2019 Pilot
This is where it begins. Where their goals become yours too. You’re still driven, but how you get there is about to change.
Settling down doesn’t mean having to settle.

Journeyers, meet the 2019 Pilot – the Honda paragon of utility and efficiency. Equipped with the Earth Dreams™ engine and available idle-stop, the Pilot is as smart as it is stylish. Its roomy interior seats up to eight passengers¹ and third-row access is a breeze using the available one-touch second row seats. Plus, its cargo capacity makes any packing list just about limitless. Honda Sensing™ safety technologies come standard, so you’ll take confidence with you on every trip. With a sophisticated interior inside the modern, sleek exterior, you won’t just catch attention – you’ll ride comfortably at the centre of it. The 2019 Pilot is confident, bold and ready for anything. Are you?

Key features:
- Honda Sensing™ Technologies
- Apple CarPlay™ and Android Auto™
- Intelligent Variable Torque Management (i-VTM4™) AWD system
- Available seating for up to 8
- Available Satellite-Linked Navigation System
- Available Advanced Rear Entertainment System with Blu-ray™ player

¹ Seven passengers on the seven-passenger Touring and Black Edition models with second-row captain’s chair.
² None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle’s Owner’s Manual.
³ Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle’s built-in Wi-Fi hotspot. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
⁴ Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

Forget sacrificing style for space. The 2019 Pilot features bold, sculpted lines, and more cargo space than Dad’s shorts.

Accessorized model shown.
This Pilot is a bit of a maverick.

In the 2019 Pilot, you can either take the scenic route, or you can be the scene itself. In addition to its sleek body, the 18” aluminum-alloy wheels, the LED daytime running lights and the LED taillights blend style with function. And while others stare, you’ll see more clearly thanks to the multi-angle rearview camera with dynamic guidelines.

Want to give the smooth, sculpted styling of your Pilot a little more edge? Exclusive to Canada, the Black Edition Pilot brings the attitude, and everything else you’ll need. 20” black aluminum-alloy wheels, a gloss black finish front grille bar and black door handles bring a refined, yet assertive exterior to life, while Black Edition seat stitching and floor mats ensure the interior is a sight to behold, and be envied.

**Key Features:**
- LED headlights with auto-on/off
- LED daytime running lights
- Available LED fog lights
- Available 20” aluminum-alloy wheels
- Available roof rails

---

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. A few features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle’s Owner’s Manual.
With the all-new 8-passenger Touring trim, you can open up another set of eyes.

Suddenly, every trip is an all-inclusive.

The interior of the 2019 Pilot surrounds you and your passengers in sophistication thanks to the available interior ambient lighting and soft-touch dash and door materials. And with the available perforated leather-trimmed seating surfaces and the available leather-wrapped steering wheel, every ride is steeped in refinement. While the available panoramic moonroof brightens the cabin, the heated front seats and available heated second-row outboard seats make it even cozier to ride in. When comfort meets style, the Pilot makes every ride worth savouring.

Key Features:
- Remote engine starter
- Driver’s seat with available 10-way power adjustment including power lumbar support
- Proximity key entry system and pushbutton start
- Tri-zone automatic climate control
- Available panoramic moonroof
- Available memory-linked side mirrors and driver’s seat position

Plus room for one more. With the all-new 8-passenger Touring trim, you can open up another set of eyes.
Performance that fits your life.

The 2019 Pilot has room for up to eight passengers (seven on the seven-passenger Touring and Black Edition models with second-row captain’s chairs) and includes effortless third-row access using the available one-touch second row seats. When you need to load gear, groceries or goodies, the Pilot is up to the task with easy fold-down 60/40 split-folding rear seats in both the second and third row. Plus, the rear cargo boasts ample space, easily fitting a 77.6-litre (82-quart) cooler.

From what’s inside to what’s under the hood, with the Earth Dreams™ technology engine, the 2019 Pilot is designed to enhance fuel efficiency ratings without sacrificing performance. And to help every litre go further, the Variable Cylinder Management® (VCM®) system is designed to automatically switch between 6 and 3 cylinders, depending on the driving conditions. When you’re ready to ride, the Pilot has enough stop and go to handle the ups, downs and turns that virtually any trip can offer.

Key Versatility Features:
- 8 passenger seating (7 passenger seating on 7-passenger Touring and Black Edition models),
- 60/40 split-folding second-row and third-row seats,
- Reversible cargo lid with hidden cargo mode,
- Centre console with smartphone sliding tray,
- Available one-touch second row seats

Key Performance Features:
- 3.5-litre, 24-valve, Direct Injection, SOHC, i-VTEC® V6 engine with Variable Cylinder Management® (VCM®), 280 horsepower and 262 lb.-ft of torque,
- 1,588 kg or available 2,268 kg towing capacity,
- 6-speed or available 9-speed automatic transmission,
- Intelligent Variable Torque Management (i-VTM4™) AWD system,
- Intelligent Traction Management system,
- Available steering wheel-mounted paddle shifters,
- Available idle-stop technology

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
2. Accessory towing packages required, available at an additional cost as a dealer-installed item. See your Owner’s Manual for proper towing operation.

