda Connect™/other devices when safe. Some features may be locked out while the vehicle is in motion. Not all features are compatible with all phones. Message and data rates may apply.

BALANCING SILENCE AND SOUND

Too much road noise can be distracting and tiresome. Not enough can be disorienting. Through an overall improvement in noise-damping and insulation, our engineers were able to reduce the overall amount of exterior noise that penetrates the cabin; while still allowing for the optimal amount of sound from the road and engine. Your connection to the road is heightened. Your levels of stress and fatigue are lowered. It's all about shielding you from all that is unnecessary, so you can focus on what will bring you joy.

RESPONSIVE. AND RESPONSIBLE.

Skyactiv® Technology enables us to orchestrate what we believe to be the ideal driving experience. From the chassis to the transmission to the engine and beyond, we've designed every single aspect of our cars to be powerful, efficient and intuitive to your needs. Every effort has been made to enhance the joy from driving through a completely holistic, smarter approach: Skyactiv® Technology. Bringing car and driver together to create inherent connection.

TO HEIGHTEN YOUR SENSES,
WE CREATED A FEW OF OUR OWN.

Avoiding an accident in the first place is always the safest route. With the available i-Activsense® suite of safety features,¹ sophisticated safety innovations alert you to hazards to help you avoid collisions—or lessen their impact. These features help improve your visibility and awareness of the road and monitor the traffic conditions around you. When needed, these innovations will even perform automatic braking.¹ i-Activsense creates a more confident driving experience so you can feel focused and engaged with every drive you take.

AWD

IDEAL DRIVING IN EVERY CONDITION

Control. That's the crux of everything that goes into engineering our available all-wheel-drive system. When weather or road conditions change, i-Activ AWD® helps predict the possible loss of traction by actively monitoring everything from outside temperature and windshield wiper usage to the driver's steering and braking patterns. If, for example, the outside temperature is cold enough for snow and your windshield wipers are on, the AWD system recognizes that the roads might be slippery, and prepares for possible front-wheel slip. If the wheels do in fact slip, the system can quickly transfer engine power to the rear axle. It's a simple yet advanced way to help deliver ideal traction in a variety of road conditions.

SELF EXPRESSION AT EVERY LEVEL

The closer you examine the Mazda CX-3, the more intriguing our story becomes. Mazda's Kodo design philosophy is evident across every aspect of the CX-3—right down to its alloy wheels. Our entire selection of wheels is designed to help you express your own character, to create a greater emotional bond with your Mazda.

THE ART OF SEDUCTION

One of the first things you'll notice with the Mazda CX-3 is its color. The glossiness. The luster. This isn't a paint job you'd typically find on a production car. This level of detail, this level of depth and translucency, is what you'd expect at a custom car show. Each CX-3 color is created by a color designer and master painter who work together to ensure the final product is exactly as intended. The pair relentlessly pursues the ideal color—stretching the possibility of the paint. Impassioned by their craft, working together to accentuate the beautiful lines of the Mazda CX-3.
