

Innovation that excites

2014
370Z®

NISSAN 370Z®

What if your car could put a smile on your face, confidence in your hands and goose bumps all over? Here are just a few ways 370Z® gives you an unforgettable drive.

SynchroRev Match®

The world's first rev-matching manual transmission puts a seamless downshift in the palm of your hand every time – helping to keep the chassis balanced in enthusiastic driving!

Variable Valve Event and Lift (VVEL) technology, for quicker response and a broader torque curve.

332 horsepower has never been more exhilarating.

Lightweight aluminum suspension components

and super-light forged alloy wheels give you quick response and impressive grip while helping provide a smooth, controlled ride.

Innovation that excites

WHAT IF_
LEADING-EDGE AND LEGENDARY
CAME IN ONE SWEET PACKAGE?

It's a claim few sports cars can make. And one absolutely worth experiencing. Your first stop – a curvy road not far from town. A perfect place to hear a dual exhaust bounce 332 HP of pure adrenaline off a canyon wall. To feel the massive braking power of available 14" front discs as you set up for a tight hairpin turn. The feedback through the wheel and the seats as a dynamically balanced chassis just grips and grips and grips. More? How about a perfect downshift thanks to the world's first available rev-matching manual transmission. And somewhere along the way, find a scenic turnout, and just take in the aggressive design that's inspired awe and envy for over 40 years. Then fire up that 3.7-litre V6, stand on it, and you're gone. The 2014 370Z.[®] Sweet.

00:04 sec

00:09 sec

00:16 sec

00:21 sec

THE FEELING OF UNLIMITED POSSIBILITIES.

Taste freedom as the breeze brushes your face. Hear the sound of 332 pure horsepower through a tuned exhaust. Embrace the sky as the Roadster folds its power top in about 20 seconds. Drop it from the cozy cockpit¹ or even from the outside by pushing a button on the driver's door. It's time to rev up your senses.

Nissan 370Z[®] Touring Roadster Sport with Navigation shown in Magnetic Black.

¹Do not drive the vehicle with the top partially opened. Always make sure the top is either fully opened or closed before driving. See Owner's Manual regarding proper use.

NISSAN SYNCHROREV MATCH®
INNOVATION THAT'S A MATCH MADE IN DRIVING HEAVEN.

What if you could have a perfectly matched shift every time? SynchroRev Match® gives you the shifting skills of a pro, for a smoother, controlled drive, from your favourite twisty road to your daily commute. It's one manual transmission so smooth, it would make an automatic jealous. Except maybe, the 370Z®'s exceptionally talented 7-speed automatic.

A world's first. Included in the Sport Package, SynchroRev Match® technology – the first in any production car – monitors the 6-speed manual's clutch pedal, shift lever and vehicle speed. As you shift to a lower gear, the system will “blip” the throttle to the ideal engine rpm for a supremely smooth downshift as you let out the clutch. The system also works when upshifting to give you a smooth flow of power when accelerating.

Control at your fingertips. Want effortless cruising? Put the 7-speed automatic transmission in “D.” For a quick gear change, just pull the steering column-mounted lightweight magnesium paddle shifters. In Manual mode, you get manual-style control with a nudge of the shift lever or a pull of the paddle shifters. The transmission can even hold a gear in cornering for better balance, or downshift before a corner for more effective braking. And when a downshift is needed, Downshift Rev Matching automatically opens the throttle to match the rpm for smoother gear changes.

Legendary power. Making the most of this amazing technology, the 370Z® is powered by the 4th-generation VQ V6 engine. With 3.7-litre displacement for massive muscle, this 332 HP dynamo features advanced Variable Valve Event and Lift (VVEL) technology that continuously tunes valve lift and timing for quicker response and a broader torque curve, while optimizing fuel efficiency and reducing emissions. And while this extensive engineering may sound intriguing on paper, the exhilaration from idle to the 7500-rpm redline – on the straights or through the corners – is pure magic.

**MAY THE G-FORCE
BE WITH YOU.**

Designed to conquer every corner, the Nissan 370Z® starts with a low centre of gravity and a short wheelbase for quick response. Structural supports under the hood and along the body reinforce the chassis to handle the loads the suspension can dish out. Add in an enthusiast's wish list of high-performance componentry. And at every turn of the wheel, find pure joy as the 370Z® turns handling science into pure performance art.