Convenience with a kick. With the available power tailgate with hands-free access, never get caught holding the bag, box, or bike again.
Get their show on the road.

A road trip is the perfect way to unwind, sightsee, and get lost in the moment. And the Pilot is a multitasker loaded with sophisticated tech features designed to get you on your way, without losing your way.

With Apple CarPlay™1,2 and Android Auto™1,2 your Pilot has the soul of a smartphone. The available Honda Satellite-Linked Navigation System™1,3 lets you plan as you go with arrival time and lane guidance, while the available Honda LaneWatch™ blind spot display helps you to keep more of your right side in sight. And no matter where your outing takes you, keep the gang entertained with the available Advanced Rear Entertainment System with Blu-ray™ player and 10.2-inch screen.

---

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle’s Owner’s Manual.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle’s built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

Peace of mind in the palm of your hand.

The Pilot is just as tech-savvy as you. The available HondaLink™ Subscription Services help connect you to a world of features both inside and outside of your vehicle, while other available apps and features are designed to entertain and inform.

HondaLink™ Subscription Services

Remote Door Lock/Unlock
Whether you’re locked out or forgot to lock up, count on quick, keyless entry and remote assurance from almost anywhere.

Geofence Alert
Get notified when your car enters or leaves a designated region.

Stolen Vehicle Locator
Designed to help recover your stolen vehicle faster. The system uses sophisticated technology to assist the authorities with attempting to find your vehicle.

Auto Collision Notification (ACN)
In the event of an accident, a Response Agent automatically checks in and helps send emergency care, even when passengers aren’t able to respond.

Advanced Connectivity

AT&T Wi-Fi Hotspot
Connect up to seven compatible devices with your vehicle’s available built-in Wi-Fi hotspot. Enjoy up to 4G LTE speeds on multiple devices. From the open road, you’ll be able to stream hours of videos, play games, get real-time email access and surf the web. You’ll be able to stay connected up to 50 feet away from your Pilot.

CabinControl™ app
The standard CabinControl™ feature gives everyone the opportunity to control the rear temperature, add music to a playlist and send an address to the available Honda Satellite-Linked Navigation System™.

“How Much Farther?®” app
The available "How Much Farther?®" app is a child-friendly navigation tracking App built in to the Rear Entertainment System. Using multiple background themes with animation, your passengers can track the trip’s progress in a fun and interactive way.

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle’s Owner’s Manual.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle’s built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged to your wireless carrier) may apply.

3. Subscription to HondaLink™ services is required. HondaLink™ equipped vehicles come with complimentary time-limited trial subscriptions; fees, taxes and other charges will apply in order to continue subscription services after trial expiry. The availability of certain GPS satellite and/or cellular network is required for HondaLink™ to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Some restrictions may apply. For additional HondaLink™ information, please visit www.honda.ca/hondalink and www.honda.ca/privacy.

4. New vehicles are equipped with a complimentary time or data trial period, whichever comes first. After the trial period, contact AT&T or visit att.com/honda to purchase available data plans. 4G LTE connection speeds may vary by region.

The Pilot comes standard with Honda Sensing™ technologies. These safety and driver-assistive technologies are designed to help improve the driver’s situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity.

Forward Collision Warning (FCW) system
The FCW system is designed to detect the presence of vehicles in front of you and issue audible, visual and tactile alerts if you’re approaching with too much speed. If you fail to respond, CMBS® is triggered into operation.

Collision Mitigation Braking System™ (CMBS®)
To help reduce the likelihood or severity of a frontal impact, CMBS® is engineered to apply light brake pressure if you don’t respond to FCW system alerts. If it still senses an imminent collision, CMBS® is designed to brake forcefully.

Lane Departure Warning (LDW) system
The LDW system is designed to monitor vehicle lane position and issue visual and tactile alerts if your vehicle drifts into another detected lane without signaling.

Lane Keeping Assist System (LKAS)
The LKAS® is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Road Departure Mitigation (RDM) system
The RDM system is designed to help steer and even apply the brakes if it detects that your vehicle may leave the road.

Adaptive Cruise Control (ACC)
The ACC system is designed to keep a constant speed and set following interval behind a vehicle detected in front of you.

Has a sixth sense for safety.
Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. With this added peace of mind, our drivers have the confidence to enjoy every road to the fullest.

