

UPSCALE LUXURY MEETS BOLD
BLACK OPS

Tuscany, one of the largest Ford-approved specialty vehicle manufacturers in the country, has developed the F150 and F250 "BLACK OPS" to honor the brave men and women of the United States armed forces. We believe in the theme of this truck and what it stands for.

As a way to confirm our profound belief in America and the people who have fought for our freedoms, we will donate \$200 to the Wounded Warrior Project for every "BLACK OPS" edition truck produced.

Tuscany has installed reverse American flags in the headrests to honor our active military currently in combat zones. These reverse flags represent the way they are worn on our soldier's combat uniforms to symbolize the flag flying into battle.