Lightweight suspension components. The lighter a suspension's components, the more quickly it can react to the driver and bumps in the road. Use of strong yet lightweight aluminum makes the 370Z® suspension extremely responsive. Its double-wishbone front and 4-link rear design helps to keep the tires vertical to the ground, maximizing their contact patches. Dual flow pass shocks enhance control. And super-light forged 19" alloy wheels are available for even quicker response.

4-piston brake calipers on 14" front rotors. Balance doesn't just apply to cornering. Bringing the powerful 370Z® to a halt are its largest brakes ever – available 14" front rotors, with the gripping power of 4-piston front calipers. Purpose-designed ducting helps to reduce fade and provide predictable and precise stopping power.

53/47 weight distribution. Some consider a static 50/50 balance to be the perfect weight distribution for handling. But Nissan engineers realized that a 53 front/47 rear static ratio is actually ideal. At the precise moment the driver accelerates out of a corner's apex, the weight distribution shifts rearward and becomes an approximate 50/50 balance. This translates into enhanced tire contact for better acceleration, quicker turns and a handling feel that's uniquely 370Z®.

Vehicle Dynamic Control. A great sports car shouldn't just exhilarate, it should also inspire confidence. Vehicle Dynamic Control (VDC) on the 370Z® continuously monitors the speed of each wheel, steering angle, yaw, lateral G-forces and even braking pressure. It compares the data to the steered vehicle path and, if it senses the onset of plowing (understeer) or fishtailing (oversteer), VDC brakes individual wheels and/or reduces engine power to help keep you on your steered course.¹

Nissan 370Z® Touring Coupe shown in Midnight Blue with optional equipment.

¹VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

DESIGNED FOR THE REAL WORLD.

Seats designed to hold you. The 370Z[®]'s driver seat shows how seriously we take every detail of driving. The upper seatback has cutaway areas to help your arms move freely for steering and shifting. The lower seat cushions have cutaway areas to allow you to more easily work the pedals. Aggressive side bolsters and anti-slip materials on the seat help hold you in place.

A place for everything. While it's fun to attack your favourite twisty road, a sports car also has to function in day-in, day-out driving. To keep things orderly, the 370Z[®] features 3 cup holders, a lockable glove compartment, dash-mounted storage (not available with navigation), parcel shelves behind both seats and a handy parcel box behind the passenger seat.

Coupe cargo area. Plenty of open space for the important things in life – like sports gear. An available retractable cargo cover helps keep things out of sight.

Roadster trunk. A smartly designed convertible top means usable trunk space. Even with the top down, you can still fit a golf bag in the trunk.

Nissan 370Z[®] Touring Coupe Sport with Navigation shown in Persimmon Leather. U.S. instrumentation shown.

EVEN WHEN REALITY BITES.

High-performance protection. The Nissan Advanced Airbag System includes dual-stage supplemental front airbags equipped with seat belt sensors and an occupant-classification sensor. These dual-stage airbags adjust their inflation rate, depending on the severity of impact and seat belt use. If the passenger seat is empty, a sensor actually deactivates that airbag. In addition, standard side-impact supplemental airbags are built into the seats, so they move with you as you adjust your seat. Standard curtain (door-mounted on Roadster) side-impact supplemental airbags help protect you and your passenger.¹

6 STANDARD AIRBAGS¹

Seat belt technologies utilize pre-tensioners to help tighten the belt when front airbags deploy. And if your body puts too much force on the belt, load limiters give a bit.

Active Head Restraints help reduce the chance of whip-lash injuries by moving up and forward toward your head during certain rear-end collisions.

¹Airbags are only a supplemental restraint system; always wear your seat belt. Do not use rear-facing child restraints in this vehicle. Also, in addition to any other requirement of applicable law, all children 12 and under should be properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated airbags shown for illustration purposes only; actual coverage area may differ. Airbags deflate after deployment.

**EVEN THE TECHNOLOGY
IS DESIGNED TO PERFORM.**

Nissan 370Z® Touring Coupe Sport with Navigation shown in Black Leather.

The 370Z® keeps a strong connection to your world as well as the road. With the available Bose® audio system, you've got an amazing choice of entertainment to create a soundtrack for your drive. And with the available touch-screen voice-activated Nissan Hard Drive Navigation System, you've got so much more than just directions!