Passive Safety

Advanced Compatibility Engineering™ (ACE™) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

Child safety

The Pilot features childproof rear door locks as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle’s seat belt system.

HondaLink™ Assist Automatic Emergency Response System

The HondaLink Assist Automatic Emergency Response System™ helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you peace of mind while you’re on the road.

Seat belt safety

The Pilot helps prepare you for the unexpected with 3-point height-adjustable front seat belts with an automatic tensioning system, and 3-point rear seat belts in the second and third rows.

Six standard airbags

The cabin of the Pilot contains six standard airbags. It features an advanced front airbag system as well as three-row side curtain airbags with rollover sensors, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has SmartVent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Solid frame structure

Like all Honda trucks, the Pilot is built with a rigid uni-body frame for added strength, stability and vehicle handling.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and breakaway wiper pivots.

Active Safety

Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System™ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Tire Pressure Monitoring System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System continually checks the air pressure in each tire. If pressure drops in any tire, the driver receives a dashboard alert.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist® is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist

If you take your foot off the brake when stopped on an incline, this feature is engineered to temporarily maintain brake pressure to help prevent your Pilot from starting to roll backwards.

Auto high beam

The auto high beam feature automatically changes the low beam headlights to high beam headlights in certain circumstances to help improve your vision.
Make it your Honda.

With countless customizable accessories and configurations, let the Pilot show off what you’re all about.
Accentuate your style.

Hood edge deflector, low profile
Door visor
Roof rack crossbars
Trailer hitch

Front grille
Lower door garnish, black
Body side moulding

WARNING

- Do not exceed the recommended speed limits, even with adaptive cruise control engaged. Always drive carefully and safely, according to the road and traffic conditions.
- Always wear your seat belt and encourage your passengers to do the same.
- Never drive distracted or while using mobile devices.
- Do not drink and drive.
We’re Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We’re Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the United States (including the lower 48 states, the District of Columbia, Alaska, Hawaii, and Puerto Rico). Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that’s uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor’s Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.
The Power of Dreams

At Honda, The Power of Dreams drives us to create intelligent products that enhance mobility and increase the joy in people’s lives. It is the mindset that guides us to help move people forward and protect the future we all share.

How do we do it? We never stop dreaming. In the ’70s, we were the first automaker in the industry to voluntarily adhere to emissions standards. Now, we’re advancing robotics and aviation, harnessing solar power and releasing a car that emits only water.

Through it all, our goal never changes: create a safer, smarter world in which people experience the joy of mobility.

The Honda Canada Foundation

The Honda Canada Foundation enables the realization of dreams by supporting people and organizations across the country that focus on four pillars: Family, Education, Environment and Engineering. Since 2005, more than 5.5 million Canadians have benefited from charitable programs funded by the Honda Canada Foundation.

Blue Skies for Our Children

We believe everything we do must exist in harmony with nature. That’s where “Blue Skies for Our Children” was born. It’s more than a mantra – it’s an environmental pledge to the Earth and our future generations. And we’re practicing what we preach.

Leading the LEED® certifications

Our sales offices also strive for environmental efficiencies. Honda’s LEED® (Leadership in Energy and Environmental Design) Gold Certified Head Office campus in Markham, Ontario, includes green features such as a storm water management system, heat-reflective materials on the roof and bio swales for natural filtration. The facility uses 49 percent less litres of water per square foot and 38 percent less kilowatt hours of energy annually than the average office facility.

Zero Waste-to-Landfill

We don’t waste time. Or anything else for that matter. Our goal is to increase our recycling efforts, reduce overall waste and divert materials from landfill sites. In fact, last year we sent less than one percent of waste to landfills from our office and parts distribution facilities combined.

One Honda. One Tree.

We’re pretty obsessed with fresh air. For every lawn and garden or ATV product sold between April 1 and July 31 annually, the Honda Canada Foundation plants one tree. In the last 12 years, we’ve helped plant more than 160,000 trees in Canada.

Environmental Vehicles & Technology

Blending style, efficiency and a serious amount of thrill, the Accord Hybrid makes environmental responsibility feel almost rebellious. Combining a lithium-ion battery with a 2.0-litre engine, this Hybrid lets you go more and stop less on the way. The Honda Insight exemplifies hybrid efficiency, powered by a 1.5-litre Atkinson Cycle engine, electric motor and lithium-ion battery. And the future looks brighter with Honda advancing Fuel Cell technology that emits zero emissions.

Honda Clarity Plug-in Hybrid

Whoever said an eco-conscience came with compromise was sorely mistaken. This advanced plug-in hybrid vehicle lets you tap into electric power alongside the gas engine to create extra efficiency.