Knowledge is king. The available Nissan Hard Drive Navigation System helps steer you clear of traffic jams, thanks to NavTraffic real-time traffic advisories.^{1,2} Hungry for more than just directions? The system also provides you with trusted ratings and reviews by Zagat Survey®. And with the available RearView Monitor, shift into "Reverse" and you get a glimpse of what's directly behind you on the navigation system's large 178 mm (7") VGA screen.³

Bose® audio system. Because even the most dedicated enthusiast might want to listen to something other than its spine-tingling dual-exhaust note, the 370Z® Coupe and Roadster feature an available Bose® audio system custom-engineered for the unique shape of the interior. And your choices in entertainment are nearly limitless.

USB input. Plug your iPod® into the available USB input and you can control its functions through the audio system or touch-screen monitor, plus get song readouts on the digital display.⁴ No iPod®? No problem. You can also play digital music files from a USB flash drive.⁴

SiriusXM Satellite Radio. With 170 channels of news, sports, music and more, there's always something worth listening to. If your favourite artist is playing on one of those channels, the 370Z®'s audio system alerts you, and asks if you want to switch over.²

Bluetooth®. The Bluetooth® Hands-Free Phone System lets you make and receive calls through the audio system. On 370Z® models with the available navigation system, you can even stream music from any compatible device via Bluetooth® wireless technology.^{1,5}

BOSE®

(((SiriusXM)))

¹Factory-installed option. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ²XM and SiriusXM Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Basic monthly subscription required and sold separately after trial period. NavTraffic® is available in select North American markets. In Canada, at time of printing, incident and flow data is available for 7 metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Toronto, Ottawa, Montreal and Quebec City). Limited flow data is available for Toronto. Subscription sold separately after trial period. All subscriptions subject to customer agreement at siriusxm.ca/terms. All fees and programming subject to change. © 2013 Sirius XM Canada Inc. The Sirius, XM, and SiriusXM names and all related marks and logos are trademarks of Sirius XM Radio Inc. GENUINE NISSAN ACCESSORIES

Every Genuine Nissan Accessory is: custom-fit, custom-designed and durability-tested; backed by Nissan's 3 year/60,000 km Accessories limited warranty; and can be financed when installed by dealer at time of purchase.²

- A. **Front Chin Aero Deflector**
Less turbulence. More downforce. Looks cool, too.
- B. **NISMO® Rear Decklid Spoiler³ (Coupe Only)**
Track-inspired for the ultimate performance statement.
- C. **Illuminated Kick Plates**
Let your door sills play dress up.
- D. **NISMO® Cat-back Exhaust System³**
A bump in horsepower and torque, plus a fearsome sound.

Additional Accessories:

- Carpeted Trunk Mat
- Portable Cargo Organizer
- NISMO® Brake Pads³
- NISMO® Suspension Kits³
- NISMO® Shift Knobs³
- Splash Guards
- And More

BUYING AND OWNING

Finance Options Through Nissan Canada Finance, we offer many attractive purchase and lease programs, all with competitive rates and terms. With our flexible finance options, driving home a new Nissan has never been easier. Consult your local Nissan Dealership for complete details.

No-Nonsense Warranty Every 2014 Nissan is covered by a 3 year/60,000 km⁴ Comprehensive New Vehicle Warranty, a 5 year/100,000 km⁴ Powertrain Warranty, an 8 year/130,000 km⁴ Emission Control Warranty on selected components, and a

5 year/unlimited km Corrosion Perforation Warranty. As a Nissan owner, you'll also receive a 3 year Roadside Assistance program available to you 24 hours a day. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Added Security Plan (ASP) For ultimate peace of mind, consider the Nissan Added Security Plan. It's our commitment to be there for you, and to help you leave your worries behind. Different plans, available for both purchased and leased vehicles, let you tailor the coverage to your driving habits.

Nissan has taken care to ensure that the colour swatches presented here are the closest possible representations of actual vehicle colours. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see your local Nissan Dealership for actual colours and pricing information.

²See your Nissan Dealership and read the actual limited warranty. ³S-tune components are engineered by NISMO® for the enthusiast that drives on the street. S-tune components offer credible, measured increases in performance, but with an additional feature that the aftermarket can't match – each S-tune component is covered by Nissan Parts and Accessory Limited Warranty, up to 36 months/60,000 km (whichever occurs first) if installed at time of vehicle sale (like any other Genuine Nissan Part or Accessory). ⁴Whichever occurs first.

Nissan's environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100% electric LEAF[™]. Improving fuel efficiency through our PUREDRIVE[™] measures. And reducing the environmental impact of manufacturing, as seen at our new, energy-efficient, low-emissions paint plant in Tennessee.
